## P R E F A C E . . . . .

*Regional Statistics, South Australia, 2001*, presents a statistical summary of key economic and social information for local government areas in South Australia. It contains the latest available data (at the time of preparation), as well as historical data, for a selected range of Australian Bureau of Statistics (ABS) and some non-ABS data items.

This is the fourth edition of *Regional Statistics, South Australia* and continues the ABS strategy to improve the availability and range of statistical information at the regional level. It has been produced to assist users to understand the composition and structure of a region, including how a region contributes to the State's economy and also to monitor the trends of economic growth or decline.

The data presented in this publication have been sourced from a wide variety of statistical collections, both ABS and non-ABS. Care should be taken when analysing the data as time periods, definitions, scope, coverage and methodologies will differ. Some concepts and definitions are covered in the Explanatory Notes and Glossary, however, more detailed information can be obtained from the relevant source publications (see page 146).

The ABS wishes to acknowledge the contribution of those organisations who have agreed to have some of their statistical information included in this publication. The inclusion of the non-ABS data adds to the overall understanding of the composition of regional South Australia.

A significant feature of this issue is the presentation of time series data at the local government area level. This information will provide further insight about the trends and distribution of the population and economic activity throughout small areas of South Australia. Other changes in this edition include the addition of births and deaths data and two additional agricultural data items.

If a region of interest is not covered in this publication a Regional Profile Consultancy Service is available to provide the information included here, and more, for other specified regions. More details about this service are provided at the back of this publication.

*	RSE of estimate lies between 25% and 50%

# SECTION 1 SOUTH AUSTRALIA .....

## GEOGRAPHY

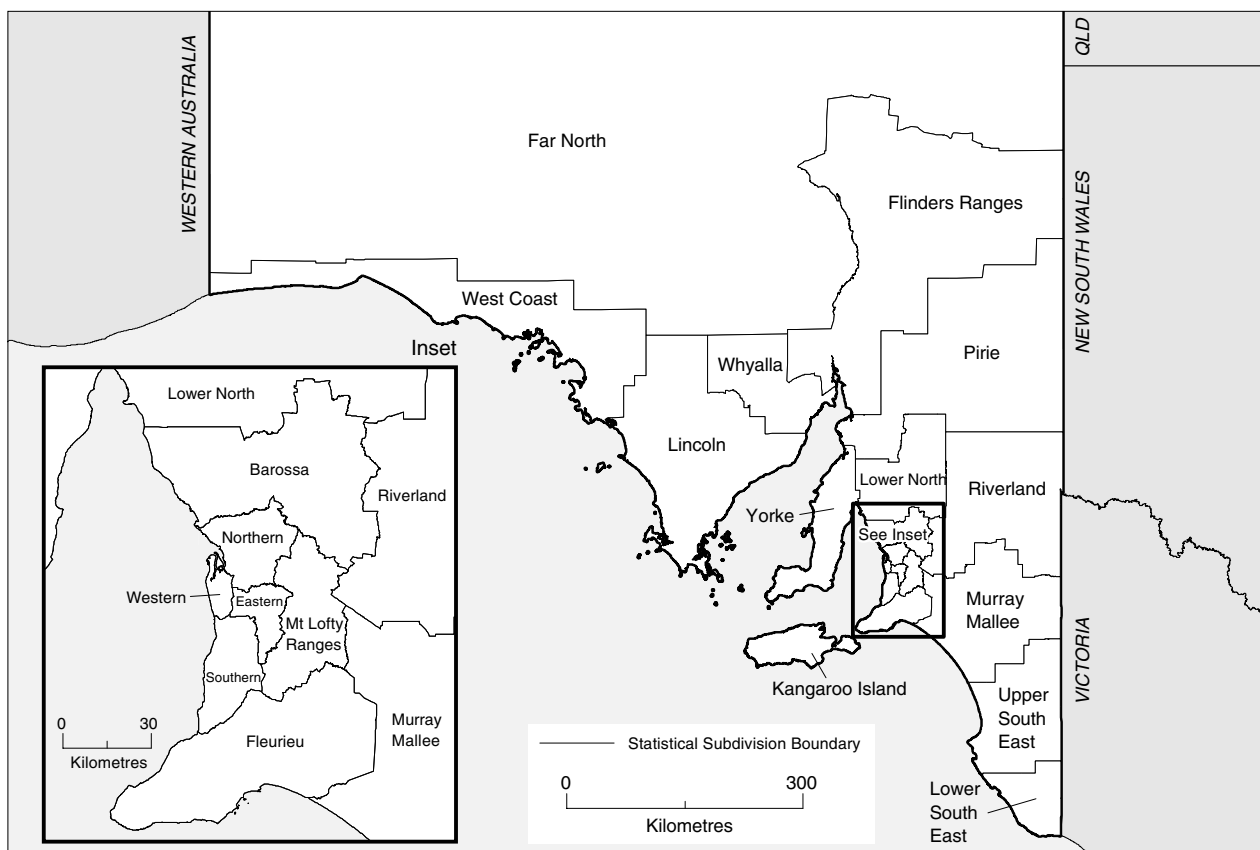

For the purpose of presenting statistics for the State, such as this series of broad economic and social indicators, South Australia is divided into a number of geographical areas.

Firstly, the State is comprised of seven statistical divisions (SDs). These divisions are intended to represent regions which are characterised by discernible social and/or economic links between the inhabitants and the economic units within them under the unifying influence of one or more major towns or cities.

The seven SDs are, in turn, divided into statistical subdivisions (SSDs) which are also defined as socially and economically homogeneous regions characterised by identifiable links between the inhabitants. There are 20 SSDs in South Australia and these are shown in the map below.

In South Australia SSDs consist, for the most part, of aggregations of local government areas (LGAs) and it is these LGAs that are the focus of this publication. The data presented are calculated on LGA boundaries at 30 June 2000. The following page outlines the relationship between SDs, SSDs and LGAs in South Australia.

Further details about the ABS geographical classification structure can be referenced in *Australian Standard Geographical Classification (ASGC) 2000* (Cat. no. 1216.0).

## OVERVIEW

Regional South Australia (SA), or the areas outside the Adelaide SD, are the main focus of the overview outlined below. Data for the Adelaide SD and South Australia are used for comparison purposes to help illustrate the current status of areas in Regional SA.

## POPULATION

At 30 June 2000 the population of South Australia was estimated to be 1,497,634 persons. The Adelaide SD contains the majority of South Australia's population with 1,096,102 persons while Regional SA contains 401,532 persons or 26.8% of the State's total population.

The Outer Adelaide SD supports the largest population (110,663 persons) in Regional SA. The Northern SD, with 20.4% of Regional SA's population (81,860 persons), also has a significant population base while Eyre and Yorke and Lower North SDs contain smaller populations with 33,493 (8.3%) and 44,225 (11.0%) persons respectively.

Whyalla (C), with an estimated 23,217 persons, Mount Gambier (C) (23,212) and Mount Barker (DC) (22,941) are the largest LGAs outside of the Adelaide SD. Orroroo/Carrieton (DC) in the Northern SD, with 1,092 persons is the LGA with the smallest population while Elliston (DC) (1,233 persons), Franklin Harbor (DC) (1,241) and Kimba (DC) (1,249), all in Eyre SD, were the next least populated LGAs. In the Adelaide SD, Onkaparinga (C) with 147,628 persons or 9.9% of South Australia's total population was the most populated LGA in the State.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Onkaparinga (C) (737 persons), Playford (C) (696 persons) and Tea Tree Gully (C) (533 persons), all located in the Adelaide SD. The Outer Adelaide SD experienced significant population growth with a 1.5% increase (1,645 persons). LGAs recording significant population growth were Robe (DC) (4.4% or 60 persons) in the State's South East and Light (DC) (2.6% or 260 persons) in the Outer Adelaide SD.

#### LGAs WITH LARGEST AND FASTEST POPULATION GROWTH—1999–2000

LGA	no.	%
LARGEST GROWTH		
Onkaparinga (C)	740	0.5
Playford (C)	700	1.0
Mount Barker (DC)	550	2.5
Tea Tree Gully (C)	530	0.5
Alexandrina (DC)	340	2.0
FASTEST GROWTH		
Robe (DC)	60	4.4
Light (DC)	260	2.6
Mount Barker (DC)	550	2.5
Roxby Downs (M)	100	2.4
Adelaide (C)	290	2.2

## BIRTHS AND DEATHS

The number of births to women usually resident in South Australia declined from 18,215 in 1998 to 17,958 in 1999. The crude birth rate for 1999 of 12.0 births per 1,000 resident population was the lowest it has ever been. In Regional SA, however, there was an increase in the number of births between 1998 and 1999, from 5,117 to 5,191 and the crude birth rate increased slightly from 12.8 to 13.0.

In the Adelaide SD the highest crude birth rate in 1999 was recorded in Playford (C) (16.3) while in Regional SA the highest rate was in Ceduna (DC) (23.4). The LGA with the lowest crude birth rate in 1999 was Tumby Bay (DC) with a rate of 7.0.

In 1999 there were 11,291 deaths of South Australians, a decrease from 1998 when there were 11,681 deaths. There was also a reduction in the number of deaths in Regional SA for the same period, from 3,057 in 1998 to 3,008 in 1999. The crude death rates in 1999, for both the State and Regional SA, were similar at 7.6 and 7.5 respectively.

For the calendar year 1999, a crude death rate of 11.4 deaths per 1,000 population was recorded in the Yorke SSD while, in the Far North SSD, the rate was 3.4 deaths per 1,000 population.

## UNEMPLOYMENT

The Department of Employment, Workplace Relations and Small Business<sup>1</sup> (DEWRSB) unemployment rate for South Australia, for the June quarter 2000, was estimated to be 8.2%, slightly lower than for same quarter of the previous year (8.3%). In comparison, the unemployment rate in Regional SA remained at 8.5% for the same periods.

For the June quarter 2000 unemployment rates above 10% were evident in Whyalla SSD (13.3%), Pirie SSD (11.8%), Yorke SSD (10.9%) and Fleurieu SSD (10.2%) although in each of these regions the rate had fallen from the corresponding quarter of the previous year. Low unemployment rates were evident in Upper South East SSD (4.1%), Mt Lofty Ranges SSD (5.8%) and Barossa SSD (6.2%). In each of these regions the rate had risen slightly from the corresponding quarter of the previous year.

UNEMPLOYMENT RATE, Statistical Divisions—June quarter 1999 and 2000

Source: DEWRSB, *Small Area Labour Markets, Australia*.

UNEMPLOYMENT *continued*

Unemployment rates vary within and across regions. For the June quarter 2000 Coober Pedy (DC) and Peterborough (DC) in the State's north had unemployment rates estimated at 17.5% and 16.6% respectively, while in Roxby Downs (M), the rate was estimated to be 2.1%. Other council areas to record low unemployment rates for the June quarter 2000 include Kimba (DC) (2.6%), Le Hunte (DC) (3.3%) and Franklin Harbour (DC) (3.8%), all LGAs in the Eyre SD.

## INCOME

For the financial year 1998–99 average individual annual taxable income in South Australia was \$31,964. In comparison, the average in the Adelaide SD was \$32,681 and in Regional SA, \$29,816. Within Regional SA the Northern SD, with \$32,809, had an average individual taxable income higher than the State average while on Kangaroo Island the average was \$25,588. In the Adelaide SD, the Eastern SSD had the highest average at \$38,611.

For LGAs in South Australia the average annual individual taxable income ranged from \$51,391 in Roxby Downs (M) in the State's far north to \$24,584 in Karoonda East Murray (DC) in the Murray Lands. With the exception of Roxby Downs (M) and Whyalla (C) (\$35,081) all other LGAs in Regional SA had an average lower than the average for Adelaide SD.

## INCOME SUPPORT

With 26.8% of South Australia's total population, Regional SA also had similar levels of persons receiving various income support assistance from the Commonwealth Department of Family and Community Services. As at June 2000 there were 15,761 persons (27.6%) in Regional SA receiving Newstart Allowance, 42,570 (25.9%) persons receiving an Age Pension and 14,671 (25.6%) receiving a Disability Support Pension.

The South East SD, with 4.2% of South Australia's population, had 1,712 persons, or 3.0% of the State's total, receiving Newstart Allowance and 5,696 persons (3.5% of the State's total) receiving an Age Pension. The Northern SD, with 5.5% of South Australia's population, had 4,611 persons, or 8.1% of the State's total, receiving Newstart Allowance and 8,101 persons (4.9% of the State's total) receiving an Age Pension.

## BUILDING APPROVALS

In the year ended 30 June 2000 there were 9,853 new residential dwelling units approved in South Australia. In Regional SA there were 3,083 new residential dwelling units approved or 31.3% of the State's total.

The number of new residential dwelling approvals increased in all SDs between 1998–99 and 1999–2000 with the exception of the Northern SD. In the Outer Adelaide SD the number of approvals increased by 51.3% from 1,031 in 1999 to 1,560 approvals in 2000. In the Yorke and Lower North and Murray Lands SDs the number of approvals increased by around 30% and in the South East SD by 26.3%. The value of new residential dwelling unit approvals in Outer Adelaide SD in 1999–2000 was \$143.1m. For Regional SA the value was \$282.6m, up from \$217.7m for the previous year.

BUILDING APPROVALS *continued*

In the Adelaide SD significant numbers of new residential dwellings were approved in 1999–2000 in Onkaparinga (C) (919) and Salisbury (804). The value of these approvals was \$88.1m and \$79.2m respectively. In Regional SA, Alexandrina (DC) with 348, Mount Barker (DC) with 311 and Victor Harbor (DC) with 280 were the LGAs with the most new residential dwelling unit approvals.

In contrast to residential dwelling approvals the value of non-residential building approvals fell in most SDs between 1998–99 and 1999–2000. In the Adelaide SD the value fell from \$498.3m to \$445.9 and in Regional SA from \$172.6m to \$139.8m. In the Northern and Murray Lands SDs however, the value of non-residential building approvals increased from \$12.8m to \$28.0m and \$15.6m to \$26.8m respectively. Most of the increase in these areas was due to significant development approvals in the Unincorporated Far North area of the State (\$3.2m to \$9.1m) and the Northern Areas (DC) (\$0.1m to \$3.4m) in the Northern SD and in Berri and Barmera (DC) (\$2.3m to \$7.3m), Loxton Waikerie (DC) (\$1.7m to \$5.4m) and The Coorong (DC) (\$0.3m to \$4.6m) in the Murray Lands SD.

NUMBER OF NEW RESIDENTIAL DWELLING UNITS, Statistical Divisions—Percentage change from 1998–99 to 1999–2000

## PROPERTY SALES

In line with the increase in new residential dwelling approvals there was also an increase in the number of residential property sales between 1998–99 and 1999–2000 in all SDs in the State. In the Adelaide SD the number of sales increased by 17.1% from 23,073 in 1998–99 to 27,009 in 1999–2000. The rate of increase was similar for Regional SA where it rose by 15.4% from 7,093 to 8,188.

The average value of residential property sales for 1999–2000 in South Australia was \$136,600. This was up from an average of \$124,700 in 1998–99. In comparison, the average in Regional SA was \$104,800 (up from \$91,100) and in Adelaide SD \$146,200 (up from \$135,000). In 1995 the average sale price in Regional SA was \$76,600.

In 1999–2000 the average residential sale price in the Outer Adelaide SD of \$144,600 was over double the value of the average sale price in the Northern SD (\$66,200).

PROPERTY SALES *continued*

High average residential property sale prices for 1999–2000 were recorded in the Adelaide Hills (DC)—Part Mt Lofty Ranges SSD (\$381,400), Walkerville (M) (\$312,300) and Burnside (\$256,400) while lower averages were recorded in Peterborough (DC) (\$27,600), Coober Pedy (DC) (\$39,000) and Kimba (\$39,800).

## AGRICULTURE

For the year ended 31 March 1999 the total value of agricultural production in South Australia was \$3,243.6m with Regional SA accounting for \$3,037.8m or 93.7% of this total. The value of production in the Murray Lands SD was \$883.5m and in the Northern SD \$222.8m, while the other SDs had values around \$400m to \$500m. Most SDs recorded an increase in the value of agricultural production from 1998 to 1999.

Local government areas with a thriving agricultural industry include Loxton Waikerie (DC) with a value of agricultural production in 1999 of \$267.8m, Tatiara (DC) with \$152.8m, Renmark Paringa (DC) with \$136.2m, Wattle Range (DC) with \$135.7m and Yorke Peninsula (DC) with \$134.6m. The total values for all of these areas were largely accounted for by crops. Loxton Waikerie (DC) produced various crops to the value of \$257.8m or 96.3% of the total value of agricultural production, Tatiara (DC) \$114.9m or 75.2% for crops, Renmark Paringa (DC) \$134.7m or 98.9% for crops and Yorke Peninsula (DC) \$119.1m or 88.5% for crops. Wattle Range (DC) with a value of \$79.1m for crops also had production of livestock products to the value of \$56.6m.

Other LGAs with significant values for production of livestock and livestock products include Grant (DC), The Coorong (DC), Murray Bridge (RC) and Naracoorte and Lucindale (DC) with \$73.6m, \$59.0m, \$49.6 and \$47.6m respectively.

## TOTAL VALUE OF AGRICULTURAL COMMODITIES PRODUCED, Statistical Divisions—Year ended 31 March 1998 and 1999

## LOCAL GOVERNMENT FINANCE

For the year ended 30 June 2000 the total outlay on goods, services and land by local government in South Australia was \$892.5m. In Regional SA the outlay was \$319.1m which was an increase of \$27.4m over the previous year. Outlay on infrastructure accounted for 24.2% (\$77.2m) of the total outlay in Regional SA while outlay on environmental services accounted for 11.7% (\$37.5m). In the Adelaide SD outlay on infrastructure and environmental services in 1999–2000 accounted for 18.8% and 12.9% respectively of the total outlay on goods, services and land.

Significant increases in the total outlay on goods, services and land between 1998–99 and 1999–2000 were recorded in a number of areas. These include Unley (C) (from \$18m to \$27.9m), Lacedpede (DC) (from \$3.7m to \$6.5m), Yorke Peninsula (DC) (from \$11.7m to \$14.8) and Copper Coast (DC) (from \$6.4m to \$8.4m).

Rates per rateable property vary considerably across the State from \$2,120 in Adelaide (C) to \$241 in Orroroo/Carrieton (DC). In 1999–2000 the average rate was \$692 per annum for total South Australia, \$746 in the Adelaide SD and \$582 in Regional SA.

## NEW MOTOR VEHICLE REGISTRATIONS

In the year ended 30 June 2000 there were 44,361 new motor vehicles registered in South Australia. Of these, 9,490 or 21.4% were registered in Regional SA. Between 1999 and 2000, the number of new motor vehicle registrations declined in most regions across the State. However, increases were recorded in some regional areas including Roxby Downs (M) and Coober Pedy (DC) in the Far North, where the registrations increased from 129 to 159 and 31 to 38 respectively, and Adelaide (C) and Playford (C) in the Adelaide SD (from 7,652 to 8,181 and 1,696 to 1,735 respectively).

SECTION **2**

**ADELAIDE STATISTICAL DIVISION** .....

The Adelaide SD encompasses the city centre and suburbs of metropolitan Adelaide. It extends from the sea and its stretch of beaches in the west to the Adelaide Hills of the Mount Lofty Ranges in the east and from around the Gawler River in the north to beyond Willunga in the south. Covering just 0.2% (approximately 1,830 square kilometres) of South Australia's total area, the Adelaide SD supports over 73% of the State's population. It is the centre of population, secondary industry and finance and commerce for the State. Some agricultural activity is also evident, especially in the outer areas of the division.

Adelaide is the driest Australian capital city. Summer rainfall is light and unreliable and months without rain are not uncommon. Rainfall varies considerably throughout the division with average annual falls of 450 to 580 millimetres on the plains to the north and west of the city as well as along the coastal fringe to the south. Recordings are generally higher in the foothills, and at the highest parts of the Adelaide Hills annual rainfall averages between 1,000 mm and 1,200 mm. In January and February, Adelaide's warmest months, the average maximum temperature is around 29°C. July is the coldest month with an average maximum of 15°C.

## POPULATION

The estimated resident population in the Adelaide SD at 30 June 2000 was 1,096,102 persons. The most populated areas in the division were Onkaparinga (C) in the south with 147,628 persons (13.5%) and Salisbury (C) in the north with 112,531 persons (10.3%). The smallest LGAs, in terms of population, were Walkerville (M) and Adelaide (C) with 7,125 and 13,496 persons respectively.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Onkaparinga (C) (737 persons), Playford (C) (696 persons) and Tea Tree Gully (C) (533 persons). Prospect (C), Port Adelaide Enfield (C) Western SSD part, Unley (C) and West Torrens (C) had slight decreases in population.

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the Adelaide SD for the June quarter 2000 was 8.1%, down slightly from 8.2% for the same period in the previous year. Higher unemployment rates are evident in the northern parts of the division with Playford (C), Port Adelaide Enfield (C) and Salisbury (C) all over 10%. For the June quarter 2000 Walkerville (M), Tea Tree Gully (C), Unley (C), Mitcham (C), Burnside (C) and Adelaide Hills (DC) Eastern SSD part had unemployment rates less than 5%. From the June quarter 1999 to the June quarter 2000 the unemployment rate in Norwood Payneham St Peters (C) fell from 8.3% to 6.0% while in Onkaparinga (C) it increased from 7.4% to 8.6%.

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Adelaide SD ranged from \$28,766 in Playford (C) to \$47,291 in Adelaide (C). Higher averages are generally evident in the LGAs in the Eastern SSD. The average for the Adelaide SD in 1998–99 was \$32,681 up from \$31,127 in 1997–98.

## BUILDING APPROVALS

The value of new residential building approvals in the Adelaide SD in 1999–2000 was \$740.4m (up from \$557.9m in 1998–99) while the value of non-residential building approvals was \$445.9m (down from \$498.3m). New residential building work to the value of \$88.1m was approved in Onkaparinga (C) while in Salisbury (C) and Holdfast Bay (C) the value of approvals was \$79.2m and \$70.1m respectively. Most LGAs in the region recorded increases in the number and value of new residential dwelling approvals from 1998–99 to 1999–2000, including Prospect (C) with 77 new dwelling approvals (up from 19) and Gawler (M) 178 (up from 65). The value of non-residential building approvals in Adelaide (C) was \$182.4m or 40.1% of the division's total while in Holdfast Bay (C) the value was \$43.6m, (up from \$5.3m in 1998–99).

## AGRICULTURE

The total value of agricultural commodities produced in the Adelaide SD was estimated to be \$205.8m in 1999, an increase of \$56.5m from \$149.3m in 1998. The Adelaide SD provided 6.3% of the State's total value of agricultural production in 1999. Most of the division's agricultural production is concentrated in Onkaparinga (C) in the south, with a value of \$77.9m and Playford (C) in the north (\$69.5m). These two LGAs account for over 70% of the region's total value of agricultural production.

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the Adelaide SD increased by 21,423 persons (2.0%), compared with an increase of 28,205 persons (1.9%) for the State.

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$32,681 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the Adelaide SD had an unemployment rate of 8.1%, similarly the State unemployment rate for the same period was 8.2%.

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999–2000 was \$740.4m, an increase of 36.9% from \$540.9m in 1994–95.

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$205.8m, compared with \$154.8m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations declined between 1999 and 2000 for the first time during the period shown, from 39,422 to 34,871 (-1.5%).

SECTION **3**

**OUTER ADELAIDE STATISTICAL DIVISION** ..

The Outer Adelaide SD covers an area of approximately 11,630 square kilometres, or 1.2% of the State's total area and surrounds the Adelaide SD. The division includes the area to the north of the Adelaide Plains around Mallala, the northern extremes of the Mount Lofty Ranges and the Barossa Valley. To the east the division follows the hills of the central Mount Lofty Ranges and then extends southward encompassing the hills and plains of the Fleurieu Peninsula. It also includes the western lakes district of Lake Alexandrina and Kangaroo Island.

The Outer Adelaide SD supports a wide variety of agricultural production. North of the Adelaide Plains is conducive to vegetable farming and cereal crops while the Barossa Valley is extensively planted to grape vines. Main agricultural activities in the central Mount Lofty Ranges include dairying, sheep grazing, vegetable growing and fruit orchards while in the Fleurieu Peninsula, meat and wool production, dairying and cereal crops around Strathalbyn are the predominant activities. On Kangaroo Island wool and livestock sales account for around 70% to 80% of the total value of the island's agricultural production. Tourism is also a major industry throughout the region.

## POPULATION

The estimated resident population in the Outer Adelaide SD at 30 June 2000 was 110,663 persons. The most populated areas in the division were Mount Barker (DC) with 22,941 persons (20.7%), Barossa (DC) with 18,818 persons (17.0%) and Alexandrina (DC) with 17,535 persons (15.8%). The smallest LGAs, in terms of population, were Yankalilla (DC) and Kangaroo Island (DC) with 3,921 and 4,409 persons respectively.

In the 12 months ending 30 June 2000 the population grew in all LGAs in the Outer Adelaide SD. The largest population increases were recorded in Mount Barker (DC) (553 persons), Alexandrina (DC) (344 persons), Light (DC) (260 persons) and Victor Harbor (DC) (215 persons).

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the Outer Adelaide SD for the June quarter 2000 was 7.2%, up slightly from 6.9% for the same period in the previous year. Higher unemployment rates were evident in the lower Fleurieu Peninsula region with Yankalilla (DC), Victor Harbor (DC) and Kangaroo Island (DC) all over 9%. For the June quarter 2000 Adelaide Hills (C)—Part Mt Lofty Ranges SSD and Barossa (DC) had unemployment rate estimates of 3.9% and 5.1% respectively. From the June quarter 1999 to the June quarter 2000 the unemployment rate in Alexandrina (DC) fell from 9.1% to 8.4% while in all other LGAs in the region the rate increased. In Yankalilla (DC) the rate increased from 11.4% to 12.9%.

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Outer Adelaide SD ranged from \$25,588 in Kangaroo Island (DC) to \$32,575 in Barossa (DC). The averages for all of the LGAs in the region were below the average for the Adelaide SD. The average for the Outer Adelaide SD in 1998–99 was \$30,260 up from \$28,623 in 1997–98.

## BUILDING APPROVALS

The value of new residential building approvals in the Outer Adelaide SD in 1999–2000 was \$143.1m (up from \$92.9m in 1998–99) while the value of non-residential building approvals was \$44.9m (down from \$63.4m). New residential building work to the value of \$32.3m was approved in Alexandrina (DC) while in Mount Barker (DC) and Victor Harbor (DC) the value of approvals was \$27.6m and \$24.0m respectively. All LGAs in the region recorded increases in the number and value of new residential dwelling approvals from 1998–99 to 1999–2000, including Barossa (DC) with 156 new dwelling approvals (up from 81) and Alexandrina (DC) 348 (up from 232).

## AGRICULTURE

The total value of agricultural commodities produced in the Outer Adelaide SD was estimated to be \$470.6m in 1999, a level similar to that of the preceding two years. The Outer Adelaide SD provided 14.5% of the State's total value of agricultural production in 1999. Over half of the division's total value of agricultural production was produced in the three council areas of Barossa (DC), with a value of \$87.8m, Alexandrina (DC) (\$84.2m) and Light (DC) (\$70.4m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the Outer Adelaide SD increased by 8,858 persons (8.7%), much higher than the rate of change experienced by the State (1.9%).

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$30,260 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the Outer Adelaide SD had an unemployment rate of 7.2%, lower than the rate for South Australia (8.2%).

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999–2000 was \$143.1m, a significant increase of 53.2% from \$93.4m in 1994–95.

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$470.6m, compared with \$357m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Outer Adelaide SD declined between 1999 and 2000 for the first time since 1995–96, from 3,115 to 2,701 (–13.2%).

SECTION **4**

**YORKE AND LOWER NORTH STATISTICAL DIVISION** .....

The Yorke and Lower North SD covers Yorke Peninsula including a small area to the north as far as Port Broughton and extends eastward encompassing the Hummock and Barunga Ranges, the fertile areas surrounding Clare and Watervale and the Eudunda Ranges and its associated plains. It covers an area of approximately 20,360 square kilometres or 2.1% of South Australia's total area.

Cereal crops (wheat and barley) and sheep (wool and prime lamb production) are the major rural activities throughout the region along with the wine industry in and around Clare and Watervale where grape vines are extensively planted. Yorke Peninsula is also a source of valuable minerals and construction materials such as gypsum, dolomite, limestone, salt and copper. The wine industry in the Clare region and the historic copper mines at Burra attract a significant number of tourists while fishing and the natural rugged coastline attracts visitors to Yorke Peninsula. The climate is temperate with mostly warm summers and mild winters, although some districts such as the Clare Valley experience colder weather in winter.

## POPULATION

The estimated resident population in the Yorke and Lower North SD at 30 June 2000 was 44,225 persons. The most populated areas in the division were Yorke Peninsula (DC) with 11,730 persons (26.5%) and Copper Coast (DC) with 10,717 persons (24.2%). The smallest LGAs, in terms of population, were Barunga West (DC) and Goyder (DC) with 2,499 and 4,437 persons respectively.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Copper Coast (DC) (111 persons), Clare and Gilbert Valleys (DC) (52 persons) and Barunga West (DC) (28 persons). Goyder (DC) and Wakefield (DC) had slight decreases in population.

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the Yorke and Lower North SD for the June quarter 2000 was 9.1%, down from 9.5% for the same period in the previous year. Higher unemployment rates were evident in the Yorke SSD with Copper Coast (DC) at 13.2% and Barunga West (DC) at 10.2%. For the June quarter 2000 Goyder (DC) and Wakefield (DC) had unemployment rates around 8.5% while the rate in Clare and Gilbert Valleys (DC) was 5.6%. Most LGAs showed a fall in the unemployment rate from the same period of the previous year.

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Yorke and Lower North SD ranged from \$24,856 in Goyder (DC) to \$28,765 in Barunga West (DC). The average for the division in 1998–99 was \$27,524 up from \$27,297 in 1997–98, but well below the State average of \$31,964.

## BUILDING APPROVALS

The value of new residential building approvals in the Yorke and Lower North SD in 1999–2000 was \$29.3m (up from \$21.6m in 1998–99) while the value of non-residential building approvals was \$15.0m (down from \$20.0m). New residential building work to the value of \$11.2m was approved in Copper Coast (DC) while in Yorke Peninsula (DC) and Clare and Gilbert Valleys (DC) the value of approvals was \$9.4m and \$5.1m respectively. Most LGAs in the region recorded increases in the number and value of new residential dwelling approvals from 1998–99 to 1999–2000, including Yorke Peninsula (DC) with 132 new dwelling approvals (up from 82) and Copper Coast (DC) 124 (up from 102).

## AGRICULTURE

The total value of agricultural commodities produced in the Yorke and Lower North SD was estimated to be \$510.7m in 1999, an increase of \$18.3m from \$492.4m in 1998. The Yorke and Lower North SD provided 15.7% of the State's total value of agricultural production in 1999. The LGAs of Yorke Peninsula (DC) (\$134.6m), Wakefield (DC) (\$110.3m) and Clare and Gilbert Valleys (DC) (\$84.6m) accounted for 65% of the region's total value of agricultural production.

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the Yorke and Lower North SD decreased by 110 persons (-0.2%), less than the rate of change experienced by the State (1.9%).

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998-99 average individual annual taxable income was \$27,524 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the Yorke and Lower North SD had an unemployment rate of 9.1%, higher than the State unemployment rate for the same period (8.2%).

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999-2000 was \$29.3m (up from \$19.8m in 1994-95 or an increase of 48%).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$510.7m, compared with \$387.4m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Yorke and Lower North SD has increased from around 900 in 1995 to just over 1,000 in 2000.

SECTION **5**

**MURRAY LANDS STATISTICAL DIVISION . . . .**

Centred around the River Murray, which flows for some 650 kilometres from the Victorian border in the north-east to its mouth near Goolwa in the south, the Murray Lands Statistical Division covers an area of approximately 48,210 square kilometres. It is bounded by The Coorong in the south-west, the Ninety Mile Desert in the south-east and extends to the Victorian and New South Wales borders in the east.

The region covers three distinct types of country. To the north of the River is a semi-arid and very sparsely settled area mainly devoted to pastoralism and conservation parks. To the south and east is the Murray Mallee region which is a lightly settled grain farming and sheep grazing area while along the River Murray there are numerous townships and extensive irrigated uplands for the many citrus and stone fruit orchards and vineyards and their associated fruit canning, packing and wine and brandy manufacturing operations. For most of its length the River Murray is also a significant tourism and recreation resource built around the fruit and grape industries and the natural attraction of the river itself. The climate is generally Mediterranean with hot, dry summers and mild winters.

## POPULATION

At 30 June 2000 the population in the Murray Lands SD was estimated to be 68,497 persons. The most populated areas in the division were Murray Bridge (RC) with 17,030 persons (24.9%) and the Riverland district councils of Loxton Waikerie (DC) with 12,333 persons, Berri and Barmera (DC) with 11,460 persons and Renmark Paringa (DC) with 9,815 persons. The smallest LGAs, in terms of population, were Karoonda East Murray (DC) and Southern Mallee (DC) with 1,326 and 2,282 persons respectively.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Murray Bridge (RC) (145 persons), Renmark Paringa (DC) (57 persons) and Berri and Barmera (DC) (42 persons). Loxton Waikerie (DC), Mid Murray (DC), Karoonda East Murray (DC) and The Coorong (DC) all recorded a decline in population.

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the Murray Lands SD for the June quarter 2000 was 8.9%, up slightly from 8.7% for the same period in the previous year. Higher unemployment rates were evident in the northern parts of the division with Murray Bridge (DC), Mid Murray (DC), Berri and Barmera (DC) and Renmark Paringa (DC) all over 9%. For the June quarter 2000 Karoonda East Murray (DC) and Southern Mallee (DC) had unemployment rates estimated at less than 6%. From the June quarter 1999 to the June quarter 2000 the unemployment rate in Berri and Barmera (DC) fell from 9.6% to 9.1% while in Karoonda East Murray (DC) it increased from 4.2% to 5.2%.

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Murray Lands SD ranged from \$24,584 in Karoonda East Murray (DC) to \$29,174 in Berri and Barmera (DC). Higher averages are generally evident in the LGAs in the Riverland SSD. The average for the Murray Lands SD in 1998–99 was \$27,734 up from \$25,896 in 1997–98. This is lower than the average of \$29,816 for Regional South Australia.

## BUILDING APPROVALS

The value of new residential building approvals in the Murray Lands SD in 1999–2000 was \$36.5m (up from \$26.5m in 1998–99) while the value of non-residential building approvals was \$26.8m (up from \$15.6m). New residential building work to the value of \$9.6m was approved in Murray Bridge (RC) while in Berri and Barmera (DC) and Loxton Waikerie (DC) the value of approvals was \$9.1m and \$6.7m respectively. Most LGAs in the region recorded increases in the number and value of new residential dwelling approvals from 1998–99 to 1999–2000, including Mid Murray (DC) with 87 new dwelling approvals (up from 46) and Murray Bridge (RC) 114 (up from 78).

## AGRICULTURE

The total value of agricultural commodities produced in the Murray Lands SD was estimated to be \$883.5m in 1999, an increase of \$16.2m from \$867.3m in 1998. The Murray Lands SD provided 27.2% of the State's total value of agricultural production in 1999. Almost half of the division's total value of agricultural production was produced in Loxton Waikerie (DC), with a value of \$267.8m and Renmark Paringa (DC) (\$136.2m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the Murray Lands SD increased by 226 persons (0.3%), less than the rate of change experienced by the State (1.9%).

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998-99 average individual annual taxable income was \$27,734 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the Murray Lands SD had an unemployment rate of 8.9%, slightly higher than the unemployment rate for the State (8.2%).

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999-2000 was \$36.5m (up from \$26.4m in 1994-95 or an increase of 38.3%).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$883.5m, compared with \$661.7m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Murray Lands SD decreased by 10.9% between 1999 and 2000 (from 2,012 to 1,792), declining for the first time since 1996.

SECTION **6**

**SOUTH EAST STATISTICAL DIVISION** .....

The South East SD covers an area of approximately 21,310 square kilometres and, as the name suggests, covers the south-eastern corner of the State. The region lies midway between the capital cities of Adelaide and Melbourne and is bounded by the Southern Ocean to the west and south, the Victorian border to the east and extends to the Tatiara district around Keith in the north.

With reliable rainfall and supply of underground water the South East is, agriculturally, one of South Australia's most productive and diverse regions. As well as significant areas of vegetable growing near Mount Gambier and Millicent, wine production around the well known Coonawarra area and cereal grain production near Bordertown, softwood timber, pastures and livestock are the bases of the region's productivity. Fishing is also an important and established component of the region's economy with rock lobster harvesting being a major contributor. Recent years have also seen the growth of a significant aquaculture industry. Unique natural attractions such as the Naracoorte Caves and the Blue Lake at Mount Gambier contribute to a thriving tourism industry.

## POPULATION

The estimated resident population in the South East SD at 30 June 2000 was 62,794 persons. The most populated areas in the division were Mount Gambier (C) with 23,212 persons (37.0%) and Wattle Range (DC) with 12,482 persons (19.9%) both in the Lower South East SSD. The smallest LGAs, in terms of population, were Robe (DC) and Lacepede (DC) with 1,422 and 2,448 persons respectively.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Robe (DC) (60 persons) and Mount Gambier (C) (47 persons). Wattle Range (DC), Grant (DC) and Lacepede (DC) all experienced a decrease in their population.

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the South East SD for the June quarter 2000 was 6.5%, up from 5.9% for the same period in the previous year. Apart from Mount Gambier (C) all LGAs in the region had an unemployment rate well below the State's rate of 8.2%. For the June quarter 2000 Naracoorte and Lucindale (DC), Tatiara (DC) and Grant (DC) had unemployment rates of 5% or less. From the June quarter 1999 to the June quarter 2000 the unemployment rate in Naracoorte and Lucindale (DC) increased from 3.8% to 5.0% while in Mount Gambier (C) it remained relatively steady (8.7% to 8.8%).

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the South East SD ranged from \$26,561 in Robe (DC) to \$31,103 in Mount Gambier (C). Higher averages were generally evident in the LGAs in the Lower South East SSD. The average for the South East SD in 1998–99 was \$29,834 up from \$28,529 in 1997–98.

## BUILDING APPROVALS

The value of new residential building approvals in the South East SD in 1999–2000 was \$37.4m (up from \$29.2m in 1998–99) while the value of non-residential building approvals was \$18.4m (down from \$26.3m). New residential building work to the value of \$12.7m was approved in Mount Gambier (C) while in Naracoorte and Lucindale (DC) and Grant (DC) the value of approvals was \$6.6m and \$5.0m respectively. Most LGAs in the region recorded increases in the number and value of new residential dwelling approvals from 1998–99 to 1999–2000, including Naracoorte and Lucindale (DC) with 72 new dwelling approvals (up from 40) and Robe (DC) 40 (up from 24).

## AGRICULTURE

The total value of agricultural commodities produced in the South East SD was estimated to be \$541.7m in 1999. The South East SD provided 16.7% of the State's total value of agricultural production in 1999. Over half of the division's total value of agricultural production was produced in Tatiara (DC) in the Upper South East, with a value of \$152.8m and Wattle Range (C) in the Lower South East (\$135.7m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the South East SD increased by only 25 persons (0.04%), less than the rate of change experienced by the State (1.9%).

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$29,834 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the South East SD had an unemployment rate of 6.5%, considerably below the rate for the State (8.2%).

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999–2000 was \$37.4m (up from \$28.2m in 1994–95 or an increase of 32.6%).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$541.7m, compared with \$439.6m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the South East SD has decreased from a level of 2,067 in 1995 to 1,881 in 2000.

SECTION **7**

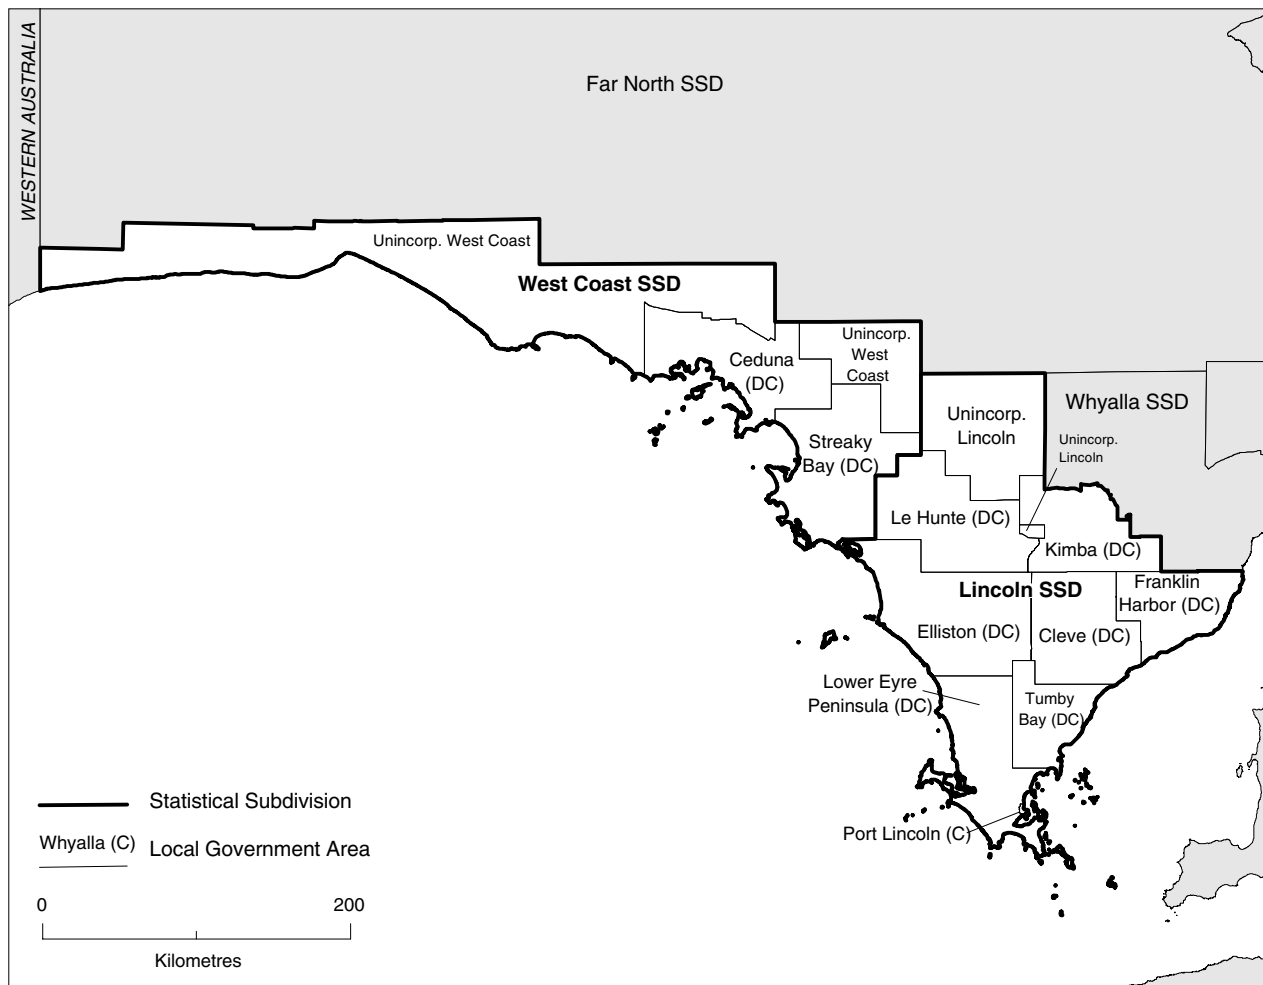

**EYRE STATISTICAL DIVISION** .....

The Eyre SD is a triangular land mass bounded by Spencer Gulf in the east and extending westwards beyond Ceduna to the Western Australian border. To the north the division extends as far as the Gawler Ranges and in the north-west includes the Nullarbor Plain. It covers an area of approximately 72,410 square kilometres or 7.4% of the State's total area.

Cereal crops dominate the region's agricultural activities producing around 30% of the State's total value of cereal grain production. Wheat is the most significant crop with barley and oats also grown. The drier areas of the region carry sheep for meat and wool. The coastal areas of the division provide a thriving fishing industry and, in recent years, tuna farming and other aquaculture has experienced rapid growth. Port Lincoln factories process abalone, tuna, rock lobster and other seafoods which are mostly exported overseas. Mining operations are also prevalent in the region with significant deposits of jade, gypsum, granite and marble.

The climate on Eyre Peninsula ranges from hot and arid in the north and far west to cool and temperate in the coastal south.

## POPULATION

The estimated resident population in the Eyre SD at 30 June 2000 was 33,493 persons. The most populated area in the division was Port Lincoln (C) with 13,305 persons (39.7%). Lower Eyre Peninsula (DC) with 4,092 persons (12.2%), Ceduna (DC) with 3,581 persons and Tumby Bay (DC) with 2,688 persons were the only other LGAs in the region with populations over 2,000 persons. The smallest LGAs, in terms of population, were Elliston (DC) and Franklin Harbor (DC) with 1,233 and 1,241 persons respectively.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Port Lincoln (C) (209 persons), Ceduna (DC) (27 persons) and Streaky Bay (DC) (25 persons). Le Hunte (DC), Tumby Bay (DC), Cleve (DC) and Elliston (DC) had slight decreases in population.

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the Eyre SD for the June quarter 2000 was 9.0%, which remained stable from the same period in the previous year. Higher unemployment rates were evident in Port Lincoln (C) and Ceduna (DC) with rates over 10%. For the June quarter 2000 Cleve (DC), Franklin Harbor (DC), Kimba (DC) and Le Hunte (DC) had unemployment rates less than 5%. From the June quarter 1999 to the June quarter 2000 the unemployment rate in Franklin Harbor (DC) fell from 6.8% to 3.8% while in Ceduna (DC) it increased from 9.5% to 11.2%.

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Eyre SD ranged from \$25,434 in Elliston (DC) to \$30,985 in Port Lincoln (C). Higher averages were generally evident in the LGAs in the Lincoln SSD. The average for the Eyre SD in 1998–99 was \$28,938 slightly down from \$28,947 in 1997–98.

## BUILDING APPROVALS

The value of new residential building approvals in the Eyre SD in 1999–2000 was \$24.3m (up from \$21.2m in 1998–99) while the value of non-residential building approvals was \$6.7m (down from \$34.4m). New residential building work to the value of \$12.9m was approved in Port Lincoln (C) while in Lower Eyre Peninsula (DC) and Ceduna (DC) the value of approvals was \$5.5m and \$1.8m respectively. Significant increases in the number and value of new residential dwelling approvals from 1998–99 to 1999–2000 were recorded in Port Lincoln (C) with 128 new dwelling approvals (up from 96) and Lower Eyre Peninsula (DC) 53 (up from 30).

## AGRICULTURE

The total value of agricultural commodities produced in the Eyre SD was estimated to be \$408.5m in 1999 or 12.6% of the State's total value of agricultural production. Significant agricultural activity was prevalent in all of the rural LGAs, ranging from a value of \$23.3m in Ceduna (DC) to \$76.2m in Lower Eyre Peninsula (DC).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the Eyre SD increased by 454 persons (1.4%), compared with an increase of 1.9% for the State.

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998-99 average individual annual taxable income was \$28,938 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the Eyre SD had an unemployment rate of 9.0%, slightly higher than the unemployment rate for the State (8.2%).

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999-2000 was \$24.3m (up from \$12.1m in 1994-95).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$408.5m, compared with \$230.6m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Eyre SD has increased by 33.3% between the number registered in 1995 and the number registered in 2000 (from 498 to 664).

SECTION **8**

**NORTHERN STATISTICAL DIVISION** .....

Covering over 800,000 square kilometres or 82.2% of South Australia's total area, the Northern SD is the largest division in the State. It includes the South Australian Outback, or the sparsely settled territories beyond the areas of local government to the north of the State, the Flinders Ranges and the upper Spencer Gulf cities and surrounds of Whyalla, Port Augusta and Port Pirie. The region has three major deserts; the Sturt Stony Desert in the north-east, the Simpson Desert which extends into the State from the Northern Territory and Queensland and the Great Victoria Desert.

The upper Spencer Gulf cities of Whyalla, Port Augusta and Port Pirie provide a heavy industry base for the region with their associated mining, oil and gas, iron and steel, lead smelting and other mineral processing and power production. In the far north, mining operations are significant with copper, silver, gold and uranium at Olympic Dam in the Roxby Downs area, coal at Leigh Creek, opal at Coober Pedy, Andamooka and Mintabie and natural gas from the Cooper Basin. Agricultural activities in the lower parts of the region include cereal grain (wheat and barley) production, sheep and cattle grazing. The spectacular Flinders Ranges are a popular tourist destination.

## POPULATION

The estimated resident population in the Northern SD at 30 June 2000 was 81,860 persons with almost 70% of this population concentrated in the city councils of Whyalla (C) (23,217 persons), Port Pirie City and Districts (M) (17,845 persons) and Port Augusta (C) (13,845 persons). The smallest LGAs, in terms of population, were Orroroo/Carrieton (DC) and Flinders Ranges (DC) with 1,092 and 1,807 persons respectively.

In the 12 months ending 30 June 2000 the largest population increases were recorded in Roxby Downs (M) (99 persons) and Mount Remarkable (DC) (62 persons) while Whyalla (C), Port Pirie City and Districts (M) and Peterborough (DC) had significant decreases in population.

## UNEMPLOYMENT

The DEWRSB unemployment rate estimate for the Northern SD for the June quarter 2000 was 11.4%, down slightly from 11.9% for the same period in the previous year. Higher unemployment rates were evident in this northern part of the State with Coober Pedy (DC), Whyalla (C), Port Pirie City and Districts (M), Port Augusta (C) and Peterborough (DC) all over 10%. For the June quarter 2000 Orroroo/Carrieton (DC) and Roxby Downs (M) had unemployment rates less than 5%. From the June quarter 1999 to the June quarter 2000 the unemployment rate in Coober Pedy (DC) fell from 20.2% to 17.5%.

## INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Northern SD ranged from \$25,781 in Mount Remarkable (DC) to \$51,391 in Roxby Downs (M). Higher averages were evident in the city council areas of Whyalla, Port Pirie and Port Augusta and in particular the far north mining town of Roxby Downs (M). The average for the Northern SD in 1998–99 was \$32,809 up from \$31,338 in 1997–98 and higher than the State average of \$31,964.

## BUILDING APPROVALS

The value of new residential building approvals in the Northern SD in 1999–2000 was \$12.0m, down from \$26.3m in 1998–99. This was mainly due to the significant reduction in residential building activity in Roxby Downs (M). The value of non-residential building approvals in the division in 1999–2000 was \$28.0m (up from \$12.8m). New residential building work to the value of \$3.9m was approved in Port Pirie City and Districts (M) while in Port Augusta (C) and Whyalla (C) the value of approvals was \$1.8m and \$1.5m respectively.

## AGRICULTURE

The total value of agricultural commodities produced in the Northern SD was estimated to be \$222.8m in 1999, an increase of \$19.7m from \$203.1m in 1998. The Northern SD provided 6.9% of the State's total value of agricultural production in 1999. Most of the division's agricultural production is produced in Northern Areas (DC), with a value of \$67.6m in 1999, Mount Remarkable (DC) (\$39.0m) and Port Pirie City and Districts (M) (\$35.9m). These three LGAs account for approximately 64% of the region's total value of agricultural production in 1999.

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1995 and 2000 the estimated resident population of the Northern SD decreased by 2,671 persons (-3.2%), much lower than the rate of change experienced by the State (1.9%).

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998-99 average individual annual taxable income was \$32,809 compared with the State average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2000 the Northern SD had an unemployment rate of 11.4%, considerably higher than the unemployment rate for the State (8.2%).

Source: DEWRSB, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

The total value of new residential approvals for the division in 1999-2000 was \$12.0m, a reduction from \$18.8m in 1994-95.

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 1999 the total value of agricultural commodities produced was estimated to be \$222.8m, compared with \$233.4m for the year ended 31 March 1995.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Northern SD has decreased from around 1,650 in 1995 to around 1,400 in 2000.

## EXPLANATORY NOTES .....

### INTRODUCTION

**1** This publication presents a statistical summary of key economic and some social information for regional areas in South Australia. It brings together a wide range of existing ABS and some non-ABS data and has been designed, at a broad level, to assist users of regional statistics to understand the composition and structure of a region, to understand how a region contributes to the State's economy and to help monitor the trends in economic growth or decline. The data are presented for local government areas, statistical subdivisions and statistical divisions. Included are historical as well as the latest available data, at the time of preparation, enabling comparison over time and between these regions.

**2** The statistics included in this publication are sourced from a wide variety of collections, both ABS and non-ABS. When analysing the data care needs to be taken as time periods, definitions, methodologies, scope and coverage will differ. Some main data concepts and definitions are included below. For more detailed information, including technical notes, please refer to the relevant source publications that are listed in the Bibliography on page 146.

### REFERENCE PERIODS

**3** The data presented relate to the period 1994–95 to 1999–2000. As the data are referenced from a wide variety of sources the reference period relating to many of the indicators differ. For simplicity only a single calendar year number has been used in row and column headings. This calendar year number refers to the latter year for those data items collected over two years. For example, data for the financial year 1998–99 are shown under the heading '1999' while data collected for the year ended 31 March 1996 are shown under the heading '1996'.

### REGIONS

**4** The regions specified are local government areas, statistical subdivisions and statistical divisions as defined in *Australian Standard Geographical Classification (ASGC), 2000* (Cat. no. 1216.0). LGAs are legally designated areas over which incorporated local governments have responsibility. Areas of the State not covered by these incorporated bodies are also included in this publication (unincorporated). Statistical subdivisions and statistical divisions are defined, in broad terms, as socially and economically homogeneous regions characterised by identifiable links between the inhabitants. In South Australia SSDs consist, for the most part, of aggregations of local government areas, while one or more SSDs make up an SD. The statistical division is the largest and most stable spatial unit. The relationship between SDs, SSDs and LGAs is shown on page 2.

**5** All data presented have been calculated on statistical division, subdivision and local government area boundaries current as at 30 June 2000 (i.e. 1995 data are shown for the boundary current at 30 June 2000). Where boundary changes have occurred or data have been collected for different spatial areas such as postcodes, concordances have been used to 'convert' the data to the specified region's boundary at 30 June 2000.

REGIONS *continued*

**6** While care was taken in producing the concordances, they are not an official ABS product and the ABS will not guarantee the accuracy of all concorded data. No liability will be accepted by the ABS for any damages arising from decisions or actions based upon the data.

**7** In applying the concordances it is assumed that the particular characteristics of any data item are uniformly distributed across the spatial area.

## SELECTED DATA ITEMS

## Population estimates

**8** This publication contains final estimates of the resident population for statistical divisions, subdivisions and local government areas in South Australia. The estimates are based on results of the 1996 Population Census and were calculated for post-census dates by a linear regression model which uses independent indicators of population change such as dwelling approvals, licensed drivers and medicare enrolments. Figures are shown to the nearest unit without rounding, but accuracy to the last digit is not claimed and should not be assumed.

## Births and deaths

**9** Birth statistics are presented on the basis of the LGA of usual residence of the mother, regardless of where in Australia the birth occurred or was registered. The data refer to births registered during the calendar year shown and are compiled from data provided to the State's Registrar.

**10** Death statistics are presented on the basis of the LGA of usual residence of the deceased, regardless of where in Australia the death occurred or was registered. The data refer to deaths registered during the calendar year shown and are compiled from data provided to the State's Registrar.

## Labour force estimates

**11** The labour force estimates shown are produced by the Department of Employment, Workplace Relations and Small Business (DEWRSB) using the Structure Preserving Estimation (SPREE) methodology. The estimates have been derived using the Commonwealth Department of Family and Community Services (Centrelink) statistics of persons in receipt of unemployment benefits (i.e. Newstart allowance) and ABS population and labour force estimates by labour force regions. While these estimates may need to be revised from time to time, revised estimates are only produced for the previous four quarters. Hence care should be taken when interpreting data presented in a time series.

**12** The estimates at the small area level are highly volatile and are not seasonally adjusted or trended. Comparisons from quarter to quarter can be misleading and may not be a true reflection of the actual labour market situation. A detailed description of the methodology used is presented in the DEWRSB quarterly publication *Small Area Labour Markets, Australia*.

## Income support customers

**13** The figures shown under the heading 'Income support customers' have been compiled by the Commonwealth Department of Family and Community Services (Centrelink). The social service system in Australia forms a vital part of the Government's social justice strategy. It provides income support for people who are retired, have a disability or medical condition which prevents them from working, are unemployed, have children in their care or are not in a position to provide for themselves because of special circumstances. It also provides a framework to support access to employment for those with the ability to participate in the workforce.

**14** The statistics compiled by Centrelink on their customers are classified according to the postcode district in the postal address held on departmental records. The figures shown in this publication have been converted from postcode areas to SDs, SSDs and LGAs using geographic concordances based on estimated resident population data. Further information can be obtained in the publication *Department of Family and Community Services, Income Support Customers— a statistical overview*.

## Building approvals

**15** Statistics of building work approvals are compiled from:

- permits issued by local government authorities and other principal certifying authorities;
- contracts let or day labour work authorised by Commonwealth, State, semi-government and local government authorities;
- major building activity in areas not subject to normal administrative approval e.g. building on remote mine sites;

**16** The statistics included in this publication relate to:

- all approved new residential buildings valued at \$10,000 or more;
- all approved non-residential building jobs valued at \$50,000 or more.

**17** Excluded from the statistics are:

- approved alterations and additions to residential buildings;
- construction activity not defined as building (e.g. construction of roads, bridges, railways, etc.).

## Property sales

**18** The statistics shown under this heading have been compiled from data provided by the Department of Administrative and Information Services (DAIS), Land Services Group, Office of the Valuer-General.

**19** The statistics included only relate to sales for which payment was received equivalent to the full value of the property, and have been shown according to the land use categories prescribed by the Local Government (Land Use) Regulations, 1989.

## Agriculture

**20** The agricultural data presented have been sourced from the Agricultural Census (for the years 1995 to 1997) and from the Agricultural Commodity Survey (for the years 1998 and 1999). For this reason care needs to be taken when comparing Census and survey data.

Agriculture *continued*

**21** The estimates, from the Agricultural Commodity Survey (for 1998 and 1999), are based on information obtained from a sample drawn from the total farm population in scope in the collections, and are subject to sampling variability; that is they may differ from the figures that would have been produced if all farms had been included. One measure of the likely difference is given by the standard error (SE), which indicates the extent to which an estimate might have varied by chance because only a sample was taken. There are about two chances in three that a sample estimate will differ by less than one SE from the figure that would have been obtained if all farms had been included, and about nineteen chances in twenty that the difference will be less than two SEs.

**22** In this publication, sampling variability of the estimates is measured by the relative standard error (RSE) which is obtained by expressing the SE as a percentage of the estimate to which it refers. If an estimate is identified by a single asterisk (e.g. \*2) the RSE lies between 25% and 50%.

**23** The value of agricultural commodities produced is derived by multiplying quantity data by price or unit value data. All price data is obtained from non-ABS sources such as marketing boards, wholesalers, brokers and auctioneers.

**24** The data presented have been concorded to align with 2000 LGA boundaries using geographic concordances based on September 1998 agricultural business location counts obtained from the ABS Business Register.

## Local government finance

**25** The source data from which local government finance data are derived are reported by local government authorities in accordance with accounting standards AAS27. (Note: The introduction of new local government accounting regulations in 1993–94 has resulted in a less complete allocation of overheads to infrastructure outlays.)

**26** For the purpose of determining the scope of local government finance statistics a local government authority is defined as:

- an authority set up under a local government Act to carry out the functions of local government in a defined area (known as a municipality or district council) the members of which are elected by persons enrolled as electors for the House of Assembly in respect of an address within the area, or who are ratepayers in respect of rateable property within the area. A body corporate is enrolled under the name of a nominated agent; or
- an authority created or acquired by a local government authority (as defined above) or by two or more local government authorities (in South Australia an authority established under Part XIII or Section 199 of the *Local Government Act 1934*).

## Motor vehicle registrations

**27** New motor vehicle registration statistics are obtained monthly from the State's motor vehicle registration authority and reflect the information recorded in registration documents. The figures shown in this publication have been derived by converting postcode information to information for LGAs, SSDs, and SDs using geographic concordances based on estimated resident population data.

**28** The types of motor vehicles included in these statistics are passenger vehicles, light commercial vehicles, rigid trucks, articulated trucks, non-freight carrying trucks and buses.

Income

**29** The taxable income data has been sourced from the annual Australian Taxation Office publication and CD-ROM *Taxation Statistics*. The statistics are compiled from individual tax return forms and are presented in aggregate form for the residential postcode address of the taxpayers. The figures shown in this publication have been derived by converting the postcode information to information for statistical divisions and subdivisions and LGAs using geographic concordances based on estimated resident population data.

OTHER FORMS OF USAGE

**30** Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

## GLOSSARY .....

<b>Age pension</b>	A FaCS payment for people who have reached retirement age. To qualify for the Age Pension a male must be aged 65 years while the age at which a female may qualify depends upon her birth date. The qualifying age for females is being increased gradually to 65 years between 1 July 1995 and 2013. Other eligibility requirements that apply can be referenced in the FaCS publication <i>Income Support Customers—a statistical overview</i> .
<b>Commercial/industrial property sale</b>	Sale of land used for commercial or industrial use within the meaning of the Development Control Regulations (which relate to the Local Government (Land Use) Regulations, 1989). (Shops and offices are included in commercial use while light industry is included in industrial use.)
<b>Crude birth rate</b>	The crude birth rate is the number of live births registered during the calendar year, per 1,000 estimated resident population at 30 June of that year.
<b>Crude death rate</b>	The crude death rate is the number of deaths registered during the calendar year, per 1,000 estimated resident population at 30 June of that year.
<b>Disability support pension</b>	A FaCS payment for people who are unable to work full time at full award wages owing to a substantial physical, intellectual or psychiatric impairment, or who are permanently blind. To qualify for the Disability Support Pension a person must be aged 16 years or over and not have reached Age Pension age.
<b>Dwelling unit</b>	A dwelling unit is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for long-term residential use.
<b>Environmental services</b>	Includes local government outlay on sanitation, garbage services, stormwater drainage, effluent drainage (waste water management), coastal protection, control of agricultural pest plants and animals, landcare and soil erosion projects, and other environmental protection measures.
<b>Estimated resident population</b>	The estimated resident population (ERP) of an area is the estimate of the number of persons who usually reside in that area irrespective of where they were on the date of the estimate. The ERP is the official ABS population figure and is based on adjusting the results of the latest Population Census.
<b>Individual taxable income</b>	Taxable income is the amount remaining after deducting from assessable income all deductions allowed under the Income Tax Assessment Act. Taxable income is the amount to which tax rates are applied. Average taxable income in an area is calculated by dividing the total taxable income by the total number of taxable taxpayers.
<b>Infrastructure</b>	Outlay on goods, services and land related to roadworks, bridges, footpaths, domestic water supply undertakings, electricity supply undertakings and aerodromes.
<b>Labour force</b>	For any group, persons who were employed or unemployed.

<b>Labour force participation rate</b>	For any group, the labour force expressed as a percentage of the civilian population aged 15 years and over in the same group. For the purposes of this publication the DEWRSB labour force estimate has been divided by the ABS estimated resident population aged 15 years and over.
<b>Local government areas</b>	Local government areas are spatial units which represent the geographical areas of incorporated local government councils. In South Australia these include cities, municipalities, municipal councils, district councils and rural cities. Local government areas are made up of one or more statistical local areas.
<b>Mature age allowance</b>	A FaCS payment that provides assistance to older, long term unemployed people aged 60 years and over, but below the Age Pension age. Also included under this category is the Mature Age Partner allowance, a FaCS payment to people below the Age Pension age and who are partners of people receiving the Mature Age allowance.
<b>Newstart allowance</b>	A FaCS payment, for working-aged persons who are unemployed, aimed at ensuring recipients participate in activities designed to help their employment prospects. From September 1996, Job Search allowance and what was then known as Newstart allowance were combined into a single payment called Newstart allowance. For the purposes of this publication, Job Search and Newstart allowances have been combined prior to September 1996.
<b>Outlay on goods, services and land</b>	Includes current or operating expenses and capital works and purchases. Excludes depreciation, debt servicing, levies and donations paid.
<b>Primary production property sale</b>	Sale of land used for farming, horticulture, commercial forestry, horse keeping or intensive animal keeping, or a dairy within the meaning of the Development Control Regulations (which relate to the Local Government (Land Use) Regulations, 1989).
<b>Rate revenue accrued</b>	Includes general rates and special rates (including penalties), and excludes service rates (i.e. user charges for sewerage, garbage, electricity supply and water supply).
<b>Rates per rateable property</b>	Includes all properties, both residential and non-residential, incurring a general rate.
<b>Residential building</b>	Defined here as being a building consisting of one or more dwelling units.
<b>Residential property sale</b>	Sale of land used for a dwelling within the meaning of the Development Control Regulations (which relate to the Local Government (Land Use) Regulations, 1989).
<b>Statistical divisions</b>	Statistical divisions consist of one or more statistical subdivisions and form the largest and most stable spatial unit for the presentation of data.
<b>Statistical local areas</b>	The statistical local area is a general purpose spatial unit. It is the base spatial unit used by the ABS to collect and disseminate statistics other than those collected from the Population Census.
<b>Statistical subdivisions</b>	Statistical subdivisions consist of one or more statistical local areas and form the intermediate size spatial unit for the presentation of regional data.
<b>Unemployment rate</b>	For any group, the number of unemployed persons expressed as a percentage of the labour force in the same group.

- Value of agricultural commodities produced** The value of agricultural commodities produced is the gross value placed on recorded production at wholesale prices realised in the market place. Agricultural commodity production is mainly taken from the ABS Agricultural Census or the ABS Agricultural Commodities Survey and in general the statistics relate to the season ended 31 March each year.
- Youth allowance** This FaCS payment was introduced by the Federal Government on 1 July 1998 to provide income support to young people who are studying, looking for work, or who are sick. Youth Allowance replaces AUSTUDY for 16 to 24 year olds, Newstart Allowance and Sickness Allowance for under 21 year olds, and Youth Training Allowance for 16 to 17 year olds. It also replaces Family Payment for 16 to 18 year old secondary students.

## BIBLIOGRAPHY .....

Further information about the scope, coverage, definitions and explanatory notes, etc. of the data items presented in this publication can be referenced in the publications listed below. Different editions of these publications may need to be referenced to fully explain any changes that may have occurred from year to year. In most cases the actual data shown have been sourced from ABS data not published in publications but available on request.

Australian Bureau of Statistics, *Agriculture, South Australia*, Cat. no. 7113.0, ABS, Canberra, Annual.

Australian Bureau of Statistics, *Australian Standard Geographical Classification, 2000*, Cat. no. 1216.0, ABS, Canberra.

Australian Bureau of Statistics, *Building Approvals, South Australia*, Cat. no. 8731.4, ABS, Adelaide, Quarterly.

Australian Bureau of Statistics, *Government Finance Statistics*, Cat. no. 5512.0, ABS, Canberra, Annual.

Australian Bureau of Statistics, *New Motor Vehicle Registrations, Australia: Preliminary*, Cat. no. 9301.0, ABS, Canberra, Monthly.

Australian Bureau of Statistics, *Population by Age and Sex, South Australia*, Cat. no. 3235.4, ABS, Canberra, Annual.

Australian Bureau of Statistics, *Regional Population Growth, Australia and New Zealand*, Cat. no. 3218.0, ABS, Canberra, Annual.

Australian Taxation Office, *Taxation Statistics*, ATO, Canberra, Annual.

Commonwealth Department of Family and Community Services, *Customers—a statistical overview*, FaCS, Canberra, Annual.

Department of Employment, Workplace Relations and Small Business, *Small Area Labour Markets, Australia*, DEWRSB, Canberra, Quarterly.

# REGIONAL PROFILES

If the area or information you want isn't included in this publication, our Consultancy Service can tailor a report to meet your needs and your budget.

A *Regional Profile* can be produced for standard geographic areas such as:

- Local Government Areas (LGAs)
- Statistical Local Areas (SLAs)
- Statistical Subdivisions (SSDs)
- Statistical Divisions (SDs)

or any combinations of these areas.....

.....As well as the data found in this publication, the *Profile* includes a set of detailed tables which provide that extra bit of information about the make up of a region.

## INQUIRIES

To find out more about *Regional Profiles*, or to order a report for your area, please call Mark Nowosilskyj on 08 8237 7358 or Cynthia Millar on 08 8237 7348.

## FOR MORE INFORMATION . . .

<i>INTERNET</i>	<b>www.abs.gov.au</b> the ABS web site is the best place to start for access to summary data from our latest publications, information about the ABS, advice about upcoming releases, our catalogue, and Australia Now—a statistical profile.
<i>LIBRARY</i>	A range of ABS publications is available from public and tertiary libraries Australia-wide. Contact your nearest library to determine whether it has the ABS statistics you require, or visit our web site for a list of libraries.
<i>CPI INFOLINE</i>	For current and historical Consumer Price Index data, call 1902 981 074 (call cost 77c per minute).
<i>DIAL-A-STATISTIC</i>	For the latest figures for National Accounts, Balance of Payments, Labour Force, Average Weekly Earnings, Estimated Resident Population and the Consumer Price Index call 1900 986 400 (call cost 77c per minute).

### INFORMATION SERVICE

Data which have been published and can be provided within five minutes are free of charge. Our information consultants can also help you to access the full range of ABS information—ABS user-pays services can be tailored to your needs, time frame and budget. Publications may be purchased. Specialists are on hand to help you with analytical or methodological advice.

<i>PHONE</i>	<b>1300 135 070</b>
