**CENSUS OF THE COMMONWEALTH  
OF AUSTRALIA, 30TH JUNE, 1954.**

**VOLUME V. – WESTERN AUSTRALIA**

**PART V. – POPULATION AND OCCUPIED  
DWELLINGS IN LOCALITIES**

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER  
BY  
S.R. CARVER, ACTING COMMONWEALTH STATISTICIAN

## CENSUS OF THE COMMONWEALTH OF AUSTRALIA

30th June, 1954

VOLUME V.

WESTERN AUSTRALIA

PART V. – POPULATION AND OCCUPIED DWELLINGS IN LOCALITIES WITH A  
POPULATION OF 50 PERSONS OR MORE

## PREFACE

This publication shows, for the State of Western Australia, the numbers of occupied dwellings and of males, females and persons in each locality with a population of 50 persons, or more.

This is the first Part issued of the five Parts which will constitute the complete Census Volume for the State of Western Australia. The remaining four Parts, which will be issued as the relevant information becomes available, will be entitled : Part I. – Analysis of Population in Local Government Areas and in Non-municipal Towns; Part II. – Cross-classifications of the Characteristics of the Population; Part III. – Analysis of Dwellings in Local Government Areas and in Non-municipal Towns; and Part IV. – Cross-classifications of the Characteristics of Dwellings and of Householders. A similar Volume will be prepared for each State, for the Territories, and for Australia as a whole.

The foregoing arrangement, which provides for the progressive issue of Census information for each State and a separate volume for convenient reference to all information published for a State, is a departure from previous practice when a series of approximately 30 Census Parts was published, some Parts dealing specifically with data for individual States and others presenting both State and Commonwealth details in respect of a single characteristic of the population or of the dwellings.

At previous Censuses a series of 25 preliminary Census Bulletins was published giving particulars of population and dwellings in summary form for each State and Territory, but it is not proposed to repeat this issue for the 1954 Census, and only a few preliminary Bulletins will be published as the need arises.

As for the 1947 Census, provision has been made for the issue of a number of supplementary statements in mimeograph form. A list of the 1954 Census publications already issued is shown inside the back cover of this Part.

Explanatory Notes relative to the contents of the Part follow this Preface.

S.R. CARVER  
ACTING COMMONWEALTH STATISTICIAN

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS  
CANBERRA

5TH APRIL, 1955.

## EXPLANATORY NOTES

The particulars shown in this Part relate to the numbers of the population and occupied dwellings in cities, towns and other localities throughout Western Australia in which 50 or more persons were enumerated at the Census of 30th June, 1954.

All dwellings enumerated in the rural sections of the State have been allotted to localities, and details of localities which at Census date had a population of less than 50 persons, and which are, therefore, excluded from this Part, are available in the Census records.

Particulars of any locality, whose population was wholly or mainly included within the Metropolitan Area of Perth, or the urban area of Fremantle or Kalgoorlie, or within any Municipality, have not been separately recorded. Where the major proportion to the population of a locality was situated outside the boundaries of any such areas, separate particulars are shown for that portion of the locality only, but not for the portion located inside. For the Metropolitan Area and the urban areas of Fremantle and Kalgoorlie, the totals of each Municipality or Road District included therein are shown, as well as totals for the whole areas.

Generally in the rural areas clearly defined boundaries of towns and other localities are not available, and the figures shown have been derived from Census schedules relating to the dwellings which were stated to be within the generally accepted limits of the town or district specified. Wherever the requisite information was available from Census Collectors or from Census maps, details of towns were compiled separately, but in the absence of information necessary to separate the town from the surrounding district, the whole area has been regarded as one locality, which may, therefore, cover a very wide area, especially in the less densely settled parts of the State. Dwellings located beyond the limits of a town for which details were separately recorded, and which were in an area which had no other recognized name, were recorded as "near" the appropriate town. In such cases, details are shown for both town and "near" where either had a population of 50 persons or more.

For the purposes of the 1954 Census, boundaries were delineated to embrace the urban areas of towns with a population of 1,000 persons or more which were not separately incorporated for purposes of local government. Such towns have been termed Non-municipal Towns and are indicated in the 1954 Census publications by the addition of the letters "N.M." after the name of the town.

The names of the Local Government Area and the Statistical Division in which each locality is situated are also shown. These "Statistical Divisions" are identical with those used in State Statistical publications. Maps showing the constitution of these Divisions will be found in Part I of this Volume (see Preface).

The particulars in this Part exclude the numbers of full-blood aboriginals and of dwellings occupied solely by them. Figures shown for aboriginal settlements and aboriginal mission stations relate mainly to half-caste population.

Wherever practicable, information concerning construction and other settlements or camps is shown separately from the general town population. Particulars of military camps or other defence establishments are not shown, however.

For the purpose of the Census, a "dwelling" is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or part of a building. The term has, therefore, a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution.

---
