### **MAIN FEATURES**

**EMPLOYMENT** 

State comparisons trend estimates

The Australian and State *trend* series comparisons are given on page 25. There was a decrease of 2.5% in Tasmania's employment over the year to November 1997. The largest percentage increase in employment was in Queensland (2.9%). Next followed Western Australia (2.5%), South Australia (0.8%) and Victoria (0.5%). New South Wales had no change in employment.

### EMPLOYMENT, TASMANIA

Regional comparisons original terms

In the Hobart and Southern Statistical Divisions the estimate of employment in *original* terms in September 1997 was 94,500, and compares with 100,100 in September 1996. The estimate of employment in the Northern Statistical Division in September 1997 was 53,700 and compares with 58,700 in September 1996. The estimate of employment in the Mersey-Lyell Statistical Division was 43,500 in September 1997, and compares with 41,300 in September 1996. (See tables 3–8, pages 2–7.)

### THE LABOUR FORCE

Trend estimates

There were an estimated 218,200 persons (based on *trend* estimates) in the labour force in November 1997 and an estimated 369,800 civilian Tasmanians aged 15 years or more, yielding a labour force participation rate of 59.0%. This compares with 60.1% in November 1996.

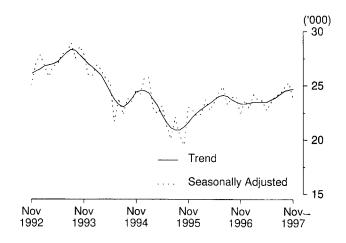

For males, the *trend* estimate of the participation rate was 70.1%, compared with 70.7% for November 1996. For females, the *trend* estimate of the participation rate was 48.3%, compared with 49.8% in November 1996. (See table 3, page 2.)

#### UNEMPLOYMENT

Trend estimates

The *trend* estimate of the number of unemployed persons in Tasmania for November 1997 was 24,700. This compares with 23,300 for November 1996. The *trend* estimate of the unemployment rate of 11.3% in November 1997 compares with 10.5% in November 1996. (See tables 3–8, pages 2–7.)

### UNEMPLOYMENT, TASMANIA

#### AWARD RATES OF PAY INDEXES

Original terms

The movement from June 1996 to June 1997 of weekly award rates of pay indexes for Tasmania was 1.1% for full-time adult females and 0.7% for full-time adult males, for a combined annual increase of 0.8%. For Australia, the figures were 1.9% for females and 1.2% for males, for a combined annual increase of 1.4%.

For full-time adult female employees in Tasmania, the largest industry increases over this 12 month period occurred in the Transport and storage industry (6.9%); and the Recreational, personal and other services industry (2.3%).

For the same period for full-time adult male employees in Tasmania, the largest industry increases occurred in the Recreation, personal and other services industry (1.9%); and the Transport and storage industry (1.6%).

The largest occupation increases over the same period for full-time adult female employees occurred in Para-professionals (2.6%), Tradespersons(1.2%) and Clerks (1.2%).

For full-time adult male employees the largest occupation increase over the period occurred in Clerks (0.9%); and Salespersons and personal service workers (0.9%). (See table 15, page 11.)

### HOUSE PRICE INDEXES

Original terms

The price index for established houses (based on actual sales) in Hobart fell by 1.1% in the September quarter 1997, resulting in a decrease of 5.1% for the year ending September 1997. Canberra was the only other capital to record a decrease for the year with -1.7%. The largest increases in the index for the year ending September 1997 were recorded in Melbourne (8.5%) and Sydney (5.2%). The smallest increase for the same period was recorded in Brisbane (0.2%).

The weighted average for the eight capital cities increased by 1.8% for the September quarter 1997 and 4.3% for the year ending September 1997.

Project home prices remained steady in Hobart for the year ending September 1997. Capital cities recording increases in the index for the year ending September 1997 were Darwin (2.5%) Sydney (2.3%) Melbourne (1.0%) and Adelaide (0.5%). Decreases were recorded by Brisbane (-1.5%) Perth (-0.2%) and Canberra (-0.4%). The weighted average for the eight capital cities increased by 0.5% over the same period.

(Source: *House Price Indexes: Eight Capital Cities*, ABS catalogue number 6416.0)

### LIVESTOCK SLAUGHTERING

Trend estimates

In October 1997, the *trend* estimate for the slaughtering of cattle and calves in Tasmania was 0.6% higher than the previous month. Over the same period, the number of sheep and lambs slaughtered increased by 1.3% while the number of pigs slaughtered remained virtually unchanged.

In October 1997, the *trend* estimate of the number of cattle and calves slaughtered was 24,100 which was 15.8% above the number slaughtered in October 1996.

The *trend* estimate for the slaughtering of sheep and lambs was 76,900 in October 1997, which was 31.8% above the number slaughtered in October 1996. This was the fourteenth successive monthly increase in the number of sheep and lambs slaughtered in Tasmania, and 16.5% above the *trend* estimate for October 1995.

The *trend* estimate of 6,800 pigs slaughtered in October 1997 was 6.5% above the number slaughtered in October 1996, and 8.7% below the *trend* estimate for October 1995. (See table 21, page 16)

### **BUILDING APPROVALS**

Original terms

There were 163 dwelling units approved in Tasmania during October 1997. This was 9.4% above the September 1997 figure of 149 and a decrease of 14.2% on the number recorded for October 1996 (190).

For the twelve months ended October 1997 there were 1,812 new dwelling units approved, 20.3% below the 2,273 units recorded for the twelve months ended October 1996.

The value of new residential buildings approved, at current prices, in October 1997 was \$13.9 million, slightly above the September 1997 figure and 19.8% below the October 1996 figure.

The value of all building approved, at current prices, in October 1997 was \$28.0 million, 7.0% below the September 1997 figure and 11.0% below the October 1996 figure. (See table 27, page 20.)

### HOUSING FINANCE

#### Trend estimates

The trend estimate for the number of new secured housing finance commitments entered into in Tasmania in October 1997 was 799 dwellings, a slight increase on the previous month's figure of 795, but lower when compared to the October 1996 figure of 1,028.

The value of new commitments has risen steadily since March 1997 to the October 1997 figure of \$60.4 million. However, when compared to the October 1996 value of \$68.5 million, a fall of 11.8% is observed over the twelve month period.

Nationally, the total number of Australian dwelling commitments decreased slightly between September and October 1997, however the value of these commitments increased 0.8% over the same period. When examining the annual change in the number of housing commitments, an increase of 11.7% is observed. (See table 28, page 20.)

# NEW MOTOR VEHICLE REGISTRATIONS

### Original Terms

There were 1,387 new motor vehicles (excluding motorcycles) registered in Tasmania during October 1997. This was 7.7% below the 1,503 registered in September 1997 and 6.1% above the figure for October 1996 (1,307).

Of the new motor vehicles (excluding motorcycles) registered in October 1997 in Tasmania, 252 were vehicles registered by vehicle rental businesses compared with 547 registered by vehicle rental businesses in September 1997 and 213 in October 1996. (See table 34, page 24.)

#### **TAXATION**

### Original terms

Taxes, fees and fines collected by Australian governments in the 1996–97 financial year totalled \$162,961 million. The Commonwealth Government collected \$124,638 million, or 76.5% of the total. State and local government collected \$38,323 million, or 23.5% of the total. The largest component of the Commonwealth taxes, fees and fines was income taxes levied on individuals of \$66,278 million, or 53.2% of the total Commonwealth taxes collected.

Tasmanian State and local taxes, fees and fines for the 1996–97 financial year were \$819 million, which is \$1,729 per head of population (based on mean population figures), an increase of 2.4% on the previous year's figure of \$1,689 per head. Tasmanians paid the second lowest amount of State and local taxes, fees and fines per head in 1996–97. In comparison, residents of New South Wales paid \$2,293 per head, the highest of all the States and Territories, while Queenslanders paid \$1,673 per head, the lowest of all States and Territories.

The average (all States and Territories) amount of State and local taxes, fees and fines paid per head in 1996–97 was \$2,073 per head of population, an increase of 6.6% on the 1995–96 figure of \$1,944 per head. Both the level of, and annual increase in Tasmanian State and local taxes, fees and fines per head, is below the national average (all States and Territories).

(Source: Taxation Revenue: Australia, ABS catalogue number 5506.0)

# PRIVATE NEW CAPITAL EXPENDITURE

Original terms

Total private new capital expenditure in Tasmania for the September quarter 1997 was \$174 million. This was marginally below the \$175 million recorded in the June quarter 1997 and 15.2% above the September quarter 1996 figure of \$151 million. (See table 30, page 21.)

# SURVEY OF TOURIST ACCOMMODATION

Original terms

The room occupancy rate for hotels, motels and guest houses in Tasmania for the September quarter 1997 was 39.5%, compared with 38.7% recorded in the September quarter 1996.

The unit occupancy rate for holiday flats, units and houses in Tasmania for the September quarter 1997 was 37.1%, compared with 35.5% recorded in the September quarter 1996.

The site occupancy rate for caravan parks in Tasmania for the September quarter 1997 was 29.4%, a slight increase on the 28.3% recorded in the September quarter 1996. (See table 33, page 23.)

### **RETAIL**

Original terms

In *original* terms, the estimate of retail turnover for Australia in October 1997 was \$11,433.2 million, 5.7% above the figure recorded in October 1996.

In *original* terms, the estimate of retail turnover for Tasmania in October 1997 was \$278.1 million, 7.6% above the figure recorded for October 1996.

Trend estimates

The *trend* estimate of retail turnover for Australia in October 1997 was \$11,210.5 million, 5.4% higher than for October 1996.

The *trend* estimate of retail turnover for Tasmania in October 1997 was \$274.5 million, 7.6% higher than the October 1996 figure. (See table 35, page 24.)

Source: Australian Dairy Corporation.
Includes the whole milk equivalent of farm cream intake.
Includes butter equivalent of butter oil.
Includes spinning, weaving and carpet making. Reported by establishments which manufacture textiles only, or manufacture clothing and textiles in the

one plant.

Excludes production of directory newsprint and high grade specialty paper.

Metallurgical refining index (Base: 1979–80 = 100.0) Output from selected establishments covering the smelting and refining of ferro-alloys, zinc and aluminium. The weighting pattern is based on the establishments value added as derived from the 1979–80 Manufacturing Census. For multi-product establishments, value added was apportioned to products on the basis of gross receipts from each product.

There is an annual recalculation of seasonal adjustment factors to include the most recent year's arrivals. This occurs at the end of each financial year and may cause revisions to previously published seasonally adjusted and trend figures. A full time series of seasonally adjusted and trend series from January 1971 is available on request, telephone (03) 6222 5912.

### **EXPLANATORY NOTES**

INTRODUCTION

1 This publication contains latest figures for a comprehensive range of economic indicators. Statistics shown in this publication are the latest available at the date of preparation and may be subject to revision in subsequent issues. In a number of cases figures appearing in this publication are preliminary and are subject to revision in subsequent issues. Reference should therefore always be made to the latest issue or to the statistical publication on the specific subject.

SEASONAL ADJUSTMENT AND TREND ESTIMATION

- 2 Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be more clearly recognised. Seasonal adjustment does not aim to remove the irregular or non-seasonal influences which may be present in any particular month. This means that month-to-month movements of the seasonally adjusted estimates may not be reliable indicators of trend behaviour.
- 3 The smoothing of seasonally adjusted series reduces the impact of the irregular components of the seasonally adjusted series and creates trend estimates. These trend estimates are derived by applying a 13-term Henderson-weighted moving average to all months except the last six. The last six monthly trend estimates are obtained by applying surrogates of the Henderson average to the seasonally adjusted series. Trend series are used to analyse the underlying behaviour of the series over time.
- 4 While this smoothing technique enables estimates to be produced for the latest month, it does result in revisions to the most recent months as additional observations become available. Generally, subsequent revisions become smaller and after 3 months have a negligible impact on the series. Revisions also occur as a result of the annual review of seasonal factors.
- 5 Users may wish to refer to the ABS Publication A Guide to Interpreting Time Series - Monitoring 'Trends' - An Overview (1348.0) for more detailed information on smoothing seasonally adjusted time series data.

**RELATED PUBLICATIONS** 

**6** Current publications produced by the ABS are listed in the *Catalogue of* Publications and Products (1101.0). The ABS also issues, on Tuesdays and Fridays, the Release Advice (1105.0) which lists publications to be released in the next few days. The Catalogue and Release Advice are available from any ABS office.

UNPUBLISHED STATISTICS

7 As well as the statistics included in this and related publications, the ABS may have other relevant unpublished data available. Inquiries should be made to Information Inquiries on (03) 6222 5800 or to any ABS office.

EFFECTS OF ROUNDING

8 Some figures have been rounded and discrepancies may occur between totals and sums of the component items.

SYMBOLS AND OTHER USAGES

### For more information . . .

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the ABS Catalogue of Publications and Products available from all ABS Offices.

### **ABS Products and Services**

Many standard products are available from ABS bookshops located in each State and Territory. In addition to these products, information tailored to the needs of clients can be obtained on a wide range of media by contacting your nearest ABS Office. The ABS also provides a Subscription Service for standard products and some tailored information services.

### National Dial-a-Statistic Line

0055 86 400

Steadycom P/L: premium rate 25c/20 secs.

This number gives 24-hour access, 365 days a year, for a range of important economic statistics including the CPI.

### Internet

http://www.abs.gov.au

A wide range of ABS information is available via the Internet, with basic statistics available for each State, Territory and Australia. We also have Key National Indicators, ABS product release details and other information of general interest.
