

Reference No. 4.3

OVERSEAS ARRIVALS AND DEPARTURES OCTOBER 1972

This publication provides summary statistics of overseas arrivals in and departures from Australia during the month of October 1972 and the four months ended October 1972 with comparable statistics for earlier periods. More detailed statistics are published quarterly – see *Overseas Arrivals and Departures* (Reference No. 4.1).

CONTENTS

<i>Table</i>		<i>Page</i>
..	Explanatory notes	1
1.	Arrivals and departures by category of traveller	3
2.	Arrivals and departures : recent annual and monthly totals	3
3.	Permanent movement by month of arrival or departure	4
4.	Long-term movement by month of arrival or departure	4
5.	Short-term movement by month of arrival or departure	4
6.	Settlers arriving by nationality and by occupation	5
7.	Australian residents departing permanently by country of birth and by occupation	6
8.	Visitors arriving – short-term movement : by sex, mode of transport, intended length of stay, stated purpose of journey and country of residence	7
9.	Australian residents departing – short-term movement : by sex, mode of transport, intended length of stay, stated purpose of journey and country of disembarkation	8

EXPLANATORY NOTES

Permanent movement consists of persons arriving in Australia with the stated intention of settling permanently in Australia, and Australian residents departing with the stated intention of residing permanently abroad. **Settlers** are persons who, on arrival in Australia, indicated that they came intending to settle. **Former settlers** are persons who, on departure from Australia, stated that they had come to Australia intending to settle, had stayed for a period of twelve months or more, and were now departing permanently.

2. **Long-term movement** (which is distinct from permanent movement) consists of the arrival of visitors and the departure of Australian residents with the stated intention of staying (in Australia or in a country abroad, respectively) for twelve months or more, and the departure of visitors and the return of Australian residents who have stayed (in Australia or in a country abroad, respectively) for twelve months or more.

3. **Short-term movement** consists of all other movements, including the movement of Australian troops irrespective of period of stay, and U.S. troops visiting Australia on rest and recreation leave. This scheme was discontinued in December 1971.

4. Seasonally adjusted figures of total and short-term arrivals and departures are shown in Tables 2 and 5. In the adjustments, account is taken of "trading day" effects as well as normal seasonal factors. Details of the methods used and selected measures of variability are available on request and were published in *Seasonally Adjusted Indicators – 1972* (Reference No. 1.10), issued on 6 July 1972.

5. Statistics of characteristics of travellers in the short-term movement from April 1971 to September 1972 are estimates derived from a fifty per cent sample of short-term travellers. From October 1972, the sample comprises one-third of short-term movement. While the total number of such travellers and statistics of their mode of transport are fully known, statistics in various classifications, e.g. nationality, may differ from those that would be obtained from complete processing. A measure of this difference is given by the standard error. There are about 2 chances in 3 that the difference will be less than 1 standard error, and 19 chances in 20 that it will be less than 2 standard errors. The standard error varies with the size of the estimate and the following table shows the standard errors of various estimate sizes, based on samples of 1 in 2 (applicable to statistics up to September 1972) and 1 in 3 (applicable to statistics thereafter).

Size of quantity estimated (persons)	Approximate standard error of estimate			
	Sample of 1 in 2		Sample of 1 in 3	
	Persons	Per cent of estimate	Persons	Per cent of estimate
10,000	100	1.0	140	1.4
5,000	70	1.4	100	2.0
1,000	32	3.2	45	4.5
500	23	4.5	32	6.3
100	10	10.0	14	14.1

6. Statistics of permanent and long-term movement are based on records of all travellers in this movement and therefore do not contain sampling errors. However, since short-term movement is a component of *total* movement, statistics of characteristics of travellers in total movement are subject to such errors. The magnitude of standard errors in total movement is about 20 per cent less than in short-term movement.

7. A fuller description of the sampling procedures is published in the quarterly bulletin *Overseas Arrivals and Departures* (Reference No. 4.1).

TABLE 1. - OVERSEAS ARRIVALS AND DEPARTURES : CATEGORY OF TRAVELLER
(Persons)

Category of traveller	Year ended June			Four months ended October		Month of October
