(a) At the Census of 30th June, 1933, aboriginals who were civilized or semi-civilized, and who were either in employment or living in proximity to settlements, were enumerated. No attempt was made to obtain particulars concerning nomadic aboriginals.

### ESTIMATED NUMBERS—30th JUNE, 1935.

The following summary of the numbers of full-blood aboriginals in the Commonwealth as at 30th June, 1935, was obtained from subsequent returns furnished through the State Statisticians by Protectors of Aboriginals, viz. :—

Group.	Males.	Females.	Persons.
In Employment, Camps, &c. ..	13,436	10,326	23,762
Nomadic .. .. .	16,180	14,436	30,616
Total .. .. .	29,616	24,762	54,378

The smaller number of nomads in the year 1935, as compared with 1933, is almost entirely due to more complete counts in the latter year in Western Australia and in the Northern Territory. The figures for Western Australia include an estimate of 10,000 full-bloods for those living outside the influence of Europeans. These have been equally divided between the sexes.

NOTE :—Nomadic aboriginals are not included in this or subsequent tables in this Bulletin.
