## MAIN FEATURES

### SCHOOLS

In August 1995 there were 9,648 schools operating in Australia. Of these 7,122 (73.8%) were government schools operated by the State Directors-General of Education (or equivalent) and 2,526 (26.2%) were non-government schools.

The number of government schools in Australia has fallen by 37 since July 1994, while the number of non-government schools has increased by six.

### STUDENTS

The number of full-time students attending these schools in August 1995 totalled 3,109,337. Of these, 2,207,853 (71.0%) attended government schools and 901,484 (29.0%) attended non-government schools.

The number of full-time students attending government schools in 1995 decreased by 7,085 (0.3%) from the 2,214,938 attending in 1994. The number of full-time students attending non-government schools increased by 17,042 (1.9%) from the 884,442 attending in 1994.

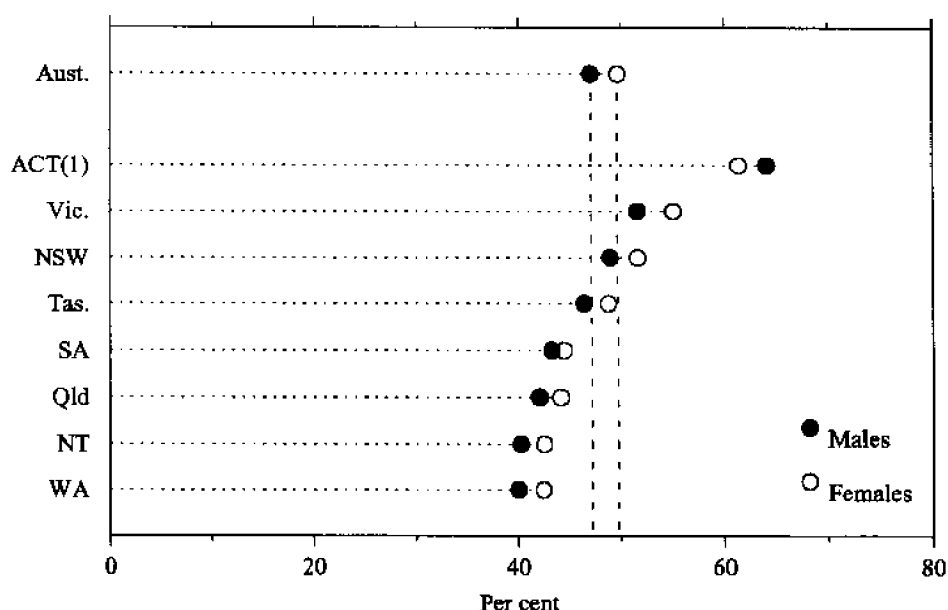

### STAFF

Full-time and part-time teaching staff at government and non-government schools in August 1995 totalled 220,815 persons, representing 202,400 full-time equivalent (FTE) units.

There was the equivalent of 143,787 full-time teaching staff in government schools in August 1995, an increase of 408 (0.3%) since 1994, while teaching staff in non-government schools totalled 58,614 full-time equivalent units, an increase of 2.9% (1,649).

Almost three-quarters of teaching staff in primary schools were female, compared with half in secondary schools.

## 1 PARTICIPATION RATES OF FULL-TIME STUDENTS AGED 15 TO 19, 1995

(1) The ACT figures include some students who were not ACT residents.

The average number of students per teaching staff member (FTE) was around 15 for both government and non-government schools. The average number of students per teaching staff member (FTE) for all schools was 18 for primary and 13 for secondary.

#### AGE PARTICIPATION RATES

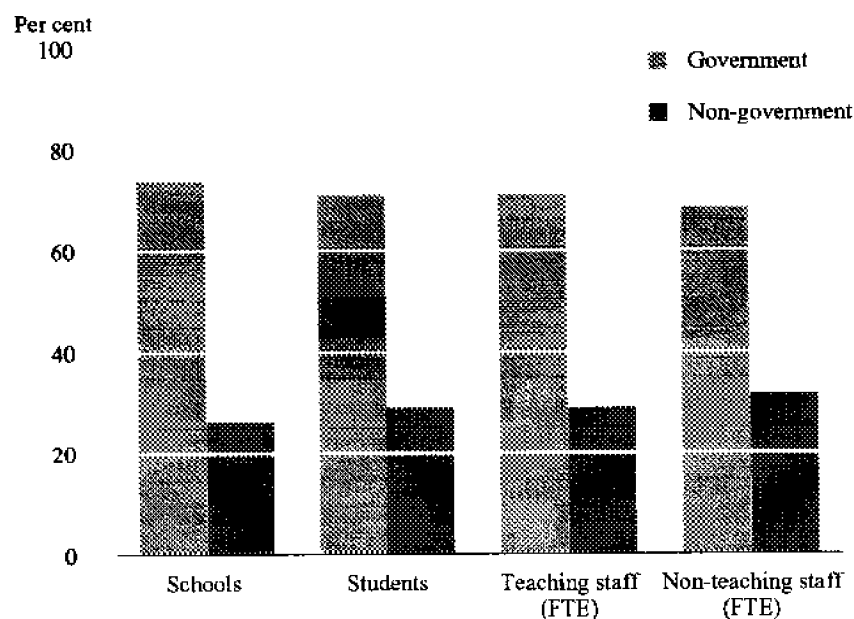

The age participation rate for full-time students, at the Australia level, was 92.8% for 15 year olds, 78.8% for 16 year olds and 58.5% for 17 year olds.

#### APPARENT RETENTION RATES

The apparent retention rate of secondary school students to Year 12 fell from 74.6% in 1994 to 72.2% in 1995. As in previous years, the retention rate for female students (77.1%) was higher than the corresponding rate for males (66.1%).

The rate varied between States and Territories, ranging from 42.7% in the Northern Territory to 91.1% in the Australian Capital Territory. The apparent retention rate decreased between 1994 and 1995 in all States and Territories except Tasmania which showed an increase of 1.4%.

## 2 GOVERNMENT/NON-GOVERNMENT SHARE: SCHOOLS, FULL-TIME STUDENTS AND SCHOOL STAFF (FTE), 1995

(a) Number of full-time teaching staff plus full-time equivalent (FTE) of part-time teaching staff. See the Glossary for details of the calculations of FTE. Since FTE figures have been rounded, discrepancies may occur between the sums of the component items and totals. (b) Includes 1 government primary school in Jervis Bay Territory with 79 students, 4 (FTE) teaching staff in 1993; 73 students, 4 (FTE) teaching staff in 1994; and 68 students, 6 (FTE) teaching staff in 1995. See Explanatory Notes for further details.

(a) Includes 1 government primary school in Jervis Bay Territory with 27 Aboriginal/Torres Strait Islander students (15 males, 12 females). See Explanatory Notes for further details.

# PART-TIME SECONDARY STUDENTS

Data are being published this year for the first time on part-time secondary students. Table 16 shows part-time secondary students by number and full-time equivalent (FTE) by level/year of education by category of school by State and Territory.

Part-time figures vary considerably from State to State as each education authority has different policy and organisational arrangements, and the number of part-time courses available also varies considerably between States.

Data at the age level are not published as not all States collect the age of part-time students.

Secondary education commences at Year 7 in New South Wales, Victoria, Tasmania and the Australian Capital Territory, and at Year 8 in Queensland, South Australia, Western Australia and the Northern Territory.

(a) Most of these are mature age students attending the Canning or Tuart Senior Colleges in Western Australia. They usually attend short courses, of between five and twenty-two weeks duration, which are neither Year 11 nor Year 12 specific.

## APPARENT RETENTION RATES

The following three tables relate to apparent retention rates, for full-time students, expressed as a percentage. Care should be exercised in the interpretation of these tables, since a range of factors affect the calculation of apparent retention rates. At the Australia level these include students repeating a year of education, migration and other net changes to the school population, such as full-fee paying overseas students. No adjustments have been made for these effects.

In table 17, at the State level additional factors affect the data, including enrolment policies (which contribute to different age/grade structures between States), inter sector transfer and interstate movements of students. It is also important to note that enrolment patterns in schools/TAFEs vary between States, with differing effects on school retention rates. For example, in the Australian Capital Territory the rate for government schools exceeds 100%. One of the reasons for this is that a number of non-government schools finish at Year 10 and students need to change schools to continue to Years 11 and 12. This has the effect of reducing the non-government rate and increasing the government rate. For these reasons, apparent retention rates are more useful as an indicator of changes over time within States, rather than for comparison between States.

The apparent retention rates in table 18 show the percentage of students who continued to Years 10, 11 or 12 in 1995 from their respective cohort groups at the commencement of their secondary schooling. For example, Year 10 in 1995 retained 96.4% of students who commenced Year 7 in New South Wales, Victoria, Tasmania and the Australian Capital Territory in 1992 and Year 8 in Queensland, Western Australia, South Australia and the Northern Territory in 1993, representing the first year of their secondary schooling.

In table 19, comparison between government and non-government school retention rates should be made with caution due to the effect that student transfer between government and non-government schools has on the apparent retention rate figures. For example, two figures in 1995 for Anglican schools show an apparent retention rate in excess of 100%. This has been caused by transfer from other categories of schools into the cohort group after the base year, thus inflating the real situation.

See the Glossary for details of the calculation of apparent retention rates.

**TABLE 19. APPARENT RETENTION RATES OF FULL-TIME SECONDARY STUDENTS TO YEAR 10, YEAR 11  
AND YEAR 12 BY CATEGORY OF SCHOOL (AND NON-GOVERNMENT AFFILIATION), AUSTRALIA, 1995**

| Year of education | Government schools | Non-government schools |          |       | Total | All schools |
|-------------------|--------------------|------------------------|----------|-------|-------|-------------|
|                   |                    | Anglican               | Catholic | Other |       |             |
| Year 10           | 94.4               | 109.8                  | 96.7     | 106.5 | 100.7 | 96.4        |
| Year 11           | 79.9               | 105.3                  | 83.1     | 101.5 | 90.4  | 83.3        |
| Year 12           | 67.2               | 98.6                   | 75.3     | 94.5  | 82.7  | 72.2        |

## 13 APPARENT RETENTION RATES OF SECONDARY STUDENTS TO YEAR 12

## AGE PARTICIPATION RATES

An age participation rate measures the number of full-time school students of a particular age and sex expressed as a proportion of the estimated resident population of the same age and sex. Whereas retention rates rely on students having to progress year by year through the system, participation rates relate to the population as a whole. Participation rates vary considerably between States, partly reflecting the different enrolment patterns and structures of the education systems.

In the following table some participation rates in the Australian Capital Territory exceed 100%. This is mainly due to the enrolment in the Australian Capital Territory secondary schools of students who are not residents of the Australian Capital Territory, eg. from the surrounding New South Wales areas.

TABLE 20. AGE PARTICIPATION RATES: FULL-TIME STUDENTS, 1995 (PERCENT OF RELEVANT POPULATION)

| <i>Age (in years)</i> | <i>NSW</i> | <i>Vic.</i> | <i>Qld</i> | <i>SA</i> | <i>WA</i> | <i>Tas.</i> | <i>NT</i> | <i>ACT</i> | <i>Aust.</i> |
|-----------------------|------------|-------------|------------|-----------|-----------|-------------|-----------|------------|--------------|
| MALES                 |            |             |            |           |           |             |           |            |              |
| 15                    | 93.2       | 93.7        | 87.6       | 91.5      | 87.9      | 99.2        | 79.7      | 111.5      | 91.9         |
| 16                    | 74.5       | 82.4        | 72.7       | 75.9      | 68.4      | 65.2        | 64.8      | 102.1      | 75.7         |

(a) See the Glossary for details of the calculations of FTE and the calculations of student/teaching staff ratios.

Note: Teaching staff are defined as staff who spend the majority of their time in contact with students, ie support students either by direct class contact or on an individual basis, and have teaching duties, that is, are engaged to impart the school curriculum. For the purpose of this collection, Teaching staff include principals, deputy principals, and senior teachers who may be involved in administrative duties. Excluded are emergency and casual relief teaching staff. The above table should not be used as a measure of class size.

(a) See the Glossary for details of the calculations of FTE and the calculations of student/total school staff ratios.

Note: Total school staff are defined as those staff who usually spend the majority of their time actively engaged in duties at one or more schools. Excluded are cleaners and emergency and casual relief teaching staff.

(a) See the Glossary for details of the calculation of FTE. Since FTE figures have been rounded, discrepancies may occur between the sums of component items and totals. (b) See the Glossary for further details. (c) Includes 1 government primary school in Jervis Bay Territory with a school staff (FTE) of 2 males, 6 females in 1993; 3 males, 6 females in 1994; and 3 males, 6 females in 1995. See Explanatory Notes for further details.

Note: No comparable table has been produced for the non-government sector as figures were not available for non-school staff.

TABLE 26. FTE(a) OF NON-SCHOOL STAFF— GOVERNMENT SECTOR : MAJOR FUNCTION, 1995

(a) See the Glossary for details of the calculation of FTE. Since FTE figures have been rounded, discrepancies may occur between the sum of the component items and total.  
(b) Includes Directors-General (or equivalent), Directors and their deputies, Inspectors / superintendents. Excludes principals and their deputies.

Note: No comparable table has been produced for the non- government sector as figures were not available for non-school staff.

## EXPLANATORY NOTES

### INTRODUCTION

**1** This publication contains statistics of government and non-government schools, staff and students, as at August 1995.

**2** The National Schools Statistics Collection (NSSC) is a collaborative arrangement between State, Territory and Commonwealth education authorities. A schools statistics committee, of which the ABS is a member, was established in 1979 to improve the quality of education statistics relating to government and non-government primary and secondary education. It has developed a set of concepts, definitions and classifications for use in the NSSC.

### SCOPE AND COVERAGE

**3** The statistics in this publication relate to establishments which have as their major activity the administration and/or provision of full-time day primary, secondary or special education, or primary or secondary education by radio or correspondence. Major activity is based on the activity of students or, where this is not appropriate, on the activity of staff in full-time equivalent units (FTE) (see Glossary for details of the calculations). Therefore the statistics presented do not include establishments, students or staff engaged in such activities as courses conducted by Technical and Further Education Institutions.

**4** Statistics for the government series relate to all establishments administered by the Department of Education under the Director-General of Education (or equivalent) in each State/Territory, students attending those establishments and all staff engaged in the administration/provision of government school education at those establishments. Statistics for the non-government series relate to all establishments not administered by the Departments of Education and include special schools administered by government authorities other than the State/Territory Departments of Education.

**5** This publication contains details of non-school staff for the government series only, since equivalent data are not available for the non-government series.

**6** Emergency and casual relief teaching staff employed on a casual basis are not included in this collection as they replace permanent teaching staff absent for short periods of time. These permanent teaching staff are already counted in this collection.

**7** Table 16 shows part-time secondary students by number and FTE by level/year of education by category of school. This table has been included for the first time in 1995. Currently, information on age of part-time students is not published as some States do not collect this data.

**8** Education services in Jervis Bay Territory are provided by the Australian Capital Territory Department of Education and Training, through Commonwealth government funding. For the purposes of the NSSC, figures for Jervis Bay Territory are included in statistics for the Australian Capital Territory. As at August 1995 there was one primary

### SCOPE AND COVERAGE

**3** The statistics in this publication relate to establishments which have as their major activity the administration and/or provision of full-time day primary, secondary or special education, or primary or secondary education by radio or correspondence. Major activity is based on the activity of students or, where this is not appropriate, on the activity of staff in full-time equivalent units (FTE) (see Glossary for details of the calculations). Therefore the statistics presented do not include establishments, students or staff engaged in such activities as courses conducted by Technical and Further Education Institutions.

**4** Statistics for the government series relate to all establishments administered by the Department of Education under the Director-General of Education (or equivalent) in each State/Territory, students attending those establishments and all staff engaged in the administration/provision of government school education at those establishments. Statistics for the non-government series relate to all establishments not administered by the Departments of Education and include special schools administered by government authorities other than the State/Territory Departments of Education.

**5** This publication contains details of non-school staff for the government series only, since equivalent data are not available for the non-government series.

**6** Emergency and casual relief teaching staff employed on a casual basis are not included in this collection as they replace permanent teaching staff absent for short periods of time. These permanent teaching staff are already counted in this collection.

**7** Table 16 shows part-time secondary students by number and FTE by level/year of education by category of school. This table has been included for the first time in 1995. Currently, information on age of part-time students is not published as some States do not collect this data.

**8** Education services in Jervis Bay Territory are provided by the Australian Capital Territory Department of Education and Training, through Commonwealth government funding. For the purposes of the NSSC, figures for Jervis Bay Territory are included in statistics for the Australian Capital Territory. As at August 1995 there was one primary

school in Jervis Bay Territory with 68 students, six (FTE) teaching staff and three (FTE) non-teaching staff.

#### CENSUS DATE

**9** The census date for the collection is the Friday nearest to 1 August each year. For 1995, this was 4 August except for the Northern Territory which held its census on 18 August. The age reference date was 1 July for all States and Territories.

#### METHODOLOGY

**10** These statistics were compiled from collections conducted in co-operation with the Ministerial Council on Education, Employment, Training and Youth Affairs (MCEETYA) Task Force on School Statistics by the State/Territory Departments of Education (government series) and the Commonwealth Department of Employment, Education, Training and Youth Affairs (non-government series).

**11** The methodologies employed by State Departments of Education in the government sector in compiling the State/Territory aggregates on which the statistics in this publication are based vary from State to State. They range from manipulation of central administrative records to direct collection of data from establishments.

**12** The Commonwealth Department of Employment, Education, Training and Youth Affairs collects data directly from establishments in the non-government sector for all States and Territories. The statistics in this publication are a summary of results from that collection.

#### INTERPRETATION OF RESULTS

**13** The ABS has published education statistics for many years, however prior to the implementation of the NSSC, the data were not necessarily comparable between States/Territories. With the implementation of the NSSC concepts, the definitions, classifications and coverage were revised. The new government series was implemented in 1981 and the non-government series in 1984. Therefore, particular care should be exercised when comparing data in this publication with that prior to 1981 and 1984 for the government and non-government series respectively, and between the two series from 1981 to 1983. In interpreting the figures in this publication, users should be aware that, because of the diversity of the Australian education system and its administration, the statistics reported in this publication are not entirely comparable. Comparability of statistics between States/Territories and between government and non-government schools in any one State/Territory is affected by differences in the organisation of grades, policy on student intake and advancement, flows from secondary to vocational education and the recruitment and employment of teachers.

**14** There is no Australia-wide standard method of allocating students and classes to a certain year of education (grade). A number of schools (other than special schools) do not maintain a formal grade structure. Students at these schools have been allocated to equivalent grades where possible but otherwise appear against the category ungraded in either the primary or secondary levels of education.

**23** The Department of Education of the Northern Territory has advised that, commencing 1995, students identified as secondary-aged in remote aboriginal schools have been reclassified to the ungraded secondary category, as these students cannot be readily classified into the normal urban secondary grade structure.

**24** As a result of changed reporting methodology in 1995, non-government school staff, who are not based at a particular school, but who are mainly active in schools, are now included in the published figures. There were 248 (179 FTE) such staff in 1995.

#### RELATED PUBLICATIONS

**25** Other ABS publications which may be of interest to users are:

*Schools, Australia, Preliminary* (4220.0) — issued annually

*Education and Training in Australia* (4224.0) — issued irregularly, first and latest issue November 1992

*Transition From Education to Work, Australia* (6227.0.40.001) — latest issue May 1995

*Participation in Education, Australia* (6272.0) — latest issue September 1995

*Training and Education Experience* (6278.0) — issued irregularly, first and latest issue September 1994

*Directory of Education and Training Statistics*, (1136.0) — issued irregularly, latest issue April 1995

**26** Additional information can be found in some publications of the Deputy Commonwealth Statistician in each State, the Northern Territory and Australian Capital Territory Statisticians, various publications of the Commonwealth Department of Employment, Education, Training and Youth Affairs, the Ministerial Council on Education, Employment, Training and Youth Affairs and in annual reports of the State Departments of Education. Year Book Australia and the State Year Books also contain commentary and data on education.

**27** Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues on Tuesdays and Fridays, the *Release Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Release Advice are available from any ABS office.

**28** Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

#### SYMBOLS AND OTHER USAGE

— nil or rounded to zero  
FTE Full-time equivalent units  
n.a. Not applicable.

**15** To calculate the apparent retention rate, of full-time students, at the Australia level, of the student cohort group who are currently (1995) in Year 10 from their commencement in secondary schooling (as shown in tables 18 and 19), the total number of full-time students in Year 10 in 1995 is divided by the sum of the full-time students in Year 7 in New South Wales, Victoria, Tasmania and the Australian Capital Territory in 1992 and the full-time students in Year 8 in Queensland, South Australia, Western Australia and the Northern Territory in 1993 (since those years represent the commencement of the secondary school system in the respective State/Territory). The resultant figure is converted to a percentage.

#### STUDENT/STAFF RATIOS

**16** Student/teaching staff ratios are calculated by dividing the number of full-time students by the FTE of teaching staff. Student/total school staff ratios are calculated by dividing the number of full-time students by the FTE of all school staff.

#### DISCONTINUITIES IN THE SERIES

**17** The Education Department of South Australia has advised that the apparent increase in the number of students in Reception Year since 1985 is the result of the implementation of the First Years of School Policy which commenced at the beginning of 1985 requiring all students to spend 7 to 10 terms under the 3-term year (or 10 to 13 terms under the 4-term year) prior to entry to Year 3. Previously students could move from Reception to Year 1 in the same year or from a full Reception Year to Year 2 in the following year. This policy has resulted in additional students being retained in the lower year levels. In particular, prior to 1985, in order to retain a cohort group of Year 1 (for statistical purposes), any Reception students expected to be in Year 2 in the following year were designated as Year 1 students.

**18** Commencing with the 1989 collection, staff have been categorised according to their major function. The implementation of this means that some staff who were previously included in teaching staff are now included in specialist support. Users are advised to be aware of this when comparing teaching staff figures published prior to 1989.

**19** Commencing with the 1989 collection, executive staff have been included in non-school staff.

**20** Prior to the 1985 collection, some full-time students attending special classes at non-special schools were classified to the special education category. Special education data from 1985 to 1989 refer only to special schools.

**21** As from 1990, students attending special schools have not been identified separately and have been allocated to either primary or secondary level of education. Commencing with the 1990 collection, staff in special schools have not been identified separately and have been allocated to either primary or secondary area of activity.

**22** The Education Department of Tasmania has advised that a change in the Early Childhood Admission Policy, commencing 1993, has resulted in a change in the enrolment pattern of students in Preparatory and Year 1.

# STRUCTURE OF PRIMARY AND SECONDARY SCHOOLING

The structure of primary and secondary schooling in Australia varies between the different States and Territories. There are three basic patterns evident, as illustrated below:

- in South Australia and the Northern Territory the primary system comprises a Pre-year 1 grade followed by Years 1 to 7. In South Australia Pre-year 1 is called Reception and in the Northern Territory it is called Transition. The secondary system comprises Years 8 to 12;
- in New South Wales, Victoria, Tasmania and the Australian Capital Territory the primary system comprises a Pre-year 1 grade followed by Years 1 to 6. In New South Wales and the Australian Capital Territory Pre-year 1 is called Kindergarten and in Victoria and Tasmania it is called Preparatory. The secondary system comprises Years 7 to 12; and
- in Queensland and Western Australia the primary system comprises Years 1 to 7 and the secondary system Years 8 to 12.

Each State and Territory also has a pre-school sector which is separate from primary and secondary schooling. Data on pre-school education within schools have been excluded from primary enrolments in this publication.

| <b>Aboriginal/Torres Strait Islander student</b> | A student of Aboriginal or Torres Strait Island origin who identifies as an Aborigine or Torres Strait Islander.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Affiliation of non-government schools</b>     | Non-government schools are classified to three groups: Anglican, Catholic and Other. Included in the Other category are schools with specific religious affiliations (other than Anglican and Catholic) and schools that are inter-denominational, non-denominational or which have no religious affiliation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Age participation rate</b>                    | The age participation rate is the number of full-time students of a particular age and sex expressed as a proportion of the estimated resident population of the same age and sex. It indicates the proportion of the population who are still at school. In the Australian Capital Territory some rates exceed 100%. This is mainly due to the enrolment of secondary school students who are not residents of the Australian Capital Territory, e.g. from the surrounding New South Wales area.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Ancillary Education Establishment (AEE)</b>   | This is an establishment where the major activity is the provision of aspects of primary, secondary or special education to students supplementary to that provided by schools. AEEs include those education establishments in institutions and hospitals which do not have officially recognised student enrolments. Only student and staff data are included for AEEs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Apparent retention rate</b>                   | <p>This is the percentage of students of a given cohort group who continued to a particular level/year of education. In this publication, apparent retention rates are calculated for full-time students who continued to Years 10, 11 and 12 of secondary schooling. Care should be exercised in the interpretation of apparent retention rates since a range of factors affecting calculation have not been taken into account. At the Australia level these include students repeating a year of education, migration and other net changes to the school population. At lower levels of disaggregation, additional factors affecting the data, such as enrolment policies (which contribute to different age/grade structures between States), inter-sector transfer and interstate movements of students have not been taken into account. International comparisons are another area where structural differences must be taken into account. See Explanatory Notes, paragraph 15 for an example of the calculation of retention rates.</p> <p>Part-time students are excluded from apparent retention rates; the effect of this exclusion varies between States.</p> |
| <b>Area of activity (of staff)</b>               | The area of activity of staff is considered to be primary education or secondary education. As a rule, the FTE (full-time equivalent) of staff is apportioned across areas of activity on the basis of time spent in the various areas of activity.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Category of school</b>                        | Schools/AEEs are classified to the government or non-government sector for the purposes of this collection.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Full-time equivalent units (FTE)**

This is a measure of the total level of staff resources used. The FTE of a full-time staff member (i.e. employed full time and engaged solely on activities which fall within the scope of this collection) is equal to 1.0. The calculation of FTE for part-time staff is as follows:

- the full-time equivalent of part-time staff performing some activities which fall outside the scope of this collection (e.g. preschool or Technical and Further Education (TAFE)) is calculated on the basis of the proportion of time spent on in-scope activities compared with that spent by a full-time staff member solely occupied by in-scope activities; and
- the full-time equivalent of part-time staff performing activities which fall solely within the scope of this collection is calculated on the basis of time worked compared with that worked by full-time staff performing similar duties.

Some States are not able to calculate full-time equivalent on a time spent basis for all staff functions but use wages paid as a fraction of full-time rate, or a resource allocation based formula. Some also use a pro rata formula based on student or teacher numbers to estimate aggregate FTE for some categories of staff.

**Level/Year of education**

Level of education is split into primary and secondary. Year of education comprises Years 1 through 12, plus ungraded primary and ungraded secondary.

**Major function (of staff)**

Commencing with the 1989 collection, staff have been categorised according to their major function, which is based on the duties in which they spend the majority of their time.

The functional categories for school staff are as follows:

- teaching staff are staff who spend the majority of their time in contact with students, i.e. support students either by direct class contact or on an individual basis, and have teaching duties, that is, are engaged to impart the school curriculum. For the purposes of this collection, teaching staff includes principals, deputy principals and senior teachers mainly involved in administration;
- specialist support staff are staff who perform functions that are of special benefit to students or teaching staff in the development of the school curriculum;
- administrative and clerical staff (including teacher aides and assistants) are staff whose main duties are generally of a clerical/administrative nature; and
- building operations, general maintenance and other staff are staff involved in the maintenance of buildings, grounds etc. Also included are staff providing associated technical services and janitorial staff.

The functional categories for non-school staff are as follows:

- executive staff are staff generally undertaking functions of a senior administrative nature broader than that of a secondary principal and whose salary usually exceeds that of a secondary principal;
- specialist support staff are staff who manage or are engaged in curriculum development and research activities, assisting with teaching resources, staff development, student support services and teacher support services;
- administrative and clerical staff are staff whose main duties are of a clerical/administrative nature; and
- building operations, general maintenance and other staff include staff whose duties involve the maintenance of buildings, grounds etc, and those staff providing associated technical services and other janitorial staff.

**Other education establishments**

A number of other establishments within the scope of these statistics, but not defined as schools or AEEs include:

- administrative officers which have as their major activity the administration of primary, secondary or special education; and
- teacher resource centres operated by a State Director-General of Education (or equivalent).

**Primary education**

Full-time education which typically commences at around age five and lasts for seven to eight years. It does not include sessional education such as preschool education. In New South Wales, Victoria, Tasmania and the Australian Capital Territory, primary education may extend from Pre-Year 1 to Year 6 (or equivalent). In South Australia and the Northern Territory it may extend from Pre-Year 1 to Year 7 (or equivalent). In Queensland and Western Australia it may extend from Year 1 to Year 7 (or equivalent).

**School**

School (other than a special school) must satisfy the following criteria:

- its major activity is the provision of full-time day primary or secondary education or the provision of primary or secondary education by radio or correspondence;
- it is headed by a principal (or equivalent) responsible for its internal operation; and
- it is possible for students to enrol for a minimum of four continuous weeks, excluding breaks for school vacations.

The term school in this publication includes schools in institutions and hospitals, mission schools and similar establishments. The term excludes preschools, kindergarten centres, pre-primary schools or pre-primary classes in or attached to non-special schools, senior technical and agricultural colleges, evening schools, continuation classes and institutions such as business or coaching colleges.

## **Secondary education**

Education which typically commences at around age 12 after completion of primary education and lasts for five or six years. In New South Wales, Victoria, Tasmania and the Australian Capital Territory, secondary education may extend from Year 7 to Year 12 (or equivalent). In Queensland, South Australia, Western Australia, and the Northern Territory it may extend from Year 8 to Year 12 (or equivalent).

## **Special school**

A school which provides special instruction for physically and/or mentally disabled or impaired students, or those with social problems. Students must exhibit one or more of the following characteristics before enrolment is allowed:

- mental or physical disability or impairment;
- slow learning ability;
- social or emotional problems; and/or
- in custody, on remand or in hospital.

## **Staff**

Staff are persons who are involved in the administration or provision of primary or secondary education. Staff are categorised as school staff or non-school staff. School staff include all teaching staff and those non-teaching staff who spend more than half their time actively engaged in duties in one or more schools/AEEs.

## **Student**

A person who is enrolled in a school and active in a course of study other than preschool or TAFE courses. Persons absent at the census date are included if they were expected to be absent for less than four continuous weeks (excluding school vacations) and are excluded if they had left the school or had been absent without explanation for four continuous weeks (excluding school vacations) prior to the census date.

A full-time student is one who undertakes a workload specified as full time in the government or non-government sector.

A part-time student is one who undertakes a workload less than that specified as full time in either sector.

The method used to determine student workload varies between States.

This publication details full-time students only, with the exception of tables 3 and 16. Table 3 includes the FTE of part-time students calculated on the basis of the workload of a full-time student and table 16 shows the number and FTE of part-time secondary students by level/year of education by category of school.

## **For more information . . .**

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the ABS Catalogue of Publications and Products available from all ABS Offices.

### **ABS Products and Services**

Many standard products are available from ABS bookshops located in each State and Territory. In addition to these products, information tailored to the needs of clients can be obtained on a wide range of media by contacting your nearest ABS Office. The ABS also provides a Subscription Service for standard products and some tailored information services.
