## **Census 86 - Guide to Religious Adherence in Australia**

This document has been produced as a supplement to *Religion in Australia* (Cat. No. 2510.0). It contains a list of all responses to the 1986 Census question on religion classified into the 27 major religious categories to which they were coded. It therefore provides detailed information on the composition of each religious category discussed in the publication.

A similar but much expanded classification has been developed for the 1991 Census. Any comments which may assist in ensuring its accuracy and validity will be welcomed. Such comments should be directed to:
