EXPLANATORY NOTES

Introduction

1. This publication gives details of the population and dwellings in local government areas (LGAs) from the Census of Population and Housing conducted on 30 June 1981. The data are based on census counts of actual location on census night.

Confidentiality

2. The ABS has a long and continuing history of protecting the confidentiality of information which it receives from individuals and businesses. This policy is pursued not only for legal and ethical reasons but also because successful collection of data depends on the goodwill and cooperation of respondents. One of the methods used to achieve confidentiality of data from the 1981 Census is the introduction of small random adjustments to tables.

3. In brief, the ABS applies random error adjustment to non-zero cells. This adjustment is also made to totals and hence sums of components may be slightly greater or less than totals. The result of random error adjustment is:

- . no reliance should be placed on cells of five or less in tables;
- . some cells have been randomly altered to zero;
- . the amount of detail that can be released from the Census is maximised.

4. A further description of the effects of random error adjustment is contained in the ABS information paper: Census 81 - Effects of Introduced Random Error (Catalogue No. 2156.0). This publication is available from all ABS offices.

Definition

5. Occupied Private Dwelling: is normally a house, flat or room (but can also be a tent, houseboat or caravan on a separate block) occupied by a person or group of people who live together as a single domestic unit. It excludes establishments such as hotels, motels, boarding houses, caravan parks, etc.

6. Family Income: is the sum of the incomes of the head and spouse of a family where both are present. Where the family normally consists of a head and spouse but one or the other is not at home on census night the census will show only a family head and family income will be the income of the head. It does not include the income of other family members such as children and other relatives.

7. Further information on the topics covered in this publication are contained in Making sense of census 81 (Catalogue No. 2140.0). This publication is available from all ABS offices.
