

## Victoria

Policy makers now have access to better data on road freight movements to inform future road planning, thanks to a joint Federal and State funded report by the Australian Bureau of Statistics (ABS). The report shows the first snapshot of road freight movements in 13 years. A snapshot of data for **Victoria** is contained in this fact sheet. More detailed information is available in *Road Freight Movements, Australia, 2014* (cat. no 9223.0) available for free download from the ABS website.

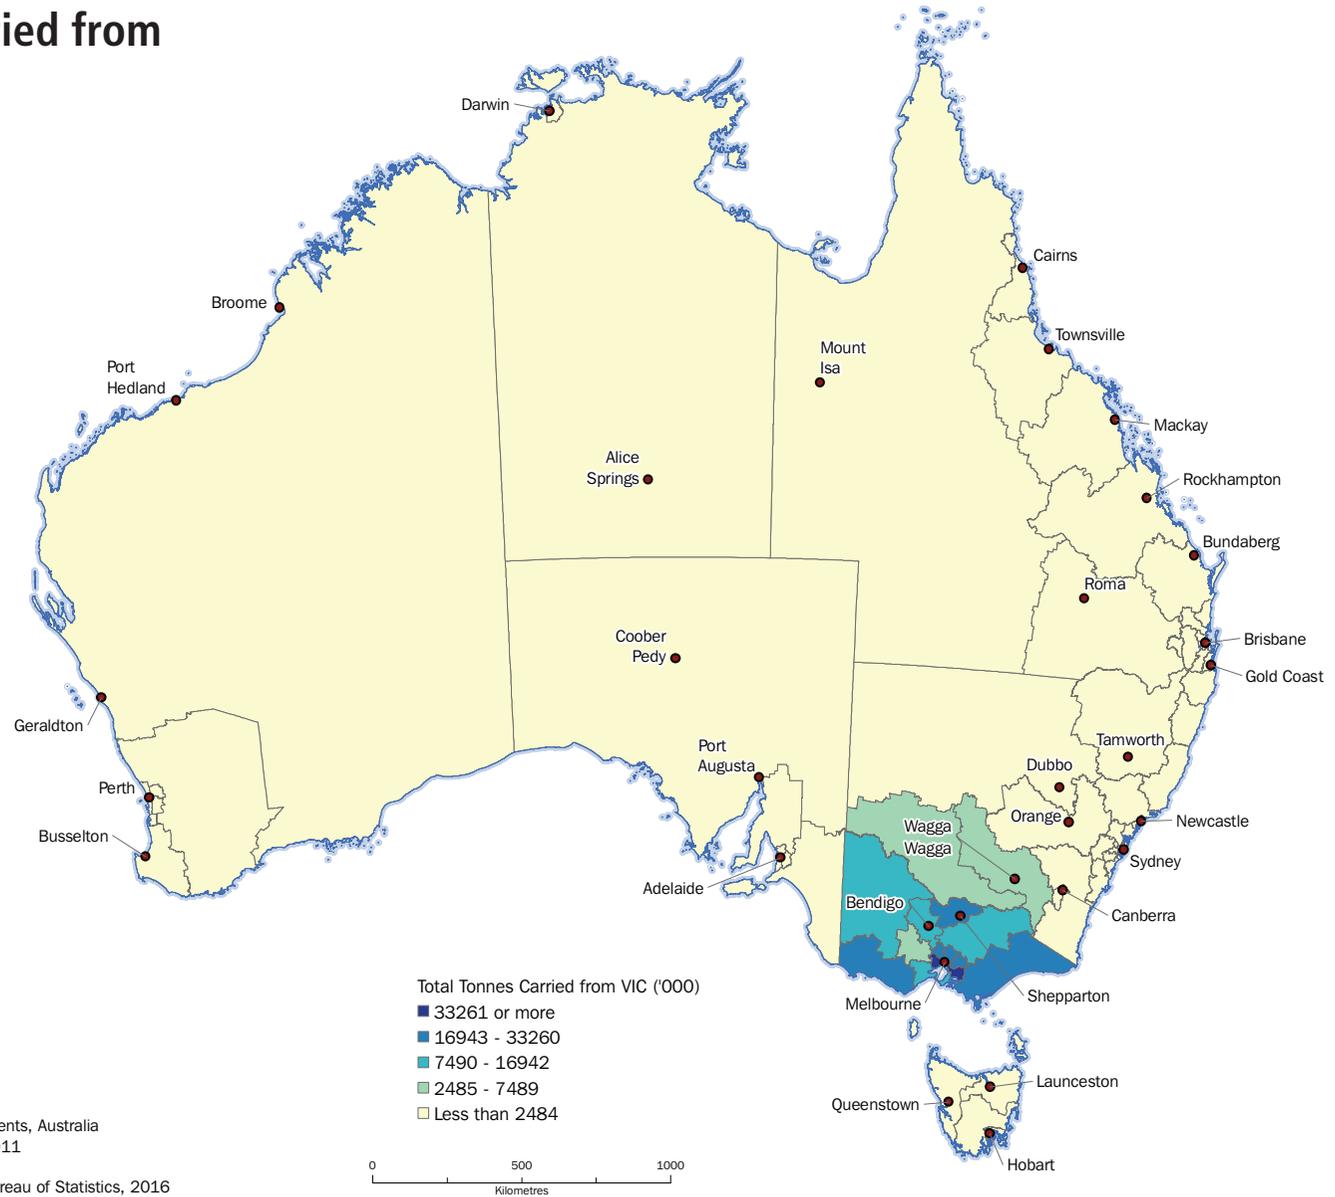

n.a. = not available

				Victoria	Australia	
		Rigid Trucks (million)	Articulated Trucks (million)	All Trucks (million)	All Trucks (million)	% of total
<b>Tonnes Carried</b>	State of Origin	245.9	234.5	480.4	2,131.7	22.5
