2014 ROAD FREIGHT MOVEMENTS

Australian Bureau of Statistics

New South Wales

Policy makers now have access to better data on road freight movements to inform future road planning, thanks to a joint Federal and State funded report by the Australian Bureau of Statistics (ABS). The report shows the first snapshot of road freight movements in 13 years. A snapshot of data for **New South Wales** is contained in this fact sheet. More detailed information is available in Road Freight Movements, Australia, 2014 (cat. no 9223.0) available for free download from the ABS website.
