PART I.—ANALYSIS OF POPULATION IN LOCAL GOVERNMENT AREAS AND IN NON-MUNICIPAL TOWNS OF 1,000 PERSONS OR MORE

PREFACE

This publication shows, for the State of Queensland, the numbers of males and females in each City, Town and Shire and in each Non-municipal Town with 1,000 persons or more, classified according to the characteristics of the population recorded in the 1961 Census. The characteristics dealt with in the following pages are:—Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Religion, Industry and Occupational Status.

This is one of five Parts which will constitute the complete Census Volume for the State of Queensland, viz. Part I.—Analysis of Population in Local Government Areas and in Non-municipal Towns of 1,000 Persons or More; Part II.—Cross-classifications of the Characteristics of the Population; Part III.—Analysis of Dwellings in Local Government Areas and in Non-municipal Towns of 1,000 Persons or More; Part IV.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part V.—Population and Dwellings in Localities.

In addition, a number of supplementary statements in mimeographed form are being issued. A list of printed and mimeographed 1961 Census publications already issued is shown inside the back cover of this Part.

Explanatory notes relative to the contents of this Part and to Statistical Divisions, Non-municipal Towns and various other matters follow the Table of Contents.

EXPLANATORY NOTES

This Part contains particulars of the population in each City, Town and Shire and in each Non-municipal Town of 1,000 persons or more in Queensland according to various characteristics of the population.

The grouping into Statistical Divisions identical with that used in State statistical publications has necessitated the splitting of Pine River Shire into two parts. Separate particulars are shown in each Statistical Division (Metropolitan Area of Brisbane and Moreton Statistical Division) for the part of the shire within that Division.

A map showing the location and composition of each Statistical Division and a detailed map of the Metropolitan Area of Brisbane, together with an index to facilitate reference to any Local Government Area or town for which particulars are shown, are inserted at the end of this Part.

Under the system of local government in Queensland there were, at Census date, 19 Cities and Towns and 112 Shires. Cities and Towns are regarded as urban in nature. Shires are usually rural in nature, but within Shires Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.M."

In addition to the area covered by the local government system, there was an unincorporated area of 1,022 square miles, which constituted about 0.15 per cent. of the total area of the State.

The City of Brisbane, the City of Redcliffe and part of the Pine Rivers Shire constitute, for Census purposes, the Metropolitan Area of Brisbane. The City of Brisbane, because of its size, has been separated into 55 defined statistical areas.

Statistics shown in this Part relate to Local Government Areas as constituted at 30th June, 1961, and do not take account of boundary changes since that date.

Particulars of full-blood aboriginals are excluded throughout.

Because of the limitation of space and the need for uniform presentation of data, it has not been possible to publish more detailed information for Local Government Areas in each table of this Part.

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.
