Notes.

- Since the beginning of 1927, the basis of tabulation of births and deaths for any subdivision of the State has been according to usual residence; consequently in this issue, comparison of these figures for any municipality, shire or division cannot be made with those for years prior to 1927. Marriages have always been tabulated according to the place of celebration.
- There have been several changes in the delimitation of the Metropolis and the following local government areas have been added:—
 - From the date of the 1911 Census—
Shire of Ku-ring-gai (incorporated as a municipality in 1927).
 - From 1st January, 1929—
Municipalities of Auburn, Bankstown, Granville, Lidcombe, and Parramatta.
 - From 1st January, 1933—
Municipalities of Dundas, Ermington and Rydalmer, and Holroyd (Pitt and Merrylands Wards only).
- Commencing with 1933, full-blood aborigines have been excluded from all figures. They have also been excluded from statistics of population for earlier years in certain tables, and where this has been done, an appropriate note has been inserted under the heading of the table.
- For purposes of record, stillbirths are registered as deaths as well as births, but in the tables in this Part stillbirths are not included in the deaths.
- (a) The death statistics for the years 1939 to 1947 were compiled on the following basis:—

1939 to 1941. Australian defence personnel (irrespective of State of enlistment) who died in New South Wales, viz., 256 males, were included.
New South Wales defence personnel who died out of the State were excluded.

1942 to 30th June, 1947. All defence personnel and other non-civilians were excluded; therefore the statistic relates to civilians only.
- (b) Deaths of New South Wales personnel in defence forces in or out of Australia, so far as recorded, were as follows:—

Year.	Males.	Females.	Year.	Males.	Females.
1939	8	...	1943	3,045	7
1940	137	1	1944	2,047	12
1941	1,355	1	1945	2,482	6
1942	3,963	3	1946	207	5
			1947 (Jan.–June)	35	1
- Allied defence personnel have been excluded from statistics of population and deaths.
- In this issue rates based on population for the years 1933 to 1947 have been revised in accordance with the final results of the census of 30th June, 1947.
