Principal Causes of Death—											
82. Numbers and Rates, 1893–1942	406

Notes.

1. Since the beginning of 1927, the basis of tabulation for births and deaths for any subdivision of the State has been according to usual residence; consequently in this issue, comparison of these figures for any municipality, shire or division cannot be made with those for years prior to 1927. Marriages have always been tabulated according to the place of celebration.
2. There have been several changes in the delimitation of the Metropolis. The following successive additions of local government areas have been made:—
 - (a) From the date of the 1911 Census—
Shire of Ku-ring-gai (incorporated as a municipality in 1927).
 - (b) From 1st January, 1929—
Municipalities of Auburn, Bankstown, Granville, Lidcombe, and Parramatta.
 - (c) From 1st January, 1933—
Municipalities of Dundas, Ermington and Rydalmer, and Holroyd (Pitt and Merrylands Wards only).
3. Commencing with 1933, full-blood aborigines have been excluded from all figures. They have also been excluded from statistics of population for earlier years in certain of the tables, and where this has been done, an appropriate note has been inserted under the Table heading.
4. For purposes of record, stillbirths are registered as deaths as well as births, but in the tables which follow, stillbirths are excluded from the deaths.
5. (a) The death statistics herein recorded do not, except where otherwise stated, include defence personnel enlisted in New South Wales who died outside the State.
Total defence force deaths are not precisely known, but the numbers so far recorded are as follows:—

Year.	Males.	Females.	Year.	Males.	Females.
1939	1941	978	3
1940	259	...	1942	1,801	2

These figures are subject to revision. They do not include dead who are posted as "missing" or "prisoner of war."

- (b) Up to 31st December, 1941, the death figures include Australian defence personnel (irrespective of the State of enlistment) who died in New South Wales. These number 256 males and are included in the total defence force deaths shown above. From 1st January, 1942, all death figures, except where otherwise stated, relate to civilians only.
- (c) An adjustment of 981 males and 3 females, representing the accumulated difference up to the end of 1941 between the figures in (a) and (b) above, was incorporated in the estimate of population as at 31st March, 1942. This adjustment must be allowed for in considering the increase in population.
- (d) Allied defence personnel are excluded from statistics of population and deaths.
6. Since publication of the last issue the departures by land and the estimates of population as from the quarter ended 30th September, 1939, have been revised. There have been consequential adjustments to mean population and rates based thereon.

PART VI.—POPULATION AND VITAL STATISTICS

Section I.—POPULATION.

NOTE.—The figures quoted for 1841 and subsequent years represent the population of New South Wales within its boundaries after the separation of Victoria and Queensland. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859. The Australian Capital Territory was transferred to the Commonwealth on 1st January, 1911.

* The population of the Australian Capital Territory is excluded, viz., 1911, 992 males, 722 females, 1,714 total; 1921, 1,597 males, 1,005 females, 2,572 total; and in 1933, 4,805 males, 4,112 females, 8,917 total. † From 26th October, 1821. ¶ Includes unoccupied dwellings. § Not available.

No. 2.—Population of Metropolis at each Census, 1861-1933.

NOTE.—The figures printed in italics represent the population of the "township" as the area was not incorporated at that date.

* Ceased to be a municipality.

† Prior to 1928 Ku-ring-gai was a Shire.

‡ Estimated.

¶ The totals relate to the Metropolitan Area as it existed at the date of the 1933 Census.

No. 4.—Municipalities—Population and Occupied Dwellings at each Census, 1891-1933—contd.

*On 1st January, 1933, the municipalities of Dundas, Ermington and Rydalmer, and the Pitt and Merrylands Wards of Holroyd were added to the Metropolitan Area. Their population is not included in the totals of 1932 and earlier years.

† Figures revised since previous issue.

No. 7.—Population of Municipalities and Shires as at 31st December, 1942.

NOTE.—These figures are approximate only, and are intended to show the estimated distribution of total population throughout New South Wales—on what is substantially a residential basis—as determined from an analysis of civilian ration book data, in association with other population data, plus a quota allowance for defence personnel.

* The figures represent children who were born to mothers whose place of residence was in the municipalities named.

The figures represent live births in institutions situated within the specified municipalities, without allocation to the residence of the mother.

No. 40.—Plural Births—Ages of Parents—1942.
These are cases of plural births in which at least one child was born alive. For cases in which all children were stillborn see Table No. 45.
