

### VICTORIAN LABOUR FORCE PUBLICATIONS Catalogue Numbers 6201.2 and 6202.2

The April 1987 edition of the publication The Labour Force, Victoria 6201.2 was the last release of the series.

Key State monthly labour force series data, including original, seasonally adjusted and trend series are now available in publications 6202.0 and 6203.0. In fact publication 6202.0 now provides this Victorian time series data two to four weeks earlier than was available in 6201.2.

In addition, publication 6202.2 The Labour Force, Victorian Regions (quarterly) will be expanded, from the August 1987 edition, to include some of the tables previously contained in 6201.2. The expanded publication 6202.2 will be called the Labour force, Victoria (including Regions) and will become a priced publication costing approximately \$2.00.

In the interim, requests for monthly labour force series data may be satisfied by using the national publications mentioned above, or by contacting the Information Services section in this Office on (03) 653 0181.

Advice as to which tables from publication 6201.2 should be incorporated into the revised 6202.2 would be most welcomed and should be provided to Garth Donaldson on (03) 6145536 by the end of July 1987.

Yours faithfully

Erle Bourke  
Deputy Commonwealth Statistician
