NEW PUBLICATIONS RELEASED DURING JULY 2000

- 1248.0      *Australian Standard Classification of Drugs of Concern, 2000* (\$27.00)
- Comprises an explanation of the conceptual basis of the classification, the classification structure, definitions, and alphabetical and numerical order coding indexes. Primarily aims to ensure the compatibility and comparability of data on problem drugs derived from a range of different statistical and administrative systems.
- 6426.0      *Stage of Production Producer Price Indexes, Australia, June Quarter 2000* (\$17.00)
- Presents producer price index numbers for the supply of commodities (goods and services) to the Australian economy in a "stage of production" (SOP) framework as discussed in the the Information Paper: Producer Price Index Developments, 6422.0 released on 25 March 1999. The indexes cover both domestically produced and imported commodities, individually and in aggregate, and represent an alternative arrangement of largely existing ABS producer price index series.
- This publication is the first release of new economy-wide price measures designed to support the study of inflation, compiled within the statistical framework outlined in the 1997 Information Paper: An Analytical Framework for Price Indexes in Australia, 6421.0. A further publication dealing with Domestic Final Purchases is planned for release in 2001.
- 1362.4      *Regional Statistics, South Australia, 2000* (\$34.00)
- Brings together a range of ABS and non-ABS data to provide key economic indicators for 20 regions (Statistical Subdivisions) in South Australia. As well as enabling easy comparison between regions, the data are also presented as a time series providing useful information on changes over time. Included are indicators on: population, labour force, social security welfare recipients, agriculture, building approvals, motor vehicle registrations and income. Graphs, commentary and reference maps complement the statistical data presented.
