P R E F A C E

Regional Statistics, South Australia, 2002, presents a statistical summary of key economic and social information for Local Government Areas in South Australia. It contains the latest available data (at the time of preparation), as well as historical data, for a selected range of Australian Bureau of Statistics (ABS) and some non-ABS data items.

This is the fifth edition of *Regional Statistics, South Australia* and continues the ABS strategy to improve the availability and range of statistical information at the regional level. It has been produced to assist users to understand the composition and structure of a region, including how a region contributes to the State's economy and also to monitor the trends of economic growth or decline.

The data presented in this publication have been sourced from a wide variety of statistical collections, both ABS and non-ABS. Care should be taken when analysing the data as time periods, definitions, scope, coverage and methodologies will differ. Some concepts and definitions are covered in the Explanatory Notes and Glossary, however, more detailed information can be obtained from the relevant source publications (see page 146).

The ABS wishes to acknowledge the contribution of those organisations who have agreed to have some of their statistical information included in this publication. The inclusion of this non-ABS data adds to the overall understanding of the composition of regions in South Australia.

More detailed information is available for all regions presented in this publication. Information can also be aggregated to accommodate specific geographical requirements. Details about this service are provided at the back of this publication.

SECTION 1

SOUTH AUSTRALIA

GEOGRAPHY

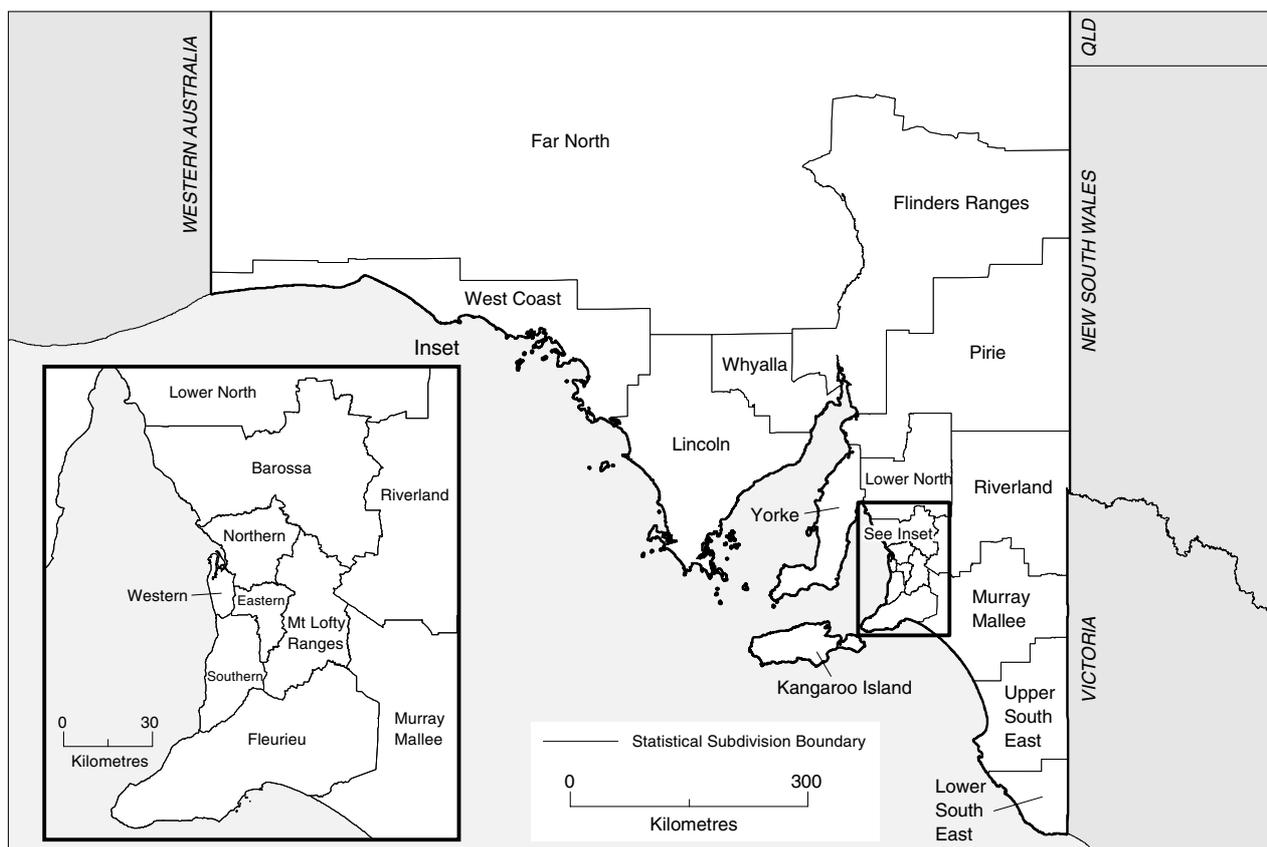

For the purpose of presenting statistics for the state, such as this series of broad economic and social indicators, South Australia is divided into a number of geographical areas.

Firstly, the state is comprised of seven Statistical Divisions (SDs). These divisions are intended to represent regions which are characterised by discernible social and/or economic links between the inhabitants and the economic units within them under the unifying influence of one or more major towns or cities.

The seven SDs are, in turn, divided into Statistical Subdivisions (SSDs) which are also defined as socially and economically homogeneous regions characterised by identifiable links between the inhabitants. There are 20 SSDs in South Australia and these are shown in the map below.

In South Australia SSDs consist, for the most part, of aggregations of Local Government Areas (LGAs) and it is these LGAs that are the focus of this publication. The data presented are calculated on LGA boundaries as at 30 June 2001. The following page outlines the relationship between SDs, SSDs and LGAs in South Australia.

Further details about the ABS geographical classification structure can be referenced in *Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001* (cat. no. 1216.0).

OVERVIEW

Regional South Australia (Regional SA), or the areas outside the Adelaide SD, are the main focus of the overview outlined below. Data for the Adelaide SD and South Australia are used for comparison purposes to help illustrate the current status of areas in Regional SA.

POPULATION

At 30 June 2001 the population of South Australia was estimated to be 1,514,854 persons. The Adelaide SD contains the majority of South Australia's population with 1,110,547 persons. Regional SA contains 404,307 persons, 26.7% of the state's total population.

The Outer Adelaide SD supports the largest population in Regional SA (28.3% or 114,257 persons). The Northern SD, with 19.8% (80,254) of Regional SA's population, also has a significant population base. Eyre and Yorke and Lower North SDs contain smaller populations with 8.4% (33,989) and 11.0% (44,499) respectively.

Mount Barker (DC) (with an estimated 23,965 persons), Mount Gambier (C) (23,600) and Whyalla (C) (22,209) are the largest LGAs outside of the Adelaide SD.

Orroroo/Carrieton (DC) in the Northern SD, with 1,016 persons, is the LGA with the smallest population. Elliston (DC) (1,163 persons), Kimba (DC) (1,233) and Franklin Harbor (DC) (1,313), all in Eyre SD, were the next least populated LGAs. In the Adelaide SD, Onkaparinga (C) with 151,400 persons (10.0% of the state's total population), was the most populated LGA in South Australia.

In the 12 months ending 30 June 2001 the largest population increases were recorded in Onkaparinga (C) (1,151 persons), Salisbury (C) (927) and Mount Barker (DC) (596). The Outer Adelaide SD experienced a population growth of 1.9% (2,172 persons).

LGAs WITH LARGEST AND FASTEST POPULATION GROWTH—2000–01

LGA	no.	%
LARGEST GROWTH		
Onkaparinga (C)	1 151	0.8
Salisbury (C)	927	0.8
Mount Barker (DC)	596	2.6
Tea Tree Gully (C)	483	0.5
Playford (C)	471	0.7
FASTEST GROWTH		
Victor Harbor (DC)	398	3.7
Adelaide (C)	404	3.1
Alexandrina (DC)	423	2.4
Port Lincoln (C)	267	2.0
Barunga West (DC)	52	2.0

BIRTHS AND DEATHS

The number of births to women usually resident in South Australia declined from 18,018 in 1999–2000 to 17,439 in 2000–01. The crude birth rate for 2000–01 of 11.5 births per 1,000 resident population was the lowest it has ever been. In Regional SA there was also a decrease in the number of births between 1999–2000 and 2000–01, from 5,115 to 4,842. The crude birth rate decreased from 12.7 to 12.0.

In the Adelaide SD the highest crude birth rate in 2000–01 was recorded in Playford (C) (15.8). In Regional SA the highest crude birth rate was in Roxby Downs (M) (27.2). The LGA with the lowest crude birth rate in 2000–01 was Kimba (DC) (4.1).

In 2000–01 there were 11,767 deaths of South Australians, an increase from 11,489 deaths in 1999–2000. Conversely, there was a reduction in the number of deaths in Regional SA for the same period, from 3,118 in 1999–2000 to 3,072 in 2000–01.

For the financial year 2000–01 the crude death rate in South Australia was 7.8 deaths per 1,000 population. The crude death rate for Regional SA was similar at 7.6. A crude death rate of 12.1 deaths per 1,000 population was recorded in the Yorke SSD while in the Far North SSD the rate was 3.1 deaths per 1,000 population.

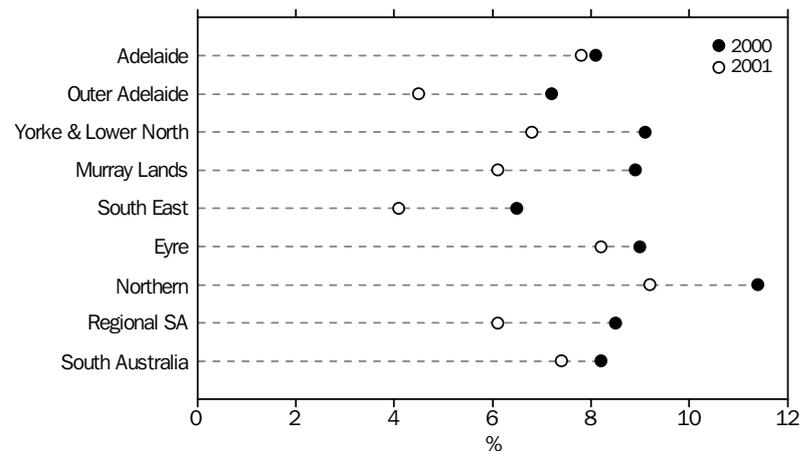

UNEMPLOYMENT

The Department of Employment and Workplace Relations (DEWR) unemployment rate for South Australia for the June quarter 2001 was estimated to be 7.4% compared with 8.2% for the same quarter of the previous year. The unemployment rate in Regional SA was 6.1%, down from 8.5% in the corresponding period last year, its lowest level since the June quarter 1996 (7.5%).

For the June quarter 2001, unemployment rates above 10% were evident in the West Coast SSD (12.6%), Whyalla SSD (10.9%), and Northern Adelaide SSD (10.1%). Low unemployment rates were evident in Upper South East SSD (2.4%), Mt Lofty Ranges SSD (3.4%) and Barossa SSD (3.9%) with the rate in each of these regions falling slightly from the corresponding quarter of the previous year.

Unemployment rates vary within and across regions. For the June quarter 2001 Peterborough (DC) and Coober Pedy (DC) in the state's north had unemployment rates estimated at 11.8% and 11.7% respectively, while in Roxby Downs (M) the unemployment rate was estimated to be 1.7%. Other council areas to record low unemployment rates for the June quarter 2001 include Kimba (DC) (1.3%), Tatiara (DC) (1.4%) and Southern Mallee (DC) (2.0%).

UNEMPLOYMENT RATE, Statistical Divisions—June quarter 2000 and 2001

Source: DEWR, *Small Area Labour Markets, Australia*.

INCOME

For the financial year 1998–99 average individual annual taxable income in South Australia was \$31,964. In comparison, the average in the Adelaide SD was \$32,681 and in Regional SA, \$29,816. Within Regional SA the Northern SD, with \$32,809, had an average individual taxable income higher than the state average while on Kangaroo Island the average was \$25,588. In the Adelaide SD, the Eastern SSD had the highest average at \$38,611.

For LGAs in Regional SA the average annual individual taxable income ranged from \$51,391 in Roxby Downs (M) in the state's far north to \$24,584 in Karoonda East Murray (DC) in the Murray Lands. With the exception of Roxby Downs (M) and Whyalla (C) (\$35,081) all other LGAs in Regional SA had an average individual annual taxable income lower than the average for the Adelaide SD.

INCOME SUPPORT

With 26.7% of South Australia's total population, Regional SA also had similar levels of persons receiving various income support assistance from the Commonwealth Department of Family and Community Services. As at June 2001 there were 14,785 persons (27.3% of the state's total) in Regional SA receiving Newstart Allowance, 44,130 (26.1%) receiving an Age Pension and 15,425 (25.8%) receiving a Disability Support Pension.

The Northern SD, with 5.3% of South Australia's population, had 4,256 persons, or 7.8% of the state's total, receiving Newstart Allowance and 8,400 persons (5.0% of the state's total) receiving an Age Pension. The Outer Adelaide SD, with 7.5% of South Australia's population, had 3,118 persons, or 5.7% of the state's total, receiving Newstart Allowance and 12,251 persons (7.2%) receiving an Age Pension.

BUILDING APPROVALS

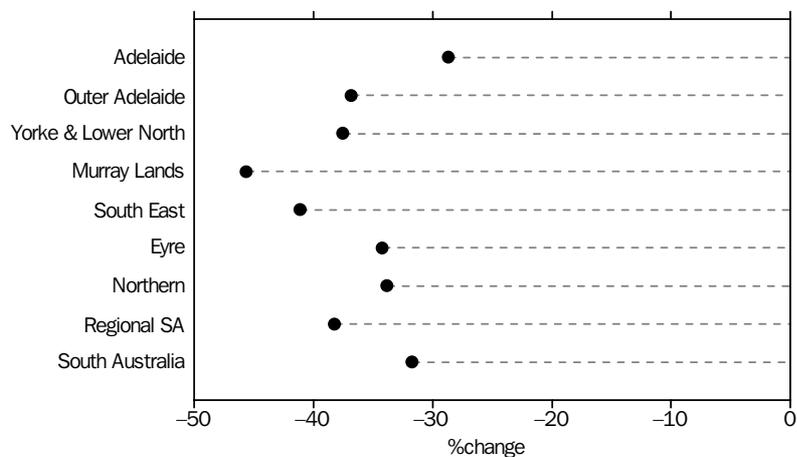

In the year ended 30 June 2001 there were 6,731 new residential dwelling units approved in South Australia. In Regional SA there were 1,906 new residential dwelling units approved (28.3% of the state's total).

The trend of increasing numbers of new residential dwelling approvals for the state since 1995–96 was reversed in 2000–01. All SDs recorded at least a 28% fall in new residential approvals. The number of approvals decreased by 45.6% (from 401 in 1999–2000 to 218 in 2000–01) for the Murray Lands SD. Outer Adelaide SD also experienced a large fall in approvals, from 1,560 approvals in 1999–2000 to 986 in 2000–01 (a decrease of 36.8%). The value of new residential dwelling unit approvals for Regional SA was \$187.4m, down from \$282.6m for the previous year.

Onkaparinga (C) (718) and Salisbury (C) (650) continued to have the greatest number of approvals for new residential dwellings in the Adelaide SD. The value of these approvals was \$67.1m and \$67.2m respectively. The council areas in Regional SA with the greatest number of approvals of new residential dwellings were Alexandrina (DC) with 237, Victor Harbor (DC) 180, and Mount Barker (DC) 173.

In contrast to the fall in the value of residential dwelling approvals, the value of non-residential building approvals was more variable across the state between 1999–2000 and 2000–01. The Adelaide SD recorded a \$169.1m increase in the value of non-residential building approvals from \$445.9m to \$615.0m. The South East SD (up \$6.1m to \$24.5m) and Eyre SD (up \$0.5m to \$7.2m) were the other two regions to record an increase. Overall, the value of non-residential building approvals in Regional SA fell from \$139.8m to \$102.8m. The Northern SD (down \$14.4m to \$13.6m), Outer Adelaide SD (down \$11.5m to \$33.4m) and Murray Lands SD (down \$10.6m to \$16.2m) recorded the greatest falls in the value of non-residential building approvals. The council areas of Barossa (DC), Mount Gambier (C) and Murray Bridge (RC) recorded slight increases in the value of non-residential approvals to \$11.8m, \$11.7m and \$6.5m respectively.

NUMBER OF NEW RESIDENTIAL DWELLING UNITS, Statistical Divisions—Percentage change from 30 June 2000 to 30 June 2001

PROPERTY SALES

The trend of increasing numbers of residential property sales since 1995–96 in South Australia continued in 2000–01. South Australia had 36,359 sales, an increase of 3.3% on the previous year. In Regional SA sales rose 9.8% from 8,188 to 8,991. In the Adelaide SD the number of sales increased 1.3% from 27,009 in 1999–2000 to 27,368 in 2000–01. All SDs in the state recorded an increase in the number of residential property sales except Outer Adelaide which showed a marginal decline of 1.6%.

The average value of residential property sales for 2000–01 in South Australia rose 4.0% (from \$136,600 to \$142,000) from the previous year. The average in Regional SA rose 2.5% to \$99,900 compared with a 5.0% rise to \$155,800 for the Adelaide SD. Since 1995–96, the average value of residential property sales in South Australia has increased by 27.2%, Regional SA has increased by 22.9%, while the Adelaide SD has increased by 28.1%.

In 2000–01 the average residential sale price in the Outer Adelaide SD of \$131,900 was over double the value of the average sale price in the Northern SD (\$63,900).

High average residential property sale prices for 2000–01 were recorded in Walkerville (M) (\$299,500) and Burnside (C) (\$257,300) while lower averages were recorded in Peterborough (DC) (\$24,000), Southern Mallee (DC) (\$39,500) and Le Hunte (DC) (\$43,800).

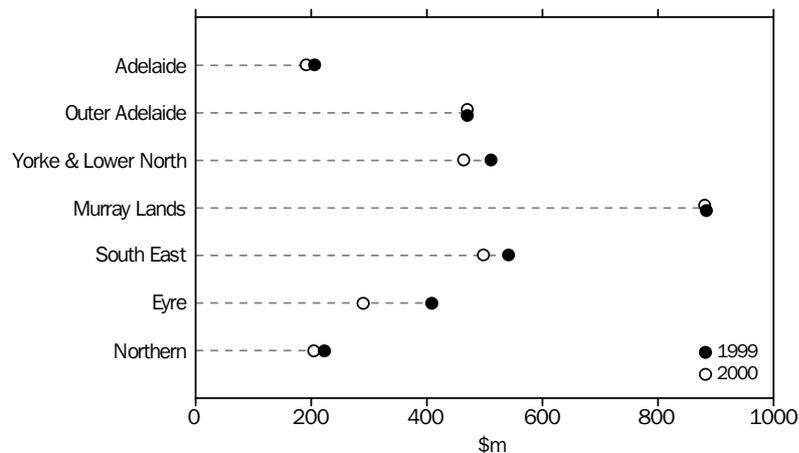

AGRICULTURE

For the year ended 31 March 2000 the total value of agricultural production in South Australia was estimated to be \$2,999.7m. Regional SA accounted for \$2,807.7m or 93.6% of this total. The total value of agricultural production in the Murray Lands SD was \$880.6m while in the Northern SD it was \$205.3m. Each SD recorded a drop in the value of agricultural production from the previous year, ranging from a fall of 29.0% for the Eyre SD to 0.1% for the Outer Adelaide SD.

Local Government Areas with a major agricultural industry include Loxton Waikerie (DC) with a value of agricultural production in 2000 of \$262.8m, Yorke Peninsula (DC) (\$143.7m), Tatiara (DC) (\$135.4m), The Coorong (DC) (\$133.8m), and Renmark Paringa (DC) (\$127.1m).

The total values for most of these areas can be largely accounted for by crops. Loxton Waikerie (DC) produced various crops to the value of \$250.0m (or 95.1% of their total value of agricultural production), Yorke Peninsula (DC) \$128.7m (89.6%), Tatiara (DC) \$97.6m (72.1%), and Renmark Paringa (DC) \$126.2m (99.3%).

The Coorong (DC) had production of livestock and livestock products to the value of \$90.5m, accounting for 67.6% of its total value of agricultural production. Other LGAs with significant values for production of livestock and livestock products include Naracoorte and Lucindale (DC), Grant (DC) and Murray Bridge (RC) with \$68.0m, \$64.7m and \$44.6m respectively.

TOTAL VALUE OF AGRICULTURAL COMMODITIES PRODUCED, Statistical Divisions—
Year ended 31 March 1999 and 2000

LOCAL GOVERNMENT FINANCE

For the year ended 30 June 2001 the total outlay on goods, services and land by local government in South Australia was \$918.8m. In Regional SA the outlay was \$336.4m, an increase of \$17m over the previous year. Outlay on infrastructure accounted for 28.1% (\$94.6m) of the total outlay in Regional SA, while outlay on environmental services accounted for 11.4% (\$38.2m). In the Adelaide SD outlay on infrastructure and environmental services in 2000–01 accounted for 16.9% and 13.9% respectively of the total outlay on goods, services and land.

Significant increases in the total outlay on goods, services and land between 1999–2000 and 2000–01 were recorded in a number of areas including Marion (C) (from \$32.2m to \$37.6m), Salisbury (C) (from \$44.4m to \$48.3m), and The Coorong (DC) (from \$6.5m to \$9.6m). The following LGAs recorded a significant fall in outlay on goods, services and land from the previous year; Charles Sturt (C) (from \$55.4m to \$45.6m), Unley (C) (from \$27.9m to \$19.0m) and Whyalla (C) (from \$17.3m to \$12.0m).

Rates per rateable property vary considerably across the state from \$2,175 in Adelaide (C) to \$239 in Orroroo/Carrieton (DC). In 2000–01 the average rate was \$729 per annum for South Australia, \$617 in Regional SA and \$784 in the Adelaide SD.

NEW MOTOR VEHICLE REGISTRATIONS

In the year ended 30 June 2001 there were 49,465 new motor vehicles registered in South Australia, an increase of 11.5% from the previous year. Of these, 9,963 or 20.1% were registered in Regional SA. Between 1999–2000 and 2000–01, the number of new motor vehicle registrations increased slightly in most regions across the state. Regional areas with the largest increases of new motor vehicle registrations were Mt Barker (DC) (from 482 to 574), Whyalla (C) (from 288 to 374) and the Barossa (DC) (from 595 to 674). In the Adelaide SD, Mitcham (C) showed a significant rise in new motor vehicle registrations, from 2,557 to 3,555 (an increase of 39.0%).

SECTION **2**

ADELAIDE STATISTICAL DIVISION

The Adelaide SD encompasses the city centre and suburbs of metropolitan Adelaide. It extends from the sea and its stretch of beaches in the west to the Adelaide Hills of the Mount Lofty Ranges in the east and from the Gawler River in the north to beyond Willunga in the south. Covering just 0.2% (approximately 1,830 square kilometres) of South Australia's total area, the Adelaide SD supports over 73.3% of the state's population. It is the centre of population, secondary industry and finance and commerce for the state. Some agricultural activity is also evident, especially in the outer areas of the division.

Adelaide is the driest Australian capital city. Summer rainfall is light and unreliable and months without rain are not uncommon. Rainfall varies considerably throughout the division with average annual falls of 450 mm to 580 mm on the plains to the north and west of the city as well as along the coastal fringe to the south. Recordings are generally higher in the foothills, and at the highest parts of the Adelaide Hills annual rainfall averages between 1,000 mm and 1,200 mm. In January and February, Adelaide's warmest months, the average maximum temperature is around 29°C. July is the coldest month with an average maximum of 15°C.

POPULATION

The estimated resident population in the Adelaide SD at 30 June 2001 was 1,110,547 persons. The most populated areas in the division were Onkaparinga (C) in the south with 151,400 persons (13.6% of the Adelaide SD) and Salisbury (C) in the north with 115,052 persons (10.4%). The smallest LGAs in terms of population were Walkerville (M) and Adelaide (C) with 7,035 and 13,483 persons respectively.

In the 12 months ending 30 June 2001 the largest population increases were recorded in Onkaparinga (C) (1,151 persons), Salisbury (C) (927) and Tea Tree Gully (C) (483). No LGA in the Adelaide SD recorded a decrease in population to the 12 months ending 30 June 2001.

UNEMPLOYMENT

The DEWR unemployment rate estimate for the Adelaide SD for the June quarter 2001 was 7.8%, down from 8.1% for the same period in the previous year. Higher unemployment rates were evident in the northern parts of the division with Playford (C), Port Adelaide Enfield (C) and Salisbury (C) all over 10%. For the June quarter 2001 Walkerville (M), Tea Tree Gully (C), Unley (C), Mitcham (C), Burnside (C) and Adelaide Hills (DC) Eastern SSD – Part had estimated unemployment rates less than 6%. From the June quarter 2000 to the June quarter 2001 the estimated unemployment rate in Port Adelaide Enfield (C) Western SSD – Part fell from 12.6% to 10.7% while it increased in Playford (C) from 16.2% to 17.8%.

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Adelaide SD ranged from \$28,766 in Playford (C) to \$47,291 in Adelaide (C). Higher averages are generally evident in the LGAs in the Eastern SSD. The average for the Adelaide SD in 1998–99 was \$32,681 up from \$31,127 in 1997–98.

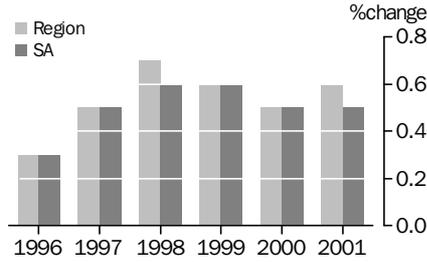

BUILDING APPROVALS

The value of new residential building approvals for the Adelaide SD in 2000–01 was \$548.2m (down from \$740.4m in 1999–2000). New residential building work to the value of \$67.2m was approved in Salisbury (C) while in Onkaparinga (C) and Adelaide (C) the value of approvals was \$67.1m and \$53.7m respectively. Pt Adelaide Enfield (C) and Adelaide (C) recorded gains in the number and value of new residential dwelling approvals, while the rest of the LGAs in the region recorded decreases in the number and value of new residential dwelling approvals from 1999–2000 to 2000–01. The value of non-residential building approvals was \$615.0m in 2000–01 (up from \$445.9m the previous year). The value of non-residential building approvals in Adelaide (C) was \$161.6m or 26.3% of the division's total. Playford (C) recorded a significant increase in the value of non-residential building approvals from \$6.8m in 1999–2000 to \$95.5m in 2000–01.

AGRICULTURE

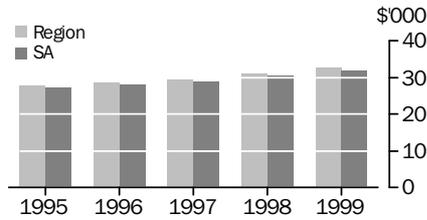

The total value of agricultural commodities produced in the Adelaide SD was estimated to be \$192.0m in 2000, a decrease of \$13.8m from \$205.8m in 1999. The Adelaide SD provided 6.4% of the state's total value of agricultural production in 2000. Most of the division's agricultural production is concentrated in Onkaparinga (C) and Playford (C) with values of \$65.5m and \$55.9m respectively. These two LGAs account for over 60% of the Adelaide SD's total value of agricultural production.

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated resident population of the Adelaide SD increased by 3.0% (32,110 persons) compared with an increase of 2.8% (40,601 persons) for the state.

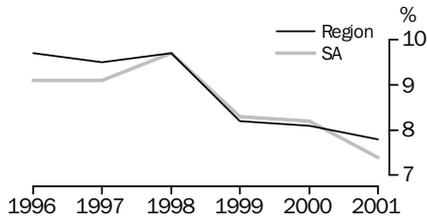

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998-99 average individual annual taxable income was \$32,681 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

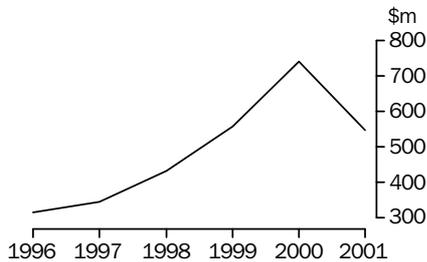

UNEMPLOYMENT RATE

For the June quarter 2001 the Adelaide SD had an unemployment rate of 7.8% while the state unemployment rate for the same period was slightly lower at 7.4%.

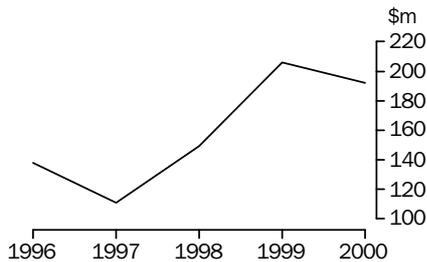

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

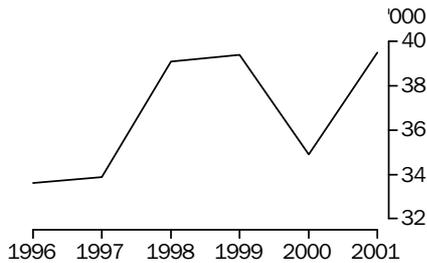

The total value of new residential dwelling approvals for the division in 2000-01 was \$548.2m, a decrease of 26.0% from \$740.4m in 1999-2000.

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000 the total value of agricultural commodities produced was \$192.0m, compared with \$138.2m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations increased between 1999-2000 and 2000-01 from 34,871 to 39,502 (up 13.3%) after a significant fall in the previous year.

SECTION **3**

OUTER ADELAIDE STATISTICAL DIVISION ..

The Outer Adelaide SD covers an area of approximately 11,630 square kilometres (1.2% of the state's total area) and surrounds the Adelaide SD. The division includes the area to the north of the Adelaide Plains around Mallala, the northern extremes of the Mount Lofty Ranges and the Barossa Valley. To the east the division follows the hills of the central Mount Lofty Ranges and then extends southward encompassing the hills and plains of the Fleurieu Peninsula. It also includes the western lakes district of Lake Alexandrina and Kangaroo Island.

The Outer Adelaide SD supports a wide variety of agricultural production. North of the Adelaide Plains is conducive to vegetable farming and cereal crops while the Barossa Valley is extensively planted with grape vines. Main agricultural activities in the central Mount Lofty Ranges include dairying, sheep grazing, vegetable growing and fruit orchards while in the Fleurieu Peninsula, meat and wool production, dairying and cereal crops around Strathalbyn are the predominant activities. On Kangaroo Island wool and livestock sales account for around 70% to 80% of the total value of the island's agricultural production. Tourism is also a major industry throughout the region.

POPULATION

The estimated resident population in the Outer Adelaide SD at 30 June 2001 was 114,257 persons. The most populated areas in the division were Mount Barker (DC) with 23,965 persons (21.0% of the Outer Adelaide SD), Barossa (DC) with 19,521 (17.1%) and Alexandrina (DC) with 18,253 (16.0%). The smallest LGAs, in terms of population, were Yankalilla (DC) and Kangaroo Island (DC) with 3,865 and 4,259 persons respectively.

In the 12 months ending 30 June 2001 the largest population increases were recorded in Mount Barker (DC) (596 persons), Alexandrina (DC) (423) and Victor Harbor (DC) (398).

UNEMPLOYMENT

The DEWR unemployment rate estimate for the Outer Adelaide SD for the June quarter 2001 was 4.5%, down significantly from 7.1% for the same period in the previous year. From the June quarter 2000 to the June quarter 2001 the unemployment rate in each council area fell. Higher unemployment rates were evident in the lower Fleurieu Peninsula region with Victor Harbor (DC), Yankalilla (DC) and Alexandrina (DC) estimated at over 6%. For the June quarter 2001 Adelaide Hills (C) Mount Lofty Ranges SSD – Part and the Barossa (DC) had estimated unemployment rates of 2.3% and 3.3% respectively.

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Outer Adelaide SD ranged from \$25,588 in Kangaroo Island (DC) to \$32,575 in Barossa (DC). The averages for all of the LGAs in the region were below the average for the Adelaide SD. The average for the Outer Adelaide SD in 1998–99 was \$30,260 up from \$28,623 in 1997–98.

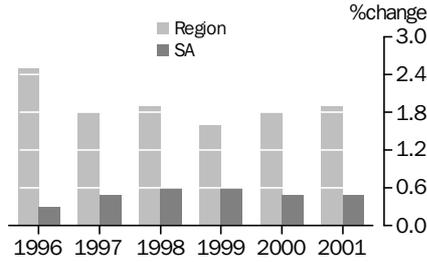

BUILDING APPROVALS

The value of new residential building approvals in the Outer Adelaide SD in 2000–01 was \$96.0m (down from \$143.1m in 1999–2000). New residential building work to the value of \$23.8m was approved in Alexandrina (DC), while in Victor Harbor (DC) and Mount Barker (DC) the value of new residential dwelling approvals was \$16.6m and \$16.5m respectively. All LGAs in the region recorded decreases in the number and value of new residential dwelling approvals from 1999–2000 to 2000–01. The value of non-residential building approvals in 2000–01 was \$33.4m (down from \$44.9m the previous year). Barossa (DC), Victor Harbor (DC) and Mount Barker (DC) continued to have the greatest value of non-residential approvals with \$11.8m, \$5.8m and \$4.0m respectively.

AGRICULTURE

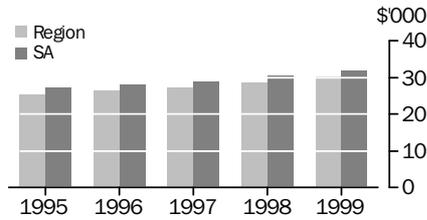

The total value of agricultural commodities produced in the Outer Adelaide SD was estimated to be \$469.9m in 2000, a level similar to that of the preceding three years. The Outer Adelaide SD provided 15.7% of the state's total value of agricultural production in 2000. Just under half of the division's total value of agricultural production was produced in the three council areas of Alexandrina (DC), with a value of \$85.9m, Light (DC) (\$75.7m) and the Barossa (DC) (\$59.6m). However, the Barossa (DC) recorded a 32.1% decrease in the value of agricultural production from 1999 to 2000, while Victor Harbor (DC) and Mount Barker (DC) recorded increases of 83.1% and 44.9% respectively (from \$12.4m to \$22.7m and \$37.4m to \$54.2m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated resident population of the Outer Adelaide SD increased by 9.5% (9,926 persons), significantly higher than the state increase (2.8%).

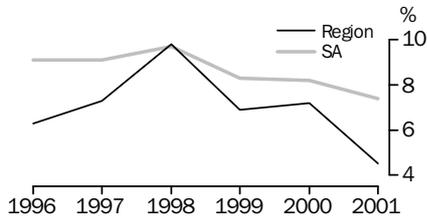

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$30,260 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

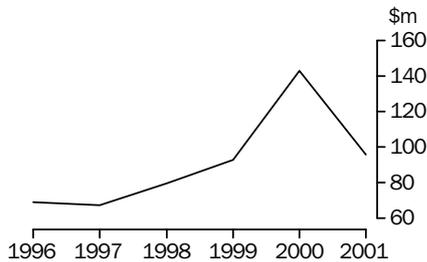

UNEMPLOYMENT RATE

For the June quarter 2001 the Outer Adelaide SD had an unemployment rate of 4.5%, significantly lower than the rate for South Australia (7.4%).

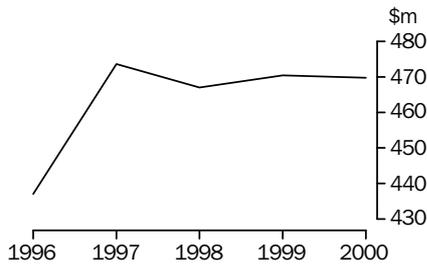

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

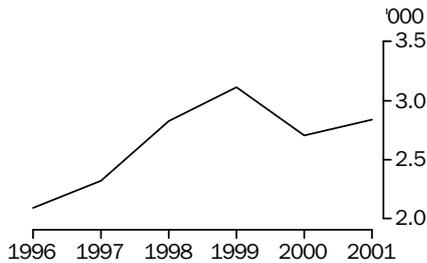

The total value of new residential dwelling approvals for the division in 2000–01 was \$96.0m, a significant decrease of 32.9% from \$143.1m in 1999–2000.

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000 the total value of agricultural commodities produced was estimated to be \$469.9m, compared with \$437.0m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Outer Adelaide SD increased 5.0% between 1999–2000 and 2000–01 from 2,703 to 2,838.

SECTION **4**

YORKE AND LOWER NORTH STATISTICAL DIVISION

The Yorke and Lower North SD covers Yorke Peninsula including a small area to the north as far as Port Broughton and extends eastward encompassing the Hummock and Barunga Ranges, the fertile areas surrounding Clare and Watervale and the Eudunda Ranges and its associated plains. It covers an area of approximately 20,360 square kilometres or 2.1% of South Australia's total area.

Cereal crops (wheat and barley) and sheep (wool and prime lamb production) are the major rural activities throughout the region along with the wine industry in and around Clare and Watervale where grape vines are extensively planted. Yorke Peninsula is also a source of valuable minerals and construction materials such as gypsum, dolomite, limestone, salt and copper. The wine industry in the Clare region and the historic copper mines at Burra attract a significant number of tourists while fishing and the natural rugged coastline attracts visitors to Yorke Peninsula. The climate is temperate with mostly warm summers and mild winters, although some districts such as the Clare Valley experience colder weather in winter.

POPULATION

The estimated resident population in the Yorke and Lower North SD at 30 June 2001 was 44,499 persons. The most populated areas in the division were Yorke Peninsula (DC) with 11,559 persons (26.0% of the Yorke and Lower North SD) and Copper Coast (DC) with 11,045 (24.8%). The smallest LGAs in terms of population were Barunga West (DC) and Goyder (DC) with 2,608 and 4,329 persons respectively.

In the 12 months ending 30 June 2001 population increases were recorded in Copper Coast (DC) (173 persons) and Barunga West (DC) (52). Goyder (DC) (-81 persons), Wakefield (DC) (-51), Yorke Peninsula (DC) (-43 persons), and Clare and Gilbert Valleys (DC) (-3) had decreases in population.

UNEMPLOYMENT

The DEWR unemployment rate estimate for the Yorke and Lower North SD for the June quarter 2001 was 6.8%, down from 9.0% for the same period in the previous year. Higher unemployment rates were evident in Copper Coast (DC) (10.0%) and Wakefield (DC) (7.3%). For the June quarter 2001 all LGAs showed a significant fall in the unemployment rate from the same period of the previous year, particularly Barunga West (DC) (from 10.0% to 6.2%), Copper Coast (DC) (from 13.0% to 10.0%) and Goyder (DC) (from 8.7% to 5.7%).

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Yorke and Lower North SD ranged from \$24,856 in Goyder (DC) to \$28,765 in Barunga West (DC). The average for the division in 1998–99 was \$27,524 up from \$27,297 in 1997–98, but well below the state average of \$31,964.

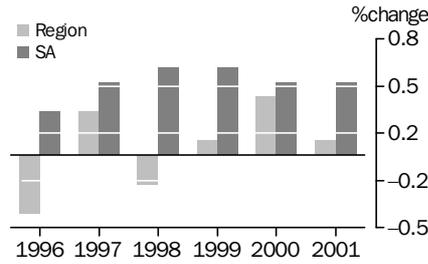

BUILDING APPROVALS

The value of new residential building approvals in the Yorke and Lower North SD in 2000–01 was \$20.1m (down from \$29.3m in 1999–2000). New residential building work to the value of \$8.2m was approved in Copper Coast (DC) while in Yorke Peninsula (DC) and Clare and Gilbert Valleys (DC) the value of approvals was \$6.7m and \$3.7m respectively. All LGAs in the region recorded decreases in the number and value of new residential dwelling approvals from 1999–2000 to 2000–01, including Yorke Peninsula (DC) with 89 new dwelling approvals (down from 132) and Copper Coast (DC) 87 (down from 124). The value of non-residential building approvals was \$8.1m in 2000–01 (down from \$15.0m the previous year). Clare and Gilbert Valleys (DC) contributed \$2.4m toward this figure.

AGRICULTURE

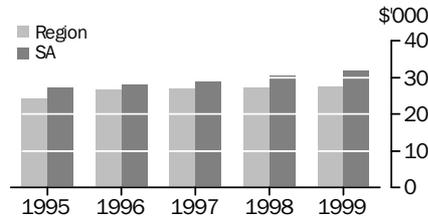

The total value of agricultural commodities produced in the Yorke and Lower North SD was estimated to be \$463.6m in 2000, a decrease of \$47.1m from \$510.7m in 1999. The Yorke and Lower North SD provided 15.5% of the state's total value of agricultural production in 2000. The LGAs of Yorke Peninsula (DC) (\$143.7m), Wakefield (DC) (\$99.8m) and Goyder (DC) (\$78.0m) accounted for 69.3% of the region's total value of agricultural production.

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated resident population of the Yorke and Lower North SD increased by 0.8% (349 persons), significantly lower than the state increase (2.8%).

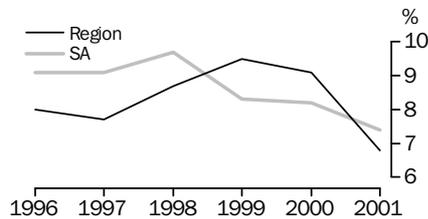

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$27,524 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

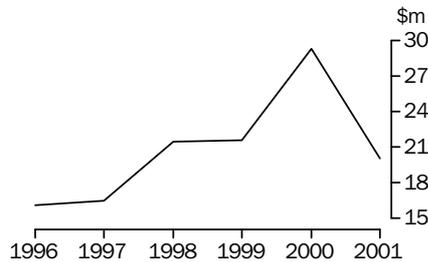

UNEMPLOYMENT RATE

For the June quarter 2001 the Yorke and Lower North SD had an estimated unemployment rate of 6.8%, lower than the state unemployment rate for the same period (7.4%).

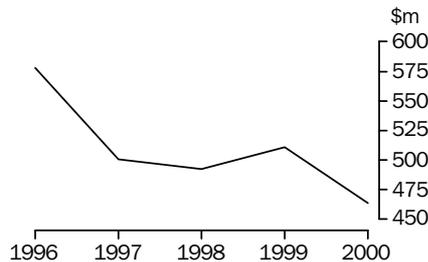

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

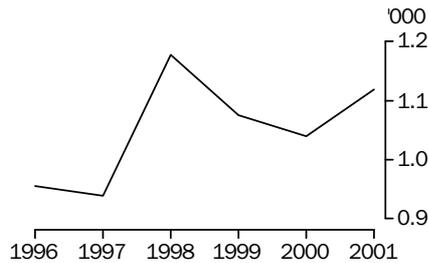

The total value of new residential dwelling approvals for the division in 2000–01 was \$20.1m (up from \$16.1m in 1995–96 or an increase of 24.8% over the five-year period).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000 the total value of agricultural commodities produced was estimated to be \$463.6m, compared with \$577.7m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Yorke and Lower North SD has increased from 956 in 1995–96 to 1,119 in 2000–01.

SECTION **5**

MURRAY LANDS STATISTICAL DIVISION

Centred around the River Murray, which flows for some 650 kilometres from the Victorian border in the north-east to its mouth near Goolwa in the south, the Murray Lands Statistical Division covers an area of approximately 48,210 square kilometres. It is bounded by The Coorong in the south-west, the Ninety Mile Desert in the south-east and extends to the Victorian and New South Wales borders in the east.

The region covers three distinct types of country. To the north of the River is a semi arid and very sparsely settled area mainly devoted to pastoralism and conservation parks. To the south and east is the Murray Mallee region which is a lightly settled grain farming and sheep grazing area while along the River Murray there are numerous townships and extensive irrigated uplands for the many citrus and stone fruit orchards and vineyards and their associated fruit canning, packing and wine and brandy manufacturing operations. For most of its length the River Murray is also a significant tourism and recreation resource built around the fruit and grape industries and the natural attraction of the river itself. The climate is generally Mediterranean with hot, dry summers and mild winters.

POPULATION

At 30 June 2001 the population in the Murray Lands SD was estimated to be 68,614 persons. The most populated areas in the division were Murray Bridge (RC) with 17,139 persons (25.0% of the Murray Lands SD) and the Riverland district councils of Loxton Waikerie (DC) with 12,197 (17.8%), Berri and Barmera (DC) with 11,366 (16.6%) and Renmark Paringa (DC) with 9,836 (14.3%). The smallest LGAs, in terms of population, were Karoonda East Murray (DC) and Southern Mallee (DC) with 1,278 and 2,289 persons respectively.

In the 12 months ending 30 June 2001 population increases were recorded in Murray Bridge (RC) (118 persons), Mid Murray (DC) (93) and Berri and Barmera (DC) (6). All other LGAs recorded a decline in population.

UNEMPLOYMENT

The DEWR unemployment rate estimate for the Murray Lands SD for the June quarter 2001 was 6.1%, down significantly from 9.0% for the same period in the previous year. Higher unemployment rates were evident in the northern parts of the division with Murray Bridge (RC), Mid Murray (DC), Berri and Barmera (DC) and Renmark Paringa (DC) all over 6%. For the June quarter 2001 Karoonda East Murray (DC) and Southern Mallee (DC) had unemployment rates estimated at less than 4%. From the June quarter 2000 to the June quarter 2001 the unemployment rates in Murray Bridge (RC) and Mid Murray (DC) fell significantly, from 12.4% to 8.0% and 9.7% to 6.5% respectively.

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Murray Lands SD ranged from \$24,584 in Karoonda East Murray (DC) to \$29,174 in Berri and Barmera (DC). Higher averages are generally evident in the LGAs in the Riverland SSD. The average for the Murray Lands SD in 1998–99 was \$27,734 up from \$25,896 in 1997–98. This is lower than the average of \$29,816 for Regional South Australia.

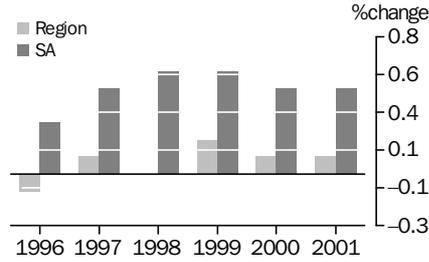

BUILDING APPROVALS

The value of new residential building approvals in the Murray Lands SD in 2000–01 was \$21.1m (down from \$36.5m in 1999–2000). New residential building work to the value of \$5.1m was approved in Murray Bridge (RC) while in Berri and Barmera (DC) and Mid Murray (DC) the value of residential approvals was \$4.5m and \$3.6m respectively. All LGAs in the region recorded decreases in the number and value of new residential dwelling approvals from 1999–2000 to 2000–01 except Karoonda East Murray (DC) which had the same number of approvals (2). The value of non-residential building approvals was \$16.2m in 2000–01 (down from \$26.8m the previous year). Murray Bridge (RC) contributed \$6.5m towards this figure.

AGRICULTURE

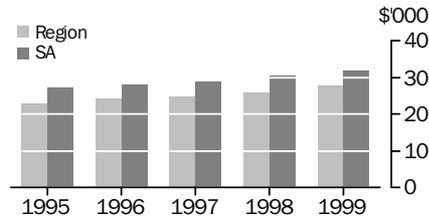

The total value of agricultural commodities produced in the Murray Lands SD was estimated to be \$880.6m in 2000, a decrease of just \$2.9m from \$883.5m in 1999. The Murray Lands SD provided 29.4% of the state's total value of agricultural production in 2000. Almost 60% of the division's total value of agricultural production was produced in Loxton Waikerie (DC) (\$262.8m), The Coorong (DC) (\$133.8m) and Renmark Paringa (DC) (\$127.1m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated resident population of the Murray Lands SD increased by 0.6% (429 persons), less than the rate of change experienced by the state (2.8%).

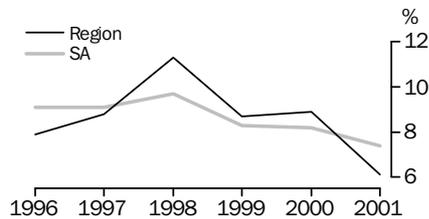

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$27,734 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

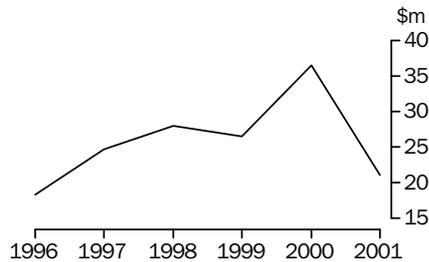

UNEMPLOYMENT RATE

For the June quarter 2001 the Murray Lands SD had an unemployment rate of 6.1%, lower than the unemployment rate for the state (7.4%).

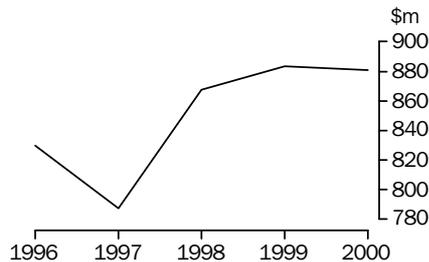

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

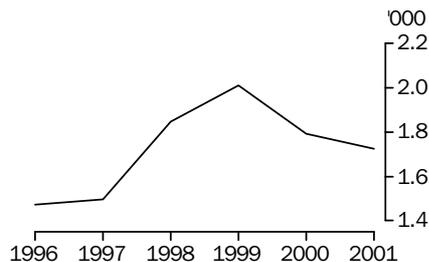

The total value of new residential dwelling approvals for the division in 2000–01 was \$21.1m (up from \$18.3m in 1995–96 or an increase of 15.3%).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000 the total value of agricultural commodities produced was estimated to be \$880.6m, compared with \$829.8m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Murray Lands SD decreased by 3.7% between 1999–2000 and 2000–01 (from 1,792 to 1,725). This continued the decline since 1998–99.

SECTION **6**

SOUTH EAST STATISTICAL DIVISION

The South East SD covers an area of approximately 21,310 square kilometres and, as the name suggests, covers the south-eastern corner of the state. The region lies midway between the capital cities of Adelaide and Melbourne and is bounded by the Southern Ocean to the west and south, the Victorian border to the east and extends to the Tatiara district around Keith in the north.

With reliable rainfall and supply of underground water the South East is, agriculturally, one of South Australia's most productive and diverse regions. As well as significant areas of vegetable growing near Mount Gambier and Millicent, wine production around the well known Coonawarra area and cereal grain production near Bordertown, softwood timber, pastures and livestock are the bases of the region's productivity. Fishing is also an important and established component of the region's economy with rock lobster harvesting being a major contributor. Recent years have also seen the growth of a significant aquaculture industry. Unique natural attractions such as the Naracoorte Caves and the Blue Lake at Mount Gambier contribute to a thriving tourism industry.

POPULATION

The estimated resident population in the South East SD at 30 June 2001 was 62,694 persons. The most populated areas in the division were Mount Gambier (C) with 23,600 persons (37.6% of the South East SD) and Wattle Range (DC) with 12,316 (19.6%). Both of these LGAs are located in the Lower South East SSD. The smallest LGAs, in terms of population, were Robe (DC) and Lacedpede (DC) with 1,378 and 2,419 persons respectively.

In the 12 months ending 30 June 2001 population increases were recorded in Mount Gambier (C) (144 persons), Lacedpede (DC) (27), Robe (DC) (21) and Naracoorte and Lucindale (DC) (18). The rest of the LGAs recorded a decline in population, particularly Wattle Range (DC) (-129) and Grant (DC) (-101).

UNEMPLOYMENT

The DEWR unemployment rate estimate for the South East SD for the June quarter 2001 was 4.1%, down from 6.5% for the same period in the previous year. This figure is the lowest of all the SDs in South Australia. For the June quarter 2001 Naracoorte and Lucindale (DC), Tatiara (DC) and Grant (DC) had unemployment rates of 2.9% or less. From the June quarter 2000 to the June quarter 2001 the largest falls in the estimated unemployment rate occurred in Lacedpede (DC) (down from 6.6% to 3.6%), Mount Gambier (C) (from 8.7% to 6.0%) and Wattle Range (DC) (from 7.2% to 4.6%).

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the South East SD ranged from \$26,561 in Robe (DC) to \$31,103 in Mount Gambier (C). Higher averages were generally evident in the LGAs in the Lower South East SSD. The average for the South East SD in 1998–99 was \$29,834 up from \$28,529 in 1997–98.

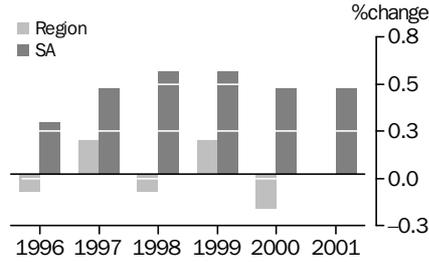

BUILDING APPROVALS

The value of new residential building approvals in the South East SD in 2000–01 was \$24.5m (down from \$37.4m in 1999–2000). New residential building work to the value of \$10.1m was approved in Mount Gambier (C) while in Grant (DC) and Wattle Range (DC) the value of approvals was \$4.4m and \$3.2m respectively. All LGAs in the region recorded decreases in the number and value of new residential dwelling approvals from 1999–2000 to 2000–01. The value of non-residential building approvals was also \$24.5m in 2000–01 (up from \$18.4m the previous year). Mount Gambier (C) contributed \$11.7m to this figure.

AGRICULTURE

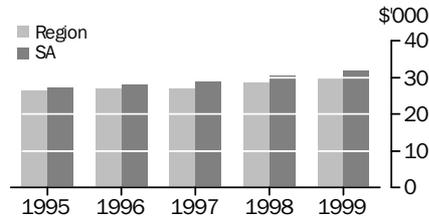

The total value of agricultural commodities produced in the South East SD was estimated to be \$498.1m in 2000, down 8.0% from \$541.7m in 1999. The South East SD provided 16.6% of the state's total value of agricultural production in 2000. Over half of the division's total value of agricultural production was produced in Tatiara (DC) (\$135.4m) and Wattle Range (DC) (\$116.6m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated population of the South East SD decreased marginally (less than 0.1%), much lower than the rate of change experienced by the state (2.8%).

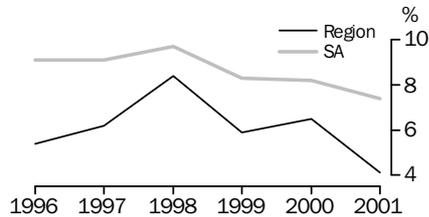

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$29,834 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

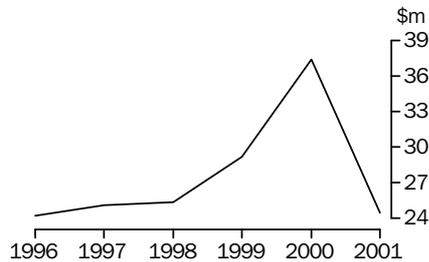

UNEMPLOYMENT RATE

For the June quarter 2001 the South East SD had an unemployment rate of 4.1%, considerably below the rate for the state (7.4%).

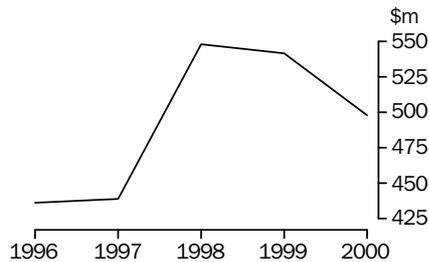

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

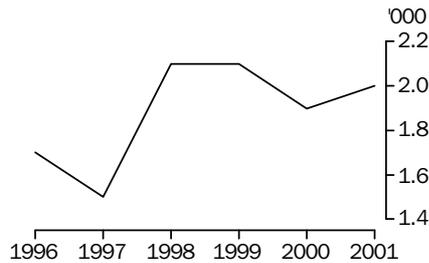

The total value of new residential dwelling approvals for the division in 2000–01 was \$24.5m (marginally up from \$24.2m in 1995–96, but down from the peak of \$37m in 1999–2000).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000 the total value of agricultural commodities produced was estimated to be \$498.1m, compared with \$436.2m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the South East SD has increased from a level of 1,712 in 1995–96 to 2,002 in 2000–01.

SECTION **7**

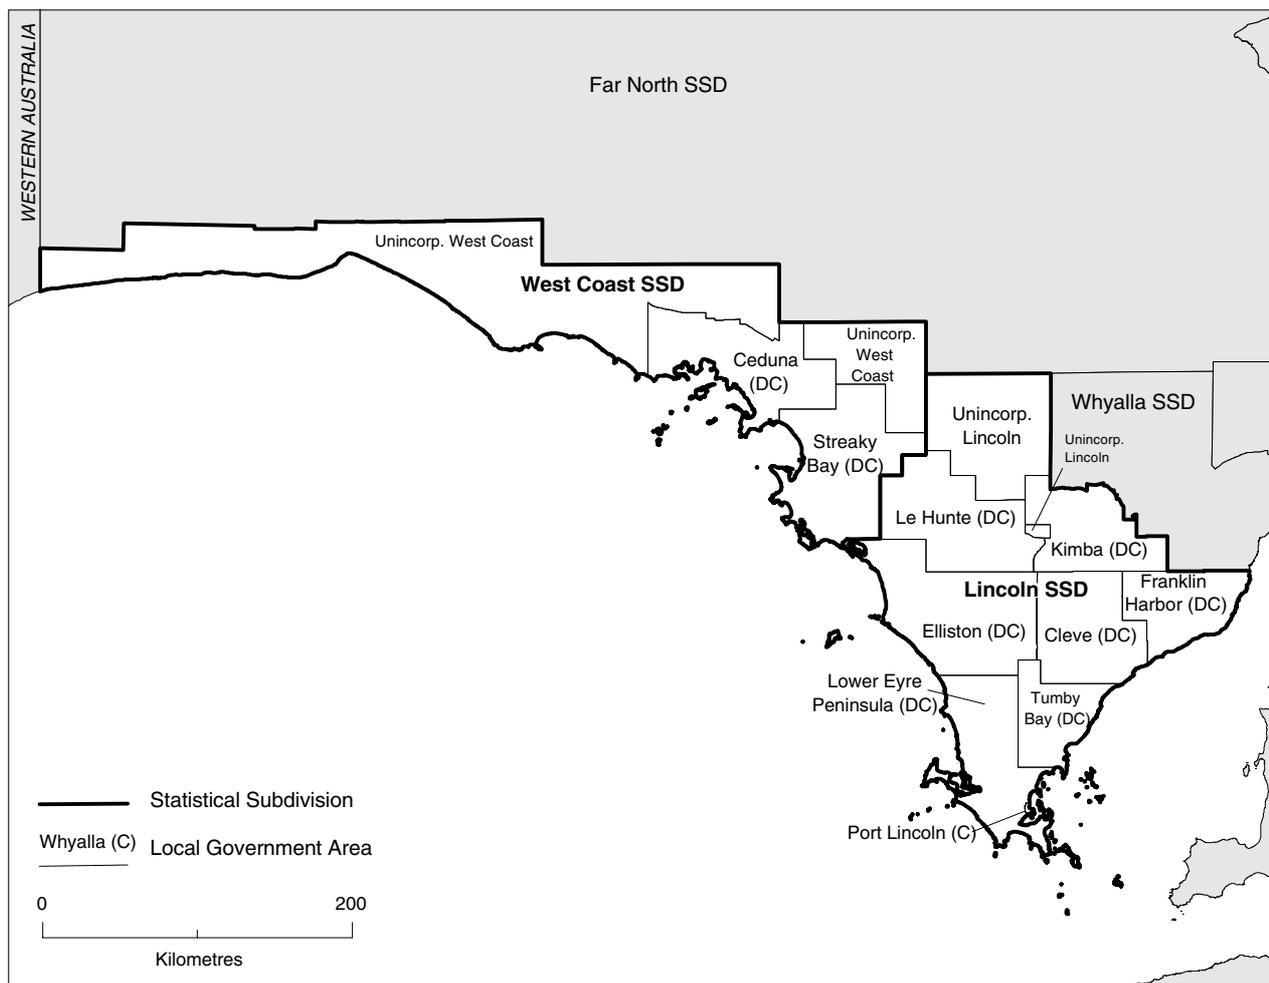

EYRE STATISTICAL DIVISION

The Eyre SD is a triangular land mass bounded by Spencer Gulf in the east and extending westwards beyond Ceduna to the Western Australian border. To the north the division extends as far as the Gawler Ranges and in the north-west includes the Nullarbor Plain. It covers an area of approximately 72,410 square kilometres (7.4% of the state's total area).

Cereal crops dominate the region's agricultural activities producing around 25% of the state's total value of cereal grain production. Wheat is the most significant crop with barley and oats also grown. The drier areas of the region carry sheep for meat and wool. The coastal areas of the division provide a thriving fishing industry and, in recent years, tuna farming and other aquaculture has experienced rapid growth. Port Lincoln factories process abalone, tuna, rock lobster and other seafoods which are mostly exported overseas. Mining operations are also prevalent in the region with significant deposits of jade, gypsum, granite and marble.

The climate on Eyre Peninsula ranges from hot and arid in the north and far west to cool and temperate in the coastal south.

POPULATION

The estimated resident population in the Eyre SD at 30 June 2001 was 33,989 persons. The most populated area in the division was Port Lincoln (C) with 13,890 persons (40.9% of the Eyre SD). Lower Eyre Peninsula (DC) (4,219), Ceduna (DC) (3,658) and Tumby Bay (DC) (2,576) were the only other LGAs in the region with populations over 2,000 persons. The smallest LGAs, in terms of population, were Elliston (DC) and Kimba (DC) with 1,163 and 1,233 persons respectively.

In the 12 months ending 30 June 2001 the largest population increases were recorded in Port Lincoln (C) (267 persons), Lower Eyre Peninsula (DC) (48), Ceduna (DC) (44) and Franklin Harbor (DC) (20). Tumby Bay (DC) (-45), Le Hunte (DC) (-44), Streaky Bay (DC) (-17), Cleve (DC) (-17), Kimba (DC) (-17) and Elliston (DC) (-14) had decreases in population.

UNEMPLOYMENT

The DEWR unemployment rate estimate for the Eyre SD for the June quarter 2001 was 8.2%, down from 8.9% for the same period in the previous year. Higher unemployment rates were evident in Ceduna (DC) (up from 10.9% to 14.8%) and Port Lincoln (C) (down from 11.4% to 9.9%). For the June quarter 2001 Cleve (DC), Elliston (DC), Kimba (DC) and Le Hunte (DC) had estimated unemployment rates of less than 4%. From the June quarter 2000 to the June quarter 2001 the unemployment rate in Elliston (DC) fell significantly, from 7.9% to 3.7%. Kimba (DC) continued to have the lowest unemployment rate in the region, down from 2.8% to 1.3%.

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Eyre SD ranged from \$25,434 in Elliston (DC) to \$30,985 in Port Lincoln (C). Higher averages were generally evident in the LGAs in the Lincoln SSD. The average for the Eyre SD in 1998–99 was \$28,938 slightly down from \$28,947 in 1997–98.

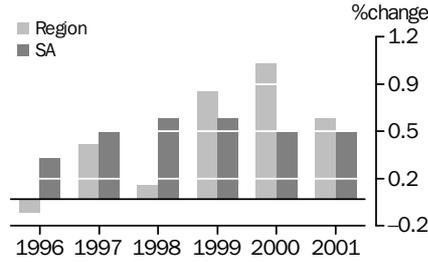

BUILDING APPROVALS

The value of new residential building approvals in the Eyre SD in 2000–01 was \$17.1m (down from \$24.3m in 1999–2000). New residential building work to the value of \$8.8m was approved in Port Lincoln (C), while in Lower Eyre Peninsula (DC) and Tumby Bay (DC) the value of approvals was \$3.1m and \$1.5m respectively. All of the council areas experienced a decline in the number of new residential dwelling approvals apart from Le Hunte (DC) and Tumby Bay (DC) which recorded very small increases. The value of non-residential building approvals was \$7.2m in 2000–01 (slightly up from \$6.7m the previous year). Port Lincoln (C) accounted for \$4.5m of this figure.

AGRICULTURE

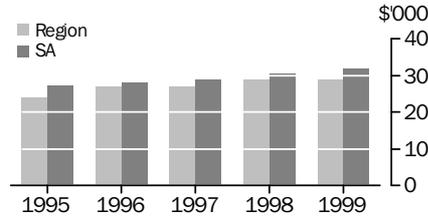

The total value of agricultural commodities produced in the Eyre SD was estimated to be \$290.1m in 2000 (9.7% of the state's total value of agricultural production). This figure is a 29.0% fall from the 1999 estimate of \$408.5m. Significant falls in agricultural activity were recorded in Kimba (DC) (down \$26.3m to \$23.8m), Ceduna (DC) (down \$18.9m to \$4.4m) and Streaky Bay (DC) (down \$18.1m to \$24.8m).

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated resident population of the Eyre SD increased by 3.0% (978 persons), compared with an increase of 2.8% for the state.

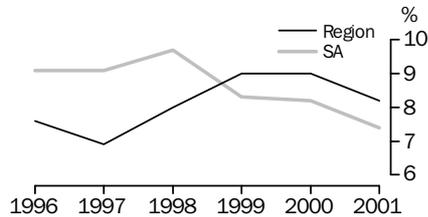

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998–99 average individual annual taxable income was \$28,938 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

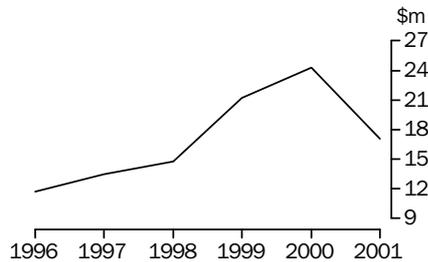

UNEMPLOYMENT RATE

For the June quarter 2001 the Eyre SD had an unemployment rate of 8.2%, slightly higher than the unemployment rate for the state (7.4%).

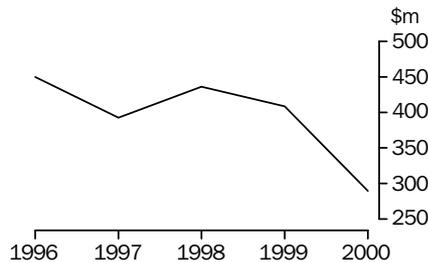

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

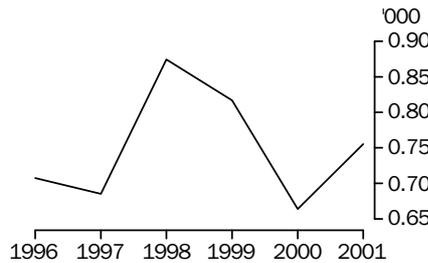

The total value of new residential dwelling approvals for the division in 2000–01 was \$17.1m (up from \$11.7m in 1995–96).

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000, the total value of agricultural commodities produced was estimated to be \$290.1m, compared with \$450.3m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Eyre SD has increased by 6.8% between the number registered in 1995–96 and the number registered in 2000–01 (from 708 to 756).

SECTION **8**

NORTHERN STATISTICAL DIVISION

Covering over 800,000 square kilometres (82.2% of South Australia's total area), the Northern SD is the largest division in the state. It includes the South Australian Outback, or the sparsely settled territories beyond the areas of local government to the north of the state, the Flinders Ranges and the upper Spencer Gulf cities and surrounds of Whyalla, Port Augusta and Port Pirie. The region has three major deserts; the Sturt Stony Desert in the north-east, the Simpson Desert which extends into the state from the Northern Territory and Queensland and the Great Victoria Desert.

The upper Spencer Gulf cities of Whyalla, Port Augusta and Port Pirie provide a heavy industry base for the region with their associated mining, oil and gas, iron and steel, lead smelting and other mineral processing and power production. In the far north, mining operations are significant with copper, silver, gold and uranium at Olympic Dam in the Roxby Downs area, coal at Leigh Creek, opal at Coober Pedy, Andamooka and Mintabie and natural gas from the Cooper Basin. Agricultural activities in the lower parts of the region include cereal grain (wheat and barley) production, sheep and cattle grazing. The spectacular Flinders Ranges are a popular tourist destination.

POPULATION

The estimated resident population in the Northern SD at 30 June 2001 was 80,254 persons with almost 70% of this population concentrated in the councils of Whyalla (C) (22,209 persons), Port Pirie City and Districts (M) (17,666) and Port Augusta (C) (13,793). The smallest LGAs in terms of population were Orroroo/Carrieton (DC) and Flinders Ranges (DC) with 1,016 and 1,809 persons respectively.

In the 12 months ending 30 June 2001 all of the LGAs recorded decreases in population. The LGAs experiencing the largest declines in population were Whyalla (C) (−496), Northern Areas (DC) (−98) and Port Pirie City and Districts (M) (−85).

UNEMPLOYMENT

The DEWR unemployment rate estimate for the Northern SD for the June quarter 2001 was 9.2%, down from 11.5% for the same period in the previous year. Higher unemployment rates were evident in the northern part of the state with Coober Pedy (DC), Whyalla (C), Port Pirie City and Districts (M), and Peterborough (DC) all over 10%. For the June quarter 2001 Orroroo/Carrieton (DC), Flinders Ranges (DC) and Roxby Downs (M) had estimated unemployment rates of less than 5%. From the June quarter 2000 to the June quarter 2001 the unemployment rate in Coober Pedy (DC) fell from 18.0% to 11.7%.

INCOME

For the financial year 1998–99 average individual annual taxable income for the LGAs in the Northern SD ranged from \$25,781 in Mount Remarkable (DC) to \$51,391 in Roxby Downs (M). Higher averages were evident in the city council areas of Whyalla, Port Pirie and Port Augusta and in particular the far north mining town of Roxby Downs (M). The average for the Northern SD in 1998–99 was \$32,809 up from \$31,338 in 1997–98 and higher than the state average of \$31,964.

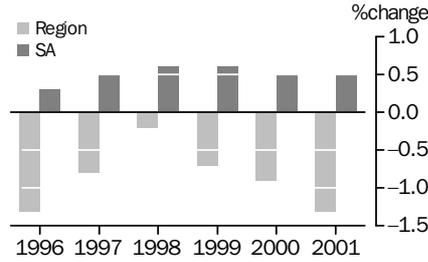

BUILDING APPROVALS

The value of new residential building approvals in the Northern SD in 2000–01 was \$8.6m, down from \$12.0m in 1999–2000. New residential building work to the value of \$2.1m was approved in Port Pirie City and Districts (M) while in Port Augusta (C) and Whyalla (C) the value of approvals was \$1.9m and \$0.6m respectively. The value of non-residential building approvals in the division in 2000–01 was \$13.6m (down from \$28.0m). Whyalla (C) accounted for \$4.4m of this figure.

AGRICULTURE

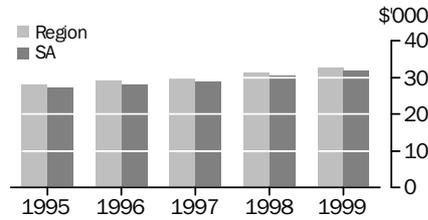

The total value of agricultural commodities produced in the Northern SD was estimated to be \$205.3m in 2000, a decrease of \$17.5m from \$222.8m in 1999. The Northern SD provided 6.8% of the state's total value of agricultural production in 2000. Most of the division's agricultural production is produced in Northern Areas (DC) (\$68.8m in 2000), Port Pirie City and Districts (M) (\$36.9m) and Mount Remarkable (DC) (\$22.8m). These three LGAs account for more than 60% of the region's total value of agricultural production in 2000.

RATE OF POPULATION CHANGE FROM PREVIOUS YEAR

Between 1996 and 2001 the estimated resident population of the Northern SD decreased by 3.8% (3,178 persons), much lower than the rate of change experienced by the state (2.8%).

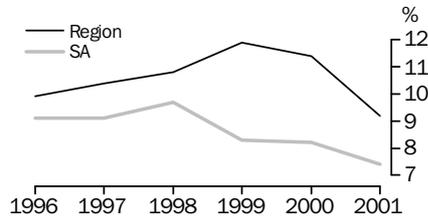

AVERAGE INDIVIDUAL ANNUAL TAXABLE INCOME

For the financial year 1998-99 average individual annual taxable income was \$32,809 compared with the state average of \$31,964.

Source: ATO, Taxation Statistics.

UNEMPLOYMENT RATE

For the June quarter 2001 the Northern SD had an unemployment rate of 9.2%, considerably higher than the unemployment rate for the state (7.4%).

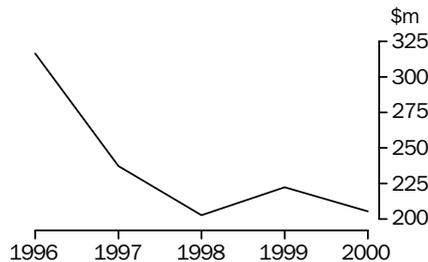

Source: DEWR, Small Area Labour Markets.

VALUE OF NEW DWELLING APPROVALS

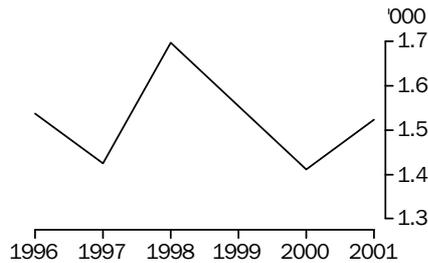

The total value of new residential dwelling approvals for the division in 2000-01 was \$8.6m, a decrease from \$14.3m in 1995-96.

VALUE OF AGRICULTURAL COMMODITIES PRODUCED

For the year ended 31 March 2000 the total value of agricultural commodities produced was estimated to be \$205.3m, compared with \$316.8m for the year ended 31 March 1996.

NUMBER OF NEW MOTOR VEHICLE REGISTRATIONS

The number of new motor vehicle registrations in the Northern SD has decreased slightly from 1,538 in 1995-96 to 1,523 in 2000-01.

EXPLANATORY NOTES

INTRODUCTION

1 This publication presents a statistical summary of key economic and some social information for regional areas in South Australia. It brings together a wide range of existing ABS and some non-ABS data and has been designed, at a broad level, to assist users of regional statistics to understand the composition and structure of a region, to understand how a region contributes to the state's economy and to help monitor the trends in economic growth or decline. The data are presented for Local Government Areas, Statistical Subdivisions and Statistical Divisions. Included are historical as well as the latest available data, at the time of preparation, enabling comparison over time and between these regions.

2 The statistics included in this publication are sourced from a wide variety of collections, both ABS and non-ABS. When analysing the data care needs to be taken as time periods, definitions, methodologies, scope and coverage will differ. Some main data concepts and definitions are included below. For more detailed information, including technical notes, please refer to the relevant source publications that are listed in the Bibliography.

REFERENCE PERIODS

3 The data presented relate to the period 1995–96 to 2000–01. As the data are referenced from a wide variety of sources the reference period relating to many of the indicators differ. For simplicity only a single calendar year number has been used in row and column headings. This calendar year number refers to the latter year for those data items collected over two years. For example, data for the financial year 1998–99 are shown under the heading '1999' while data collected for the year ended 31 March 1996 are shown under the heading '1996'.

REGIONS

4 The regions specified are Local Government Areas, Statistical Subdivisions and Statistical Divisions as defined in *Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC), 2001* (cat. no. 1216.0). LGAs are legally designated areas over which incorporated local governments have responsibility. Areas of the state not covered by these incorporated bodies are also included in this publication (unincorporated). Statistical Subdivisions and Statistical Divisions are defined, in broad terms, as socially and economically homogeneous regions characterised by identifiable links between the inhabitants. In South Australia SSDs consist, for the most part, of aggregations of Local Government Areas, while one or more SSDs make up an SD. The Statistical Division is the largest and most stable spatial unit. The relationship between SDs, SSDs and LGAs is shown on page 2.

5 All data presented have been calculated on Statistical Division, Statistical Subdivision and Local Government Area boundaries current as at 30 June 2001 (i.e. 1996 data are shown for the boundary current at 30 June 2001). Where boundary changes have occurred or data have been collected for different spatial areas such as postcodes, concordances have been used to 'convert' the data to the specified region's boundary at 30 June 2001.

REGIONS *continued*

6 While care was taken in producing the concordances, they are not an official ABS product and the ABS will not guarantee the accuracy of all concorded data. No liability will be accepted by the ABS for any damages arising from decisions or actions based upon the data.

7 In applying the concordances it is assumed that the particular characteristics of any data item are uniformly distributed across the spatial area.

SELECTED DATA ITEMS

Population estimates

8 This publication contains estimates of the resident population for Statistical Divisions, Statistical Subdivisions and Local Government Areas in South Australia, based on first release data from the 2001 Population Census. Figures are shown to the nearest unit without rounding, but accuracy to the last digit is not claimed and should not be assumed. For a more detailed description of the methodology refer to *Regional Population Growth, Australia and New Zealand* (cat. no. 3218.0).

Births and deaths

9 Birth statistics are presented on the basis of the LGA of usual residence of the mother, regardless of where in Australia the birth occurred or was registered. The data refer to births registered during the financial year shown and are compiled from data provided to the state's Registrar.

10 Death statistics are presented on the basis of the LGA of usual residence of the deceased, regardless of where in Australia the death occurred or was registered. The data refer to deaths registered during the financial year shown and are compiled from data provided to the state's Registrar.

Labour force estimates

11 The labour force estimates shown are produced by the Department of Employment and Workplace Relations (DEWR) using the Structure Preserving Estimation (SPREE) methodology. The estimates have been derived using the Commonwealth Department of Family and Community Services (Centrelink) statistics of persons in receipt of unemployment benefits (i.e. Newstart allowance) and ABS population and labour force estimates by labour force regions. While these estimates may need to be revised from time to time, revised estimates are only produced for the previous four quarters. Hence care should be taken when interpreting data presented in a time series.

12 The estimates at the small area level are highly volatile and are not seasonally adjusted or trended. Comparisons from quarter to quarter can be misleading and may not be a true reflection of the actual labour market situation. A detailed description of the methodology used is presented in the DEWR quarterly publication *Small Area Labour Markets, Australia*.

Income support customers

13 The figures shown under the heading 'Income support customers' have been compiled by the Commonwealth Department of Family and Community Services (Centrelink). The social service system in Australia forms a vital part of the Government's social justice strategy. It provides income support for people who are retired, have a disability or medical condition which prevents them from working, are unemployed, have children in their care or are not in a position to provide for themselves because of special circumstances. It also provides a framework to support access to employment for those with the ability to participate in the workforce.

14 The statistics compiled by Centrelink on their customers are classified according to the postcode district in the postal address held on departmental records. The figures shown in this publication have been converted from postcode areas to SDs, SSDs and LGAs using geographic concordances based on estimated resident population data. Further information can be obtained in the publication *Department of Family and Community Services, Income Support Customers—a statistical overview*.

Building approvals

15 Statistics of building work approvals are compiled from:

- permits issued by local government authorities and other principal certifying authorities;
- contracts let or day labour work authorised by Commonwealth, State, semi-government and local government authorities; and
- major building activity in areas not subject to normal administrative approval e.g. building on remote mine sites.

16 The statistics included in this publication relate to:

- all approved new residential buildings valued at \$10,000 or more; and
- all approved non-residential building jobs valued at \$50,000 or more.

17 Excluded from the statistics are:

- approved alterations and additions to residential buildings; and
- construction activity not defined as building (e.g. construction of roads, bridges, railways, etc.).

Property sales

18 The statistics shown under this heading have been compiled from data provided by the Department of Administrative and Information Services (DAIS), Land Services Group, Office of the Valuer-General.

19 The statistics included only relate to sales for which payment was received equivalent to the full value of the property, and have been shown according to the land use categories prescribed by the *Local Government (Land Use) Regulations, 1989*.

Agriculture

20 The agricultural data presented have been sourced from the Agricultural Census (for the years 1996 and 1997) and from the Agricultural Commodity Survey (for the years 1998 to 2000). For this reason care needs to be taken when comparing Census and survey data.

Agriculture *continued*

21 The estimates, from the Agricultural Commodity Survey (for 1998 to 2000), are based on information obtained from a sample drawn from the total farm population in scope in the collections, and are subject to sampling variability; that is they may differ from the figures that would have been produced if all farms had been included. One measure of the likely difference is given by the standard error (SE), which indicates the extent to which an estimate might have varied by chance because only a sample was taken. There are about 2 chances in 3 that a sample estimate will differ by less than one SE from the figure that would have been obtained if all farms had been included, and about 19 chances in 20 that the difference will be less than two SEs.

22 In this publication, sampling variability of the estimates is measured by the relative standard error (RSE) which is obtained by expressing the SE as a percentage of the estimate to which it refers. If an estimate is identified by a single asterisk (e.g. *2) the RSE lies between 25% and 50%.

23 The value of agricultural commodities produced is derived by multiplying quantity data by price or unit value data. All price data is obtained from non-ABS sources such as marketing boards, wholesalers, brokers and auctioneers.

24 The data presented have been concorded to align with 2001 LGA boundaries using geographic concordances based on September 1998 agricultural business location counts obtained from the ABS Business Register.

Local government finance

25 The source data from which local government finance data are derived are reported by local government authorities in accordance with accounting standards AAS27. (Note: The introduction of new local government accounting regulations in 1993–94 has resulted in a less complete allocation of overheads to infrastructure outlays.)

26 For the purpose of determining the scope of local government finance statistics a local government authority is defined as:

- an authority set up under a local government Act to carry out the functions of local government in a defined area (known as a municipality or district council) the members of which are elected by persons enrolled as electors for the House of Assembly in respect of an address within the area, or who are ratepayers in respect of rateable property within the area. A body corporate is enrolled under the name of a nominated agent; or
- an authority created or acquired by a local government authority (as defined above) or by two or more local government authorities (in South Australia an authority established under Part XIII or Section 199 of the *Local Government Act 1934*).

Motor vehicle registrations

27 New motor vehicle registration statistics are obtained monthly from the state's motor vehicle registration authority and reflect the information recorded in registration documents. The figures shown in this publication have been derived by converting postcode information to information for LGAs, SSDs, and SDs using geographic concordances based on estimated resident population data.

28 The types of motor vehicles included in these statistics are passenger vehicles, light commercial vehicles, rigid trucks, articulated trucks, non-freight carrying trucks and buses.

Income

29 The taxable income data has been sourced from the annual Australian Taxation Office publication and CD-ROM *Taxation Statistics*. The statistics are compiled from individual tax return forms and are presented in aggregate form for the residential postcode address of the taxpayers. The figures shown in this publication have been derived by converting the postcode information to information for Statistical Divisions and subdivisions and LGAs using geographic concordances based on estimated resident population data.

OTHER FORMS OF USAGE

30 Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

GLOSSARY

Age pension	A FaCS payment for people who have reached retirement age. To qualify for the Age Pension a male must be aged 65 years while the age at which a female may qualify depends upon her birth date. The qualifying age for females is being increased gradually to 65 years between 1 July 1995 and 2013. Other eligibility requirements that apply can be referenced in the FaCS publication <i>Income Support Customers—a statistical overview</i> .
Commercial/industrial property sale	Sale of land used for commercial or industrial use within the meaning of the Development Control Regulations (which relate to the <i>Local Government (Land Use) Regulations, 1989</i>). (Shops and offices are included in commercial use while light industry is included in industrial use.)
Crude birth rate	The crude birth rate is the number of live births registered during the calendar year, per 1,000 estimated resident population at 30 June of that year.
Crude death rate	The crude death rate is the number of deaths registered during the calendar year, per 1,000 estimated resident population at 30 June of that year.
Disability support pension	A FaCS payment for people who are unable to work full time at full award wages owing to a substantial physical, intellectual or psychiatric impairment, or who are permanently blind. To qualify for the Disability Support Pension a person must be aged 16 years or over and not have reached Age Pension age.
Dwelling unit	A dwelling unit is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for long-term residential use.
Environmental services	Includes local government outlay on sanitation, garbage services, stormwater drainage, effluent drainage (waste water management), coastal protection, control of agricultural pest plants and animals, landcare and soil erosion projects, and other environmental protection measures.
Estimated resident population	The estimated resident population (ERP) of an area is the estimate of the number of persons who usually reside in that area irrespective of where they were on the date of the estimate. The ERP is the official ABS population figure and is based on adjusting the results of the latest Population Census.
Individual taxable income	Taxable income is the amount remaining after deducting from assessable income all deductions allowed under the Income Tax Assessment Act. Taxable income is the amount to which tax rates are applied. Average taxable income in an area is calculated by dividing the total taxable income by the total number of taxable taxpayers.
Infrastructure	Outlay on goods, services and land related to roadworks, bridges, footpaths, domestic water supply undertakings, electricity supply undertakings and aerodromes.
Labour force	For any group, persons who were employed or unemployed.

Labour force participation rate	For any group, the labour force expressed as a percentage of the civilian population aged 15 years and over in the same group. For the purposes of this publication the DEWR labour force estimate has been divided by the ABS estimated resident population aged 15 years and over.
Local Government Areas	Local Government Areas are spatial units which represent the geographical areas of incorporated local government councils. In South Australia these include cities, municipalities, municipal councils, district councils and rural cities. Local Government Areas are made up of one or more Statistical Local Areas.
Mature age allowance	A FaCS payment that provides assistance to older, long-term unemployed people aged 60 years and over, but below the Age Pension age. Also included under this category is the mature age partner allowance, a FaCS payment to people below the Age Pension age and who are partners of people receiving the Mature Age allowance.
Newstart allowance	A FaCS payment, for working-aged persons who are unemployed, aimed at ensuring recipients participate in activities designed to help their employment prospects. From September 1996, job search allowance and what was then known as Newstart allowance were combined into a single payment called Newstart allowance. For the purposes of this publication, job search and Newstart allowances have been combined prior to September 1996.
Outlay on goods, services and land	Includes current or operating expenses and capital works and purchases. Excludes depreciation, debt servicing, levies and donations paid.
Primary production property sale	Sale of land used for farming, horticulture, commercial forestry, horse keeping or intensive animal keeping, or a dairy within the meaning of the Development Control Regulations (which relate to the <i>Local Government (Land Use) Regulations, 1989</i>).
Rate revenue accrued	Includes general rates and special rates (including penalties), and excludes service rates (i.e. user charges for sewerage, garbage, electricity supply and water supply).
Rates per rateable property	Includes all properties, both residential and non-residential, incurring a general rate.
Residential building	Defined here as being a building consisting of one or more dwelling units.
Residential property sale	Sale of land used for a dwelling within the meaning of the Development Control Regulations (which relate to the <i>Local Government (Land Use) Regulations, 1989</i>).
Statistical Divisions	Statistical Divisions consist of one or more Statistical Subdivisions and form the largest and most stable spatial unit for the presentation of data.
Statistical Local Areas	The Statistical Local Area is a general purpose spatial unit. It is the base spatial unit used by the ABS to collect and disseminate statistics other than those collected from the Population Census.
Statistical Subdivisions	Statistical Subdivisions consist of one or more Statistical Local Areas and form the intermediate size spatial unit for the presentation of regional data.
Unemployment rate	For any group, the number of unemployed persons expressed as a percentage of the labour force in the same group.

- Value of agricultural commodities produced** The value of agricultural commodities produced is the gross value placed on recorded production at wholesale prices realised in the market place. Agricultural commodity production is mainly taken from the ABS Agricultural Census or the ABS Agricultural Commodities Survey and in general the statistics relate to the season ended 31 March each year.
- Youth allowance** This FaCS payment was introduced by the Federal Government on 1 July 1998 to provide income support to young people who are studying, looking for work, or who are sick. Youth Allowance replaces AUSTUDY for 16 to 24 year olds, Newstart Allowance and Sickness Allowance for under 21 year olds, and Youth Training Allowance for 16 to 17 year olds. It also replaces Family Payment for 16 to 18 year old secondary students.

BIBLIOGRAPHY

Further information about the scope, coverage, definitions and explanatory notes, etc. of the data items presented in this publication can be referenced in the publications listed below. Different editions of these publications may need to be referenced to fully explain any changes that may have occurred from year to year. In most cases the actual data shown have been sourced from ABS data not published in publications but available on request.

REGIONAL PROFILES

If the area or information you want isn't included in this publication, our Consultancy Service can tailor a report to meet your needs and your budget.

A *Regional Profile* can be produced for standard geographic areas such as:

- Local Government Areas (LGAs)
- Statistical Local Areas (SLAs)
- Statistical Subdivisions (SSDs)
- Statistical Divisions (SDs)

or any combinations of these areas.....

.....As well as the data found in this publication, the *Profile* includes a set of detailed tables which provide that extra bit of information about the make up of a region.

INQUIRIES

To find out more about *Regional Profiles*, or to order a report for your area, please call Cynthia Millar on 08 8237 7348 or Scott Calvert on 08 8237 7412.
