16. Utilities on register by make of vehicle and tare	31
17. Panel vans on register by make of vehicle and tare	32
18. Motor vehicles on register by type of vehicle and State	33

## EXPLANATORY NOTES

### Introduction

This bulletin contains particulars of motor vehicles, tractors, plant and equipment, caravans and trailers which were "on register" in Australia on 30 September 1976. Similar bulletins have been issued for each State and Territory.

### Background

2. The most recent Motor Vehicle Census prior to 30 September 1976 was taken on 30 September 1971. Since that date the 1971 Census figures have been regularly updated by reference to data relating to first registrations and registration cancellations. While this procedure satisfactorily provides intercensal estimates of the number of vehicles on register, the series so derived are approximate and are subject to revision until the number of vehicles on register is ascertained at the next motor vehicle census.

### Scope

3. The statistics contained in this bulletin have been derived from information made available by the motor vehicle registration authorities and include vehicles with diplomatic plates and Australian Government owned vehicles except those belonging to the defence services. It should be noted however that many vehicles, including tractors (particularly the agricultural types), plant and equipment, and motor vehicles used solely on farms, in mines, etc. are not used on public roads and are therefore not required to be registered. These vehicles, together with vehicles which do use public roads but are exempt from normal registration requirements are excluded from these statistics.

### Definition

4. For census purposes, vehicles on register at 30 September 1976 are defined as those vehicles for which registration was effective for a period including 30 September 1976, the registration fees being paid either in advance or on that date, or retrospectively. Since the registration authorities accept renewals of registrations some time after the due date, it was necessary to analyse registration transactions occurring after 30 September 1976 for an appropriate period to ensure that all relevant retrospective transactions were taken into account.

### Classification

5. Vehicles have generally been classified according to information recorded in registration documents. The amount of detail that can be published is primarily dependent on the data recorded in those documents. As the registration documents used by the various motor vehicle registry systems are not uniform, either in the data variables that are available or in the definition of common variables, care must be taken when making comparisons between data from different systems. For example, carrying capacity, where available, is recorded in some States according to legal limits imposed for a particular vehicle while in others it is recorded according to manufacturers' recommended specifications. It is also possible for identical vehicles to be described differently in different States, e.g. rear end door sedans may be registered either as cars or station wagons.

6. The vehicle type classification used for the 1976 Motor Vehicle Census is the same as that used in all new motor vehicle registration statistics published by the ABS since July 1976. This classification, which replaces that used in the 1971 Motor Vehicle Census has as its main features :

- (a) adoption of the principle of accepting vehicle type data as recorded by the registration authority;
- (b) allocation of commercial vehicles to the categories 'utilities', 'panel vans', or 'rigid trucks' solely on the basis of recorded body-type; under the previous classification system, these commercial vehicles were classified as 'light commercial type' (if having less than 1 tonne carrying capacity) or as 'rigid' (if having a carrying capacity of 1 tonne or more), the light commercial type being then further subdivided into "open" or "closed";
- (c) the inclusion in 'other truck types' of ambulances and hearses (previously classified as 'light commercial, closed') and motorised caravans.

7. The following table shows the vehicle type classifications used by the ABS in the last three Motor Vehicle Censuses.

31 December 1962

30 September 1971

30 September 1976

Motor cars (including ambulances and hearses)	Motor cars	Motor cars
Station wagons	Station wagons	Station wagons
Utilities	Light commercial type vehicles – Open (i.e. utilities and rigid trucks with carrying capacity less than 1 tonne)	Utilities
Panel vans	Light commercial type vehicles – Closed (i.e. ambulances and hearses, panel vans, and rigid trucks with carrying capacity less than 1 tonne)	Panel vans
Trucks	Trucks : rigid articulated	Trucks : rigid articulated
Other truck type vehicles (incl. some freight carrying vehicles e.g. concrete agitators)	Other truck type vehicles (non-freight carrying)	Other truck type vehicles (non-freight carrying and incl. ambulances and hearses)
Buses	Buses	Buses
Motor cycles	Motor cycles	Motor cycles

The format of the table does not imply that the three classifications across a line are directly comparable. However, for comparative purposes, in Table 1, 'open light commercial type vehicles' and 'closed light commercial type vehicles' so classified in the 1971 Census have been assigned to the categories 'Utilities' and 'Panel vans' respectively.

#### Related Publications

Users may also wish to refer to the following motor vehicle census publications which are available on request :

*Census of Motor Vehicles, 30 September 1976 – Preliminary Statement* (Ref. No. 14.15)

*Census of Motor Vehicles, 30 September 1976 – Final Statement* (9307.0)

*Motor Vehicle Census, 30 September 1976 –*  
*New South Wales – (9301.0)*  
*Victoria – (9302.2)*  
*Queensland – (9302.3)*  
*South Australia – (9301.4)*  
*Western Australia – (9303.5)*  
*Tasmania – (9302.6)*  
*Northern Territory – (9308.0)*  
*Australian Capital Territory – (9305.0)*

All publications produced by the ABS are listed in *Catalogue of Publications 1977* (1101.0) which is available free of charge from any ABS office.

#### NOTE:

As a result of minor revisions applied after the release of individual State motor vehicle census bulletins, the sum of components published in State bulletins may not add to corresponding figures included in this bulletin.
