No. 1: NEW SOUTH WALES.

PREFACE.

This Bulletin contains particulars of motor vehicles on the register in New South Wales at 31st December, 1955. It is one of a series of Bulletins which are being issued for each State, for the Northern Territory and the Australian Capital Territory and for Australia as a whole.

The statistics herein have been derived from particulars of motor vehicle registrations made available for all States and Territories. Figures shown relate to motor vehicles whose registrations were renewed during the year 1955 plus registrations of new vehicles and re-registrations of previously registered vehicles less registrations cancelled during the year.

Vehicles have been allocated to Local Government Areas according to the addresses of the owners shown on the registration certificates, but the vehicles themselves are not necessarily located or generally used in such areas.

Vehicles owned by the Commonwealth Government, other than Defence Service vehicles, have been included in all tables.

All figures for horsepower are in terms of R.A.C. rating. Whole numbers only have been shown. For example, an R.A.C. rating of 17.9 h.p. is recorded in this Bulletin as 17 h.p.
