6. Hours (number usually worked)	34
7. Industry	36
8. Marital status	42
9. Nationality	49
10. Occupation	52
11. Occupational status	57
12. Period of residence in Australia (non-Australian born)	69
13. Race	76
14. Religion	80
<u>General Tabulations : Incorporating Dwelling Characteristics</u>	
15. Class of dwelling	85
16. Date of building	111
17. Facilities (gas, electricity, etc.)	115
18. Inmates (number)	117
19. Material of outer walls	121
20. Motor vehicles (number)	125
21. Nature of occupancy	127
22. Reason for being unoccupied	135

INTRODUCTORY NOTES

The aim of this publication is to acquaint users of Census data with the full range of information available from the 1966 Census and to increase public awareness of the available information so that maximum benefit is derived from the Census.

2. The following catalogue contains a full list of Census tabulations which are available for general use. It excludes a number of tabulations which were produced for specific internal research projects.

3. For easy reference, the catalogue has been divided into a number of sections, each section being devoted to a particular characteristic and containing a list of all relevant tabulations. Tabulations which incorporate a number of characteristics are listed under each of the appropriate sections. For example, Tab. No. 3 - Age x Birthplace x Education - appears under each of the sections, "Age", "Birthplace" and "Education". Details of the range of classification for each characteristic are outlined at the front of each section.

4. The various geographical levels for which Census data are available are described in general terms below :

- (a) Metropolitan Area : Relates to the "urban" or "built-up" area of each capital city.
- (b) Other Urban : Represents the sum of all urban centres other than the metropolitan areas.
- (c) Rural : Represents all areas outside those areas classified as "metropolitan area" or "other urban".
- (d) Migratory : Refers to persons who, at midnight between 30 June 1966 and 1 July 1966, were enumerated on board ships in Australian ports, or ships which had left an Australian port prior to Census night with a next port of call in Australia. It also includes persons who, at Census time, were enumerated on long-distance trains, motor coaches or aircraft.
- (e) Statistical Divisions : Broad geographical divisions of each State. The boundaries of the State capital city statistical divisions were designed to encompass an area which is expected to contain the urban development of the metropolitan area for at least twenty years and which is considered to be socially and economically oriented to the metropolitan area.
- (f) Statistical Districts : These are districts defined, in respect of Canberra, Newcastle, Wollongong and Geelong, on basis similar to that used for designing State capital city statistical divisions.
- (g) Local Government Areas : The figures available relate to these areas as defined at the time of the 1966 Census. Figures for urban (i.e. urban centres) and rural components of local government areas are shown separately.

- (h) Collector's Districts : Some 20,000 such districts were designed at the 1966 Census to facilitate the distribution and collection of Census Schedules. Collector's districts are the smallest units of area for which Census data are available. A typical collector's district in an urban area comprises approximately 250 dwellings and about 1,000 persons.

A more detailed explanation of the methods used at the 1966 Census for defining metropolitan areas, other urban centres, statistical divisions and districts, together with maps showing the boundaries of most of the areas mentioned above, are contained in 1966 Census Bulletin No. 9.8 and will be repeated in Volume 4 of the printed volumes currently being prepared. Maps of collector's districts are not available for distribution but can be inspected in this office. Copies of similar maps, for any particular State, may also be inspected in the office of the Deputy Commonwealth Statistician for that State.

5. All of the tabulations are in the form of computer print-out. The number of pages comprising each tabulation is indicated in the far right-hand column of the catalogue.

6. Some of the data from the tabulations indicated in the catalogue have already been published in a series of mimeographed bulletins and a large amount of additional data will be published in the printed volumes now being prepared. Appendix "A" contains a complete list of the 1966 Census publication programme. Much of the data will, however, remain unpublished.

Supply of 1966 Census Data

7. Enquiries concerning the supply of data from any of the tabulations described in the catalogue should be directed to :

The Commonwealth Statistician,
Bureau of Census and Statistics,
CANBERRA. A.C.T. 2600

8. At the present time, the data are not in a readily distributable form and requests can be satisfied only by means of manual extraction of the data from the tabulations or by means of photo-reduction (the expense of which must be met by enquirers) of the relevant computer pages.

9. As resources for providing these services are limited, it would be appreciated if enquirers would specify their requirements precisely and confine their requests only to data which are of immediate interest. It would also assist in meeting requests if enquirers would briefly explain how they intend to use Census information.

<u>STATE</u>		<u>GEOGRAPHICAL LEVEL</u>	<u>SECTION OF STATE</u>

SECTION 30

FAMILY AND HOUSEHOLD ANALYSIS

FAMILY AND HOUSEHOLD ANALYSIS - NOTES ON TABULATIONSSource of Data

The major source of the data required for the identification of families is the Census question on relationship to the head of the household, although other data such as age, marital status, name, etc. are also frequently required. Basically households are identified in the field.

Each person was given a three-part code during a manual coding operation :

- (a) Relation to the head of the family.
- (b) Family number.
- (c) An indicator whether any secondary family was related to the "primary" family.

The following is a summary of the coding instructions used.

Types of family

There are two types of family units - primary and secondary :

- (a) The Primary Family Unit (PFU) is the family whose head is also head of the household and can consist of one person.
- (b) The Secondary Family Unit (SFU) is all other families in the household and must consist of at least two persons.

Heads of families

The head of the household (and of the PFU) is in general the person claiming to be the head. Where present, this is usually the husband, unless the wife claims to be head and is engaged in an industry and the husband is a pensioner or engaged as helper in the wife's business. In the SFU, with the same exceptions, the head is the father. If the father is absent the mother is the head.

Categories of relationship to the head of household

- (i) The head
- (ii) The spouse of the head
- (iii) Issue child of the head
- (iv) Other child of head
- (v) Ancestors of head or spouse
- (vi) Other members of family
- (vii) Other relatives of PFU of younger generation
- (viii) Other relatives of PFU of older or same generation
- (ix) Boarders
- (x) Other unrelated persons

Categories (i)-(iv) can occur in either a PFU or SFU while categories (v)-(vi) can only occur in the PFU with one exception for children given below. Categories (vii)-(x) are excluded from the family analysis but included in household analysis.

Notes on relationship categories

Children

Issue children are those with one or both parents present where the parent(s) is married (excluding separated, widowed or divorced). Adopted children are treated as issue. Other children are those who are under 16 and have no ever-married parent present.

Children who are themselves married or accompanied by children of their own are not regarded as children. In classifying families, children over 15 have been treated as other members of the family and for this reason an SFU may contain persons of category (vi) above.

Ancestors

These include direct ancestors of the head or spouse such as father, grandfather, etc. but not aunts, uncles, etc. Ancestors are included in the PFU whether or not married or accompanied by children of their own.

Other family members

In addition to unmarried children over 15 these include brothers and sisters of the head (or his spouse) not married or accompanied by children of their own.

Other relatives

These include, for the younger generation, sons/daughters, grandsons/daughters married but with no spouse or child(ren) present. Grandchildren, nephew/niece of any marital status, 16 years of age and over without parent(s), spouse or children present. For the older or same generation these include brother/sister married but without spouse or children present; uncle and/or aunt provided that any two do not constitute an SFU; cousin of any marital status, 16 years of age and over without parent(s), spouse or children present.

Boarders and other unrelated persons

Include visitors, etc. and boarders in private dwellings.

Scope of statistics

Due to difficulties of coding and the incomplete state of most families enumerated in non-private dwellings the coding and tabulation of households and families is limited to occupants of private dwellings. To facilitate the programming of the classification an arbitrary limit of 25 persons has been placed on private dwellings.

Certain persons have been treated as non-family members and omitted from the process of classifying families, but the classification of households takes account of the relationships of all persons to the head of the household and there is a one-to-one relationship between households and private dwellings.

Dwellings occupied wholly by Aborigines of more than half descent have been excluded from the analysis but all occupants of in-scope dwellings have been included. Figures of total persons in households, where shown, may thus exceed the total population in private dwellings excluding full-descent Aborigines shown in other Census tables.

The de facto nature of the Census should be remembered, when interpreting family or household tables.

The classification of families

Families and households have been classified during tabulation. In the classification of families, children of the family have been included if aged 15 years or under. Those of higher age have been treated as "other adults". In families coded 24-29 in the following classification, all "other adults" are children so treated as adults in the dwelling other than head or spouse are either included in the primary family unit or excluded from the analysis.

Except for categories 1-3 referring to primary families with only one member, there is a correspondence between codes for primary family unit (PFU) and secondary family unit (SFU).

	CODE		DESCRIPTION
	PFU	SFU	
1	-	-	Head only age less than 30 years
2	"	"	" " " 30-44 years
3	"	"	" " " 45 years or over
4	-	-	Head and spouse only head less than 30 years
5	"	"	" " " " 30-44 years
6	"	"	" " " " 45 years or over
7	20	20	Head and 1 or 2 children
8	21	21	" " 3 or more children
9	22	22	Head, spouse and 1 or 2 children
10	23	23	" " " 3 or more children
11	24	24	Head and other adults
12	25	25	Head, spouse and other adults
13	26	26	Head, one child and other adults
14	27	27	Head, two or more children and other adults
15	28	28	Head, spouse, one child and other adults
16	29	29	Head, spouse, two or more children and other adults

The classification of households

	Code	Composition
1		Single family household of one person
2		Single family household of more than one person
3		PFU
	AND	
4		Related SFU(s) and/or other relatives of PFU
	AND	
	PFU of one member	
	AND	
5		Non-related SFU(s) and/or non-related persons
	AND	
6		As for 4 but PFU has more than one member
	AND	
	PFU	
	AND	
	Related SFU(s) and/or other relatives of PFU	
	AND	
	Non-related SFU(s) and/or non-related persons

APPENDIX A

1966 CENSUS OF POPULATION AND HOUSING PUBLICATIONS
issued by the Commonwealth Bureau of Census and Statistics

Information from the 1966 Census of Population and Housing is in three series of publications :

FIELD COUNT STATEMENTS (in mimeographed form). Contain preliminary figures compiled by field personnel during the taking of the Census. These have been superseded by the Census Bulletins.

BULLETINS (mimeographed). Contain preliminary results from the Census.

In most cases these Bulletins will be superseded by a corresponding Part of the printed Volumes.

The mimeographed Bulletins are available in limited numbers free of charge from the Commonwealth Statistician, Canberra.

Bulletins Nos 1 to 8 were issued in separate parts for Australia, each State and Territory.

- No. 1. Summary of Population.
- No. 2. Summary of Dwellings.
- No. 3. Population : By age and Marital Status.
- No. 4. Population : By Industry and Age.
- No. 5. Overseas-Born Population : By Birthplace and Nationality.
- No. 6. Population : By Industry and Occupational Status.
- No. 7. Population : By Marital Status, Age and Occupational Status.
- No. 8. Population and Dwellings -
 - Local Government Areas and Urban Centres (N.S.W., Vic., Qld, S.A., W.A., Tas.).
 - Police Districts (N.T.).
 - Administrative Divisions (A.C.T.).
 - Local Government Areas, Urban Centres, etc. (Australia).
- No. 10. Census of the Territory of Norfolk Island.
- No. 11. Census of the Territory of Christmas Island.
- No. 12. Census of the Territory of Cocos (Keeling) Islands.
- No. 13. Census of the Territory of Nauru.
- The Aboriginal Population (Revised Statement) : States and Territories of Australia.
- The Aboriginal Population of Australia : Summary of Characteristics.

VOLUMES (printed). These are now in the course of publication. There are six volumes, five of which consist of a number of separate Parts.

Vol. 1. **POPULATION : SINGLE CHARACTERISTICS -**

- Part 1. Age.
- Part 2. Marital status.
- Part 3. Birthplace.
- Part 4. Nationality.
- Part 5. Period of residence.
- Part 6. Educational attainment.
- Part 7. Religion.
- Part 8. Occupational status.
- Part 9. Industry.
- Part 10. Occupation.
- Part 11. Race.

Vol. 2. POPULATION : RELATED CHARACTERISTICS -

- Part 1. Growth and distribution of the population.
- Part 2. Demographic data.
- Part 3. The overseas-born population.
- Part 4. The work force.
- Part 5. Families and households.

Vol. 3. HOUSING

Vol. 4. POPULATION AND DWELLINGS IN LOCAL GOVERNMENT AREAS -

- Part 1. New South Wales.
- Part 2. Victoria.
- Part 3. Queensland.
- Part 4. South Australia.
- Part 5. Western Australia.
- Part 6. Tasmania.
- Part 7. Northern Territory and Australian Capital Territory.

Vol. 5. POPULATION AND DWELLINGS IN LOCALITIES -

- Part 1. New South Wales.
- Part 2. Victoria.
- Part 3. Queensland.
- Part 4. South Australia.
- Part 5. Western Australia.
- Part 6. Tasmania.
- Part 7. Northern Territory and Australian Capital Territory.
- Part 8. Australia.

Vol. 6. STATISTICIAN'S REPORT -

- Part 1. Introduction.
- Part 2. Preparation for the Census.
- Part 3. The enumeration.
- Part 4. Processing the data.
- Part 5. Dissemination of results.
- Part 6. Evaluation.

Distribution Arrangements. Printed publications may be purchased through the post or over the counter from the Commonwealth Sub-Treasury in each State capital (except Melbourne) and the Deputy Commonwealth Statistician in each State capital; through the post from the Assistant Director, Sales and Distribution, Australian Government Publishing Service, P.O., Box 84, Canberra, A.C.T., 2600; and over the counter from the A.G.P.S. Book Centre, 113-115 London Circuit, Canberra City, the A.G.P.S. Book Counter, Government Printing Office, Wentworth Avenue, Canberra, A.C.T., the Government Book Counter, The Foyer, Commonwealth Centre, Chifley Square, Sydney, N.S.W., or the Government Bookshop, 247 Swanston Street, Melbourne, Victoria.

Prices including postage are available on application and in Publications of the Commonwealth Bureau of Census and Statistics available free from the Commonwealth Statistician, Canberra, A.C.T., 2600.

APPENDIX B

1966 CENSUS POPULATION AND HOUSINGExplanatory Notes on Personal and Dwelling Characteristics1. Personal CharacteristicsAge

Persons were asked to state age in accordance with the following instructions :

State age in years and completed months. If aged under one year, state age in completed months (for example, a child of eleven months should be shown as '0' years '11' months). If aged under one month, write '0' years '0' months.

This question is more specific than that asked at the 1961 Census, which sought 'age last birthday' (in years). The change should overcome some mis-statement of age due to rounding. Similarly, it is expected that confusion in the reporting of ages of young children (which are conventionally thought of in 'months' up to the age of about two years) should now be largely obviated.

Prior to the 1954 Census ages 'not stated' were tabulated as such for urban and rural sections of each State and later distributed to specific ages in accordance with the frequency of stated ages. In the 1954 and later Censuses, 'not stated' ages were individually estimated prior to tabulation by firstly establishing the minimum range of ages within which the 'not stated' age most probably lay (as indicated by other information supplied in the Householder's Schedule) and by then selecting an age from within that range from a table of random ages according to sex. This table had been compiled previously using the latest estimates of the age distribution of the population which were available at the time.

The proportion of persons who failed to state an age is very small.

Marital status

Persons were asked to state marital status in accordance with the following instructions :

If never married, write 'N.M.'; at present married, write 'M'; married but permanently separated (legally or otherwise), write 'P.S.'; divorced and not remarried, write 'D'; widowed and not remarried, write 'W'.

A very small proportion of persons omitted to state any marital status. In such cases, marital status was assessed as follows.

Males under 20 years of age and females under 18 years of age were classified 'never married' unless there was definite evidence of marriage given in the Schedule, in which case they were classified 'married'. All other persons were classified 'married' if there was any evidence of marriage given in the Schedule. Otherwise a marital status was allocated from a random list according to the age and sex of the person concerned. The random list for the allocation of 'not stated' marital status had been compiled previously using the latest available statistics of the distribution of the population by marital status.

Birthplace

Persons were asked to state birthplace in accordance with the following instructions :

For persons born in Australia write name of the State or Territory where born. For persons born outside Australia write the name of the country where born (not town or locality).

For the small number of cases where no reply was given, the allocation of a birthplace was made in accordance with other information on the Schedule (usually nationality).

Nationality

Persons were asked to state nationality in accordance with the following instructions :

State nationality or citizenship of the person in relation to the country to which he or she owes legal allegiance, for example : 'Australian', 'British', 'French', 'Stateless', etc. If Australian or British by naturalisation, write 'Australian' or 'British'.

This section relates to nationality rather than to citizenship and consequently the category 'British' includes all persons who, by virtue of the Nationality and Citizenship Act 1948-1966, are deemed to be British subjects. Under Section 7 of the Act this includes citizens of : '(a) the United Kingdom and Colonies; (b) Canada; (c) New Zealand; (d) the Union of South Africa; (e) India; (f) Pakistan; (g) Ceylon; (h) the Federation of Rhodesia and Nyasaland; (i) Ghana; (j) the Federation of Malaya; (k) the State of Singapore'.

Also included as 'British' are persons who, under the Nationality and Citizenship Act 1948-1966, are Australian citizens or citizens of any other country declared by Regulation 5A of the Citizenship Regulations to be 'a country within the Commonwealth of Nations'. These are the Federation of Nigeria, the Republic of Cyprus, Sierra Leone, Tanganyika, Trinidad and Tobago, Uganda, Jamaica, and Malaysia.

Irish nationality is included with British.

In the small number of cases where nationality was not stated, allocation of a selected nationality was made in accordance with other information on the Schedule (usually birthplace).

Period of residence in Australia

Persons were asked to state period of residence in Australia in accordance with the following instructions :

For persons born outside Australia write the number of completed years of continuous residence in Australia ignoring absences of less than twelve months. If resident less than twelve months, write '0'.

Education

Persons were asked to state their level of education in accordance with the following instructions :

New South Wales :

For each person state the highest level of schooling completed. If passed at Leaving or Matriculation level, write 'M'. If passed at Intermediate level, write 'J'. If attended secondary school (e.g. high, technical, non-Government) but passed no examinations at Intermediate level or above, write 'H'. If attended or completed infants', or primary school or passed final primary examinations such as Qualifying Certificate (Q.C.), Merit or High School Entrance, write 'P'. If never attended school, write 'N'.

Victoria :

For each person state the highest level of schooling completed. If passed at Leaving or Matriculation level, write 'M'. If passed at Intermediate level, write 'J'. If attended secondary school (e.g. high, technical, non-Government) but passed no examinations at Intermediate level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examinations such as Qualifying Certificate (Q.C.), or Merit, write 'P'. If never attended school, write 'N'.

Queensland :

For each person state the highest level of schooling completed. If passed at Senior or Matriculation level, write 'M'. If passed at Junior level, write 'J'. If attended secondary school (e.g. high, technical, non-Government) but passed no examinations at Junior level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examinations such as the Scholarship or High School Entrance, write 'P'. If never attended school, write 'N'.

South Australia :

For each person state the highest level of schooling completed. If passed at Leaving or Leaving Honours level, write 'M'. If passed at Intermediate level, write 'J'. If attended secondary school (e.g. high, technical, non-Government) but passed no examinations at Intermediate level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examination such as Qualifying Certificate (Q.C.), Progress Certificate or Inspectors' Examination, write 'P'. If never attended school, write 'N'.

Western Australia :

For each person state the highest level of schooling completed. If passed at Leaving or Matriculation level, write 'M'. If passed at Junior level, write 'J'. If attended secondary school (e.g. high, technical, non-Government, post primary) but passed no examinations at Junior level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examinations such as Qualifying Certificate (Q.C.), or Scholarship, write 'P'. If never attended school, write 'N'.

Tasmania :

For each person state the highest level of schooling completed. If passed at Matriculation or Schools Board (A and B certificate) level, write 'M'. If passed at Secondary School Certificate or Schools Board (C certificate) level, write 'J'. If attended secondary school (e.g. high, technical, non-Government) but passed no examinations at Secondary School Certificate level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examinations such as Qualifying Certificate (Q.C.), Scholarship or Merit, write 'P'. If never attended school, write 'N'.

Northern Territory :

For each person state the highest level of schooling completed. If passed at Leaving, Matriculation, Senior or Schools Board (A and B certificate) level, write 'M'. If passed at Intermediate, Junior or Secondary School Certificate level, write 'J'. If attended secondary school (e.g. high, technical, non-Government, post primary) but passed no examination at Intermediate etc., level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examinations such as Qualifying Certificate (Q.C.), Merit, High School Entrance, Scholarship, etc., write 'P'. If never attended school, write 'N'.

Australian Capital Territory :

For each person state the highest level of schooling completed. If passed at Leaving, Matriculation, Senior or Schools Board (A and B certificate) level, write 'M'. If passed at Intermediate, Junior or Secondary School Certificate level, write 'J'. If attended secondary school (e.g. high, technical, non-Government, post primary) but passed no examination at Intermediate etc., level or above, write 'H'. If attended or completed infants' or primary school or passed final primary examinations such as Qualifying Certificate (Q.C.), Merit, High School Entrance, Scholarship, etc., write 'P'. If never attended school, write 'N'.

Note : For persons whose highest level of schooling was received overseas, or in another Australian State or Territory, give what is considered to be the equivalent in terms of the above categories.

In addition to the above, which relates to level of schooling, persons with qualifications received after completion of formal schooling were required to supply information in accordance with the following instructions :

State the person's qualifications, trade training or other qualifications and the institution at which obtained e.g. Bachelor or Engineering, University of Sydney; Diploma of Architecture, South Australian Institute of Technology; A.A.S.A.; Certificate of Management, Hobart Technical College; Five years' Apprenticeship.

The information obtained was used to determine two additional levels of completed education, namely : University degree and other tertiary qualifications. Particulars of individual qualifications are not available.

It was intended that persons attending secondary school who had not passed examinations at Intermediate level should answer 'H'. However, this intention was obscured by the use of the past tense in the instruction, with the result that some secondary school students were either recorded as having attended primary school ('P') or the level of schooling was not stated.

To provide for this misunderstanding, all 12, 13 and 14 year olds shown as 'P' were redistributed as 'P' or 'H' in proportion with age distributions obtained from the Department of Education.

In the cases where education level was not stated for children aged 0-16 years the level was determined as follows : Children aged 0-11 years were classified 'never attended school' or 'primary' according to relevant information on the Schedule

(particularly activity). Children aged 12-14 years were allocated in accordance with the proportion of children of each age in primary and secondary school as recorded by the Department of Education during the intercensal period. Children aged 15 or 16 years were classified 'secondary' where other information on the Schedule showed them to be still attending school.

Religion

Persons were asked to state their religion in accordance with the following instructions :

State the full name of the religious denomination. (There is no penalty for failure to answer this question.)

Section 21 of the Census and Statistics Act 1905-1966 provides that 'No person shall be liable to any penalty for omitting or refusing to state the religious denomination or sect to which he belongs or adheres'.

Owing to the very large numbers of persons who take advantage of the voluntary nature of the question and who failed to give any particulars regarding religion at the 1966 Census and at the three preceding Censuses, it is not possible to define precisely the composition of the population in terms of religious creed; neither is it possible to make entirely satisfactory intercensal comparisons of the numbers of persons adhering to the various religious denominations.

Work force

At the 1961 and previous Censuses the work force was determined as :

'Those who are engaged in an industry, business, profession, trade or service at the time of the Census (including those on long service leave, etc.)

.....'; and

'..... those out of a job at time of the Census but who are usually engaged in an industry, business, profession, trade or service

At the 1966 Census an additional set of four questions were asked in order to obtain information on the basis of which the work force could be determined more precisely. The questions were as follows :

Did the person have a job or business of any kind last week (even though he may have been temporarily absent from it)? ANSWER 'YES' or 'NO'.

Did the person do any work at all last week for payment or profit? ANSWER 'YES' or 'NO'. Persons working without pay as a helper in a 'family business' or farm and members of the clergy and of religious orders (other than purely contemplative orders) should answer 'YES' to this question. Persons doing only unpaid housework should answer 'NO'.

Was the person temporarily laid off by his employer without pay for the whole of last week? ANSWER 'YES' or 'NO'.

Did the person look for work last week? ANSWER 'YES' or 'NO'.

(Note : 'Looking for work' means (i) being registered with Commonwealth Employment Service, or (ii) approaching prospective employers, or (iii) placing or answering advertisements, or (iv) writing letters of application, or (v) awaiting the result of recent applications.)

The work force includes all persons for whom the answer 'yes' was given to any one of these four questions. Except that persons helping but not receiving wages or a salary who usually worked less than 15 hours a week were excluded from the work force.

This approach conforms closely to the recommendations of the Eighth International Conference of Labour Statisticians held in Geneva in 1954 and the information so obtained has been used in determining the work force for the purposes of the 1966 Census.

The net effect of the new definition is to include approximately 108,000 additional persons in the Australian work force i.e. a proportionate increase in the Australian work force of approximately 2.3 per cent. The major factor in this change was females working part-time (sometimes for only a few hours a week) some of whom, in 1961, did not consider themselves as '..... engaged in an industry, business, profession, trade or service'.

Occupational status

Persons in the work force were asked to state occupational status in accordance with the following instructions :

- If working for wages or salary (including apprentices), write 'W'.
- If conducting own business or profession and not at present employing others, write 'O'.
- If conducting own business or profession and at present employing others, write 'E'.
- If helping but not receiving wages or salary, write 'H'.
- If looking for first job, write 'F'.

Persons not in the work force were asked to state activity in accordance with the following instructions :

Persons not engaged in an industry, business, profession, trade or service.

For - Children not attending school, write 'C'. Full-time students or children attending school, write 'S'. Mainly dependent on pension or superannuation, write 'P'. Of independent means, write 'M'. Engaged in unpaid home duties, write 'H.D.'.

Inmates of institutions (e.g. for invalids and the aged, gaols, reformatories, etc.) write 'I'. Others not engaged in industry, etc., write 'N.A.'. (Young persons seeking work but not previously employed, write 'O' in answer to this question.)

Industry

Persons in the work force were asked to state industry in accordance with the following instructions :

State the exact branch of industry, business or service in which mainly engaged last week using two or more words where possible. For example, 'Dairy Farming', 'Coal Mining', 'Woollen Mills', 'Retail Grocery', 'Road Construction', etc. Employees should state the industry of their employer. For example, a carpenter employed by a coal mining company should state 'Coal Mining'. If employed by a Government Department or other public body, state also its name. For paid housekeepers and domestic servants in private households, write 'P.H.'.

From the answers to this question, persons were classified according to the Bureau's 'Classification of Industries' which provides for each person to be classified according to the nature of the business in which mainly engaged, regardless of whether operated by a government authority, corporation or individual.

Occupation

Persons in the work force were asked to state occupation in accordance with the following instructions :

State in precise (or award) terms the person's main occupation last week, using where possible two or more words. For example, 'Builder's Labourer', 'Dairy Farm Hand', 'Clothing Machinist', 'Wood Machinist', 'Motor Mechanic', 'Electrical Fitter', 'Coal Wheeler', 'Dairy Farmer', etc. Employees of Government Departments or Authorities should be described by their official designation, such as 'District Employment Officer', 'Shire Clerk', etc., and not by such terms as 'Public Servant', etc.

The precise classification of persons in the work force according to occupation and industry is extremely difficult but is subject to continuing efforts to improve the quality of the data from census to census. Consequently the comparison of data compiled at the 1966 Census with that obtained at previous censuses is not only influenced by changes in the definition and content of the work force but also by the different responses which may have been evoked by efforts to improve the questions on the Census Schedule, and by some changes in coding rules designed to rectify known deficiencies in the data. Classification according to occupation and industry is difficult mainly because of the problem of conveying through a printed form the exact nature of the information required (e.g. the conceptual difference between 'occupation' and 'industry') and the consequential inadequacy of many replies.

Classification according to occupation is particularly difficult because : (a) the range of occupations is so extensive; (b) there is lack of uniformity in occupational terms, which vary between industries, location and States; and (c) respondents fail to give precise descriptions, especially of other members of the family, either through carelessness or ignorance of occupational designations. Similarly, classification according to industry is complicated by the development of new fields of industrial enterprise and the splitting and overlapping of previously identifiable fields.

2. Dwelling Characteristics

Dwelling definitions

The following definitions were used as a basis for the Census of Dwellings :

- (a) An 'occupied dwelling' is any habitation occupied by a 'household group' and may comprise the whole or only a part of a building.
- (b) A 'household group' is a person or group of persons living as a domestic unit with common eating arrangements.

The number of 'occupied dwellings' and the number of 'households' are therefore identical by definition.

The lack of a structural definition of a dwelling is not considered a significant disadvantage in Australia as the majority of households do in fact each occupy one distinct dwelling structure (i.e. house or a self-contained flat).

Class of dwelling

Details of the numbers of each class of dwelling have been obtained from householders' statements made in accordance with the following instructions :

State below whether the dwelling is a -

Private house (including semi-detached and terrace house).

*Share of a private house.

/Self-contained flat (including home unit).

*Share of a flat.

Room(s), apartment or flat (not self-contained).

Shed, hut, caravan, tent, boat, etc.

Licensed hotel, motel, hostel, boarding house, institution, barracks, staff quarters, etc.

* Where a private house or flat is shared without structural sub-division by two or more household groups each householder should fill in a separate Householder's Schedule.

/ 'Self-contained' means able to be completely closed off and with own cooking and bathing facilities.

Dwellings are classified as follows :

Private dwellings - private house
 share of private house
 self-contained flat
 share of flat
 shed, hut, tent, caravan, etc.
 other private dwellings

Non-private dwellings - licensed hotel
 motel
 boarding house
 educational institution
 religious institution
 charitable institution
 hospital
 staff barracks, etc.

Where the class of dwelling was 'not stated' a class was allocated prior to tabulation on the basis of other information in the Census Schedule or answers given for neighbouring dwellings.

Persons not enumerated in dwellings

Persons, who on Census night were camping out, travelling on board ships in Australian waters, or ships which had left an Australian port prior to Census night with a next port of call in Australia, or were enumerated on long-distance trains, motor coaches or aircraft, are not regarded as living in a dwelling for Census purposes. Persons classified as 'camping out' include those living temporarily (e.g. on holidays) in tents, caravans or houseboats, or who were 'camped out' on Census night. If a tent, caravan or houseboat constituted a semi-permanent dwelling it was classified as a dwelling.

Number of inmates

The number of inmates of a dwelling relates to the number of persons actually enumerated in that dwelling (i.e. the number of persons who spent the night of 30 June 1966 in the dwelling) and does not include persons who normally reside at that dwelling but spent Census night elsewhere.

Number of rooms

Each householder was asked to state the number of rooms in the dwelling in accordance with the following instructions :

State below the number of rooms in this dwelling. Count all rooms (including permanently enclosed sleep-out) except bathroom, toilet, pantry, laundry or store-room.

Note : Rooms in non-attached buildings should be included only if used for living or sleeping purposes by members of this household. A combined living-dining room or combined kitchen-living or kitchen-dining room should be counted as one room.

A shared kitchen or shared living room in a shared house should be included only by the owner or principal tenant.

The specific instructions relating to non-attached buildings were included at the 1961 Census but those relating to combined-usage rooms were introduced at the 1966 Census.

Where the number of rooms in a dwelling was not stated a number was allocated prior to tabulation, on the basis of the answer given for the geographically nearest dwelling of the same class except in the case of sheds, huts, tents, garages, caravans and houseboats where allocation was made by the use of a series of random numbers. The random numbers, which ranged from 1 to 8 rooms, were based upon the distribution of the number of rooms recorded in these types of dwellings at the 1961 Census.

The number of cases for which number of rooms was not stated is relatively small.

Material of Outer Walls

At the 1966 Census each householder was asked to state the material of which the outer walls of the dwelling was built in accordance with the following instructions :

"Material of which Outer Walls are Built. State below whether brick, brick veneer, fibro-cement, wood, stone, concrete, iron, or other material (please specify). If more than one material state the one most largely used."

At the 1961 Census, dwellings with walls of brick veneer were not separately identified and for tabulation purposes were included with brick walled dwellings. However, in view of the increased use of brick veneer in the construction of dwellings, separate details are shown for the 1966 Census.

In the small number of cases where material of outer walls was not stated a material was selected during processing of the 1966 Census Schedules. Selection was based upon the answer given for the geographically nearest dwelling of the same class as the dwelling for which material of outer walls was not stated.

Nature of Occupancy

At the 1966 Census each householder in Australia was asked to state the nature of occupancy of the dwelling according to the following instructions :

"Indicate the basis on which the dwelling is occupied (mark with a cross in the appropriate box) -

Owner (including persons buying or paying off the dwelling) ..	<input type="checkbox"/>
Tenant or Subtenant	
of Government Authority	<input type="checkbox"/>
of other Landlord	<input type="checkbox"/>
Caretaker	<input type="checkbox"/>
Other (please specify)	

At the 1961 Census persons paying interest only on a mortgage on the dwelling were instructed to enter "owner" but a person buying a house by regular payments including interest and principal was instructed to enter "purchaser by instalment". Despite these specific instructions it is probable that some "purchasers by instalment" described themselves on 1961 Census Schedules as "owners" especially in cases where they possessed the title to the property. However the extent of such mis-statements has not been measured. At the 1966 Census, as the two categories can be logically grouped, separate details for "owners" and "purchasers by instalment" were not collected.

Number of Motor Vehicles

At the 1966 Census each householder was asked to state the number of motor vehicles at the dwelling in accordance with the following instructions :

"State below the number of Motor Vehicles (excluding Motor Cycles and Scooters) used by members of this household that were garaged or parked at or near this dwelling for the night of Thursday, 30 June. If no motor vehicles, write "NIL"."

Information relating to number of motor vehicles was not sought at the 1961 Census.

Details of the number of motor vehicles were obtained only for private dwellings.

Facilities

At the 1966 Census each householder was asked to state the facilities installed in the dwelling according to the following instructions :

"State "Yes" or "No" whether the dwelling has the following facilities

- (a) Gas
 - (i) Mains
 - (ii) Bottled
- (b) Electricity
 - (i) Mains
 - (ii) Home generated
- (c) Television Set
- (d) Kitchen *.....
- (e) Bathroom *.....

* If shared with another household add "S".

Data relating to kitchens and bathrooms were sought for office use only and have not been tabulated.

At the 1961 Census there was no specific provision on the Schedule for householders with a power supply other than mains (i.e. home generated electricity or bottled gas); it was anticipated that such dwellings would be included in either the gas or electricity category by householders. However, it is possible that at the 1961 Census a number of householders, whose dwellings had a non-mains source of power refrained from stating the facilities of their dwelling. The instructions were revised at the 1966 Census and provision was made for the specific inclusion of dwellings with a non-mains power supply.

Unoccupied Dwellings

For dwellings not occupied on the night of the Census, collectors were required to determine as many particulars as possible and to enter on the Schedule the reasons why the dwelling was unoccupied.

Unoccupied dwellings include vacant dwellings available for sale or renting; dwellings such as weekenders or holiday homes and seasonal workers' quarters which were not occupied on Census night; dwellings normally occupied but whose occupants were temporarily absent on the night of the Census; newly completed dwellings whose owners or tenants had not entered into occupation on Census night; dwellings described as "to be demolished", "condemned", "exhibition home", etc.; and buildings constructed as dwellings but used for non-dwelling purposes on the night of the Census. The total number of unoccupied dwellings does not, therefore, represent the number of vacant houses and flats available for sale or renting.
