NOTES

FORTHCOMING ISSUES

ISSUE RELEASE DATE

June Quarter 2001 21 September 2001

INTRODUCTION

This publication contains the results of the quarterly Survey of Tourist Accommodation (STA). The STA includes hotels, motels, guest houses and serviced apartments with 15 or more rooms.

DATA NOTES

The 'takings from accommodation' data collected from 1 July 2000 is on a GST inclusive basis. Care should be taken when comparing takings data from September quarter 2000 onwards with takings from previous quarters.

Some under-reporting of GST has been identified. Adjustments will be made in the next issue of this publication once further information collected from the June quarter 2001 survey has been evaluated. These adjustments are expected to increase takings data for the September quarter 2000 to March quarter 2001 by between 4% and 6%.

CHANGES IN THIS

The scope of the STA was expanded for the four quarters of calendar year 2000 to include holiday flats and units, caravan parks and visitor hostels (see Explanatory Notes for details). From March quarter 2001 the scope only includes hotels, motels, guest houses and serviced apartments with 15 or more rooms or units.

From March quarter 2001 changes have been made to some Statistical Local Areas (SLA) and Tourism Regions (TR) in New South Wales and South Australia. These changes have been made in response to requests from State government tourism agencies. Details of these changes are included in the Explanatory Notes.

ANALYSES AND COMMENTS

HOTELS, MOTELS AND SERVICED APARTMENTS The number of in-scope establishments in the hotels, motels, guest houses and serviced apartments sectors of the tourist accommodation industry increased 1.1% in March quarter 2001 when compared with March quarter 2000. The number of serviced apartments increased 6.2% nationally, with New South Wales recording the largest percentage increase, up 10.5% over the period. Of the 649 serviced apartments in the scope of the Survey of Tourist Accommodation (STA) 272 (42%) are in Queensland. By contrast, New South Wales has the largest share of the 781 licensed hotels and 2400 motels in the scope of the STA.

The supply of guest rooms in Australian hotels and serviced apartments continued to increase, up 5.2% and 9.4% respectively, in March quarter 2001 compared to March quarter 2000. The increase was highest in New South Wales, up 13.6% and 23.0% respectively. Most of the increase in supply occurred in the Sydney Tourism Region during the Olympic Games in September 2000.

The number of guest rooms in motels and guest houses decreased for the fourth successive quarter. All States and Territories recorded decreases in March quarter 2001 compared with March quarter 2000 except South Australia, Western Australia and Northern Territory.

These supply trends are also reflected in the demand for tourist accommodation. Room nights occupied in hotels and serviced apartments increased 3.5% and 10.7% respectively, while motels and guest houses recorded a decrease of 5.6%. The largest percentage changes occurred in New South Wales.

In terms of room occupancy rates, the March quarter 2001 results compared with the March quarter 2000 show an overall decrease of 0.5 percentage points. Serviced apartments recorded a marginal increase of 1.1 percentage points, while occupancy rates in hotels and motels fell 0.5 percentage points and 1.6 percentage points respectively. Tasmania was the only State or Territory to record increases across all accommodation types, up 2 percentage points to 68.2%.

Guest arrivals increased a modest 1.3% across Australia in the March quarter 2001, when compared to the corresponding quarter in 2000. While guest arrivals in serviced apartments and hotels increased 14.7% and 1.5% respectively, these were largely offset by a 2.3% decline in motel guest arrivals. These patterns were reflected in most States and Territories except Queensland, Western Australia and the Northern Territory which recorded positive growth in motel guest arrivals over the period.

Accommodation takings in hotels, motels, guest houses and serviced apartments for the year ended 31 March 2001 totalled 4.77 billion of which just over half was taken by licensed hotels. This represented a 13.0% increase on the previous year. Takings increased between the two years by 20.3% for serviced apartments, 15.8% for licensed hotels and 4.6% for motels.

ANALYSES AND COMMENTS

HOTELS, MOTELS AND SERVICED APARTMENTS March quarter 2001 takings from hotels, motels and guest houses, and serviced apartments increased 9.5% compared with March quarter 2000. Takings from serviced apartments increased 18.8% across Australia with New South Wales up 29.9% to \$63.7 million. Takings from hotels increased 11.2% to \$619 million while takings from motels recorded an increase of 1.4% to \$343 million.

EXPLANATORY NOTES

INTRODUCTION

SCOPE

- **1** This publication contains data from the ABS quarterly Survey of Tourist Accommodation (STA). The STA is a mailout collection that completely enumerates all in-scope accommodation establishments.
- **2** From the March quarter 1998, the scope and collection strategy for the STA was changed to include only significant accommodation establishments (these are defined below).
- **3** On a quarterly basis, the STA includes hotels, resorts, motels, guest houses and serviced apartments with 15 or more rooms or units.
- **4** Every third year beginning with 2000, the STA expands to also include:
- holiday flats, units and houses of letting entities with 15 or more rooms or units:
- caravan parks with 40 or more powered sites;
- visitor hostels with 25 or more bed spaces.
- **5** The short-term non-residential accommodation which is in scope of the STA is accommodation which is not leased, and which is provided to guests who would generally stay for periods of less than two months.
- **6** Some establishments also provide long-term residential accommodation. For hotels, motels, guest houses and serviced apartments, the amount of such activity is considered to be insignificant and is included in the data presented in this publication.
- **7** The STA includes the following categories of establishments which provide predominantly short-term non-residential accommodation to the general public:
- hotels and resorts with facilities establishments with 15 or more rooms which are licensed to operate a public bar and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- motels, private hotels and guest houses with facilities establishments with 15 or more rooms which are not licensed to operate a public bar, and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- serviced apartments establishments with 15 or more units which mostly comprise self-contained units at the same location, and which are available on a unit/apartment basis to the general public for a minimum of one night; the units should have full cooking facilities (i.e. hot plates and oven/microwave), refrigerator and bath/shower and toilet facilities; all bed linen and towels should be provided, and daily servicing (i.e. cleaning and bed making) must be available through the on-site management, although this service may not necessarily be used.

DEFINITIONS OF ACCOMMODATION ESTABLISHMENTS

EXPLANATORY NOTES continued

CLASSIFICATION CHANGES

8 As a result of the separate classification of serviced apartments from the March quarter 1998, there have been several changes to definitions of accommodation units. Some units, which were formerly in categories such as hotels, motels or holiday flats, units and houses are now classified as serviced apartments. A small number of establishments which were previously classified as motels have been reclassified as holiday flats, units and houses and are therefore no longer in scope of the quarterly STA, except as described in paragraph 4.

COVERAGE

9 Coverage is comprehensive and from the December quarter 1999, has been obtained from the Australian Automobile Association accommodation guide, which is updated twice yearly. This is supplemented by notification of new tourism developments and their likely opening dates in selected guides, major tourism journals and periodicals and newspapers. Periodic comparison to lists of accommodation establishments provided by the various Tourism Commissions and Industry Associations is also undertaken.

DATA QUALITY

- **10** The survey does not have a sample component and the data are not subject to sampling variability. However, other inaccuracies collectively referred to as non-sampling error may affect the data. These non-sampling errors may arise from a number of sources, including:
- errors in the reporting of data by respondents;
- errors in the process of capturing data;
- estimation for missing data; and
- definition and classification errors.

Every effort has been made to reduce non-sampling error to a minimum by careful design and testing of questionnaires, and efficient operating procedures and systems used to compile statistics.

- **11** The March quarter 2001 response rates were:
- 92% licensed hotels
- 91% motels and guest houses
- 94% serviced apartments

REGIONAL DATA

12 Survey results are aggregated to Tourism Regions as defined by relevant State and Territory Tourist Commissions or equivalent organisations. Details of the composition of Tourism Regions, including maps, are available on request.

ANNUAL CAPACITY DATA

- **13** ABS releases counts of accommodation establishments and their capacity as at the end of December each year in respect of the pre-1998 scope of the survey (but recognising serviced apartments separately) as follows:
- hotels, motels and guest houses and serviced apartments with facilities and having five or more rooms;
- holiday flats, units and houses (other than those included with serviced apartments) which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short term letting;
- lacktriangledown all caravan parks regardless of size; and
- all visitor hostels regardless of size.
- **14** As a result of classification changes applied from March quarter 1998 onward, data will not be comparable with that previously published for particular accommodation types.
- **15** These counts are published annually in a quarterly issue of *Tourism Indicators*, *Australia* (Cat. no. 8634.0).

EXPLANATORY NOTES continued

STATISTICS AVAILABLE ON REQUEST

16 The ABS makes tourist accommodation data available on request, including statistics for past quarters, for specific areas and specific data items. For example, detailed employment statistics showing the number of full-time, part-time or casual employees may be available. Normally such data is made available on a fee for service basis.

RELATED PUBLICATIONS

Other ABS publications and products which may be of interest include:
 Directory of Tourism Statistics, 2000 (Cat. no. 1130.0) (irregular)
 Overseas Arrivals and Departures, Australia (Cat. no. 3401.0) (issued monthly)

Tourism Indicators, Australia (Cat. no. 8634.0) (issued quarterly)

Tourist Accommodation, Small Area Data Standard Data Service (SDS)

products for each State/Territory (except the ACT) (Cat. no.

8635.n.40.001) (issued quarterly).

18 Current publications produced by the ABS are listed in the *Catalogue of Publications and Products* (Cat. no. 1101.0). The ABS also issues the *Release Advice* (Cat. no. 1105.0) on Tuesdays and Fridays which lists publications to be released in the next few days. Both are available from any ABS office or the ABS web site.

EFFECTS OF ROUNDING

19 Where figures have been rounded, discrepancies may occur between totals and the sum of the component items.

TOURISM REGION CHANGES

20 From March quarter 2001 changes have been made to some Statistical Local Areas (SLA) and Tourism Regions (TR) in New South Wales and South Australia.

New South Wales areas that have changes:

The following Tourism Regions have had Statistical Local Area changes: Illawarra, Capital Country, Mid North Coast, Hunter

The following Tourism Regions have had name changes:

Murray renamed The Murray

Central West renamed Explorer Country

Northern Rivers renamed Northern Rivers Tropical NSW

New England/North West renamed Big Sky Country

Outback renamed The Living Outback

Mid North Coast and Holiday Coast have merged and are now named North Coast NSW

South Australian areas that have changes:

The following Tourism Regions have had Statistical Local Area changes: Adelaide, Fleurieu Peninsula, Mid North, Yorke Peninsular, Flinders Ranges, Murraylands and South East

The following Tourism Region has had a name change:

Far North renamed Outback SA

The following new Tourism Regions have been created: Adelaide Hills and Clare Valley

Further details of these changes may be found in:

Tourist Accommodation, Small Area Data, New South Wales (Cat. no. 8635.1.40.001)

Tourist Accommodation, Small Area Data, South Australia (Cat. no. 8635.4.40.001)

Average length of stay Average length of stay is expressed in numbers of days and calculated by dividing

Guest nights by Guest arrivals.

Bed spaces Three-quarter beds are counted as one bed space; double beds as two bed

spaces. Cots are excluded.

Capacity Capacity in terms of Guest rooms/units or Bed spaces is the maximum number

available to accommodate paying guests during the survey period. Capacity

closed temporarily for seasonal reasons is included.

Establishments The number of hotels, motels and guest houses and serviced apartments within

the scope of the survey which operated for any part of the survey period, or

which closed temporarily for the quarter for seasonal reasons.

Guest arrivals The total number of paying guests counted only on the first night they stayed at

the accommodation establishment during the survey period.

Guest rooms
The maximum number of rooms available at each establishment during the

survey period for accommodating short-term paying guests. Units and apartments within serviced apartments are treated as rooms in these survey

results.

Occupancy Occupancy in terms of *Room nights* refers to the total number of nights each

guest room or unit was occupied during the survey period.

Occupancy in terms of *Guest nights* refers to the total number of paying guests counted on each night they stayed at the accommodation establishment during

the survey period.

Occupancy rates Occupancy rates represent occupancy expressed as a percentage of total

capacity available during the survey period, e.g. for the period

Room occupancy rate (%) = $\frac{Room\ nights\ occupied}{(Guest\ rooms)\ \times\ (No.\ of\ days\ in\ the\ period)}\ \times\ 100$

providing that, for establishments closing (other than for seasonal reasons) or opening during the survey period, the denominator of the above expression

includes only operating periods.

Persons employed The total number of persons working at each accommodation establishment at

the end of the survey period (including working proprietors and those working

on other than accommodation activities).

Room nights available The number of guest rooms/units available multiplied by the number of days for

which they were available during the survey period. For establishments closing (other than for seasonal reasons) or opening during this period, operating

periods only are included.

Star grading

The grading of hotels, motels and guest houses with facilities and serviced apartments based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

From the June quarter 1999, some (very few) large establishments not star graded by the AAA have been allocated a star grade by the ABS for Survey of Tourist Accommodation statistical tabulation purposes.

Takings from accommodation

Gross revenue from the provision of accommodation, including bed taxes. Takings from meals are excluded. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month.

FOR MORE INFORMATION...

INTERNET www.abs.gov.au the ABS web site is the best place to

start for access to summary data from our latest publications, information about the ABS, advice about upcoming releases, our catalogue, and Australia Now—a

statistical profile.

LIBRARY A range of ABS publications is available from public and

tertiary libraries Australia-wide. Contact your nearest library to determine whether it has the ABS statistics you require, or visit our web site for a list of libraries.
